The Boxer And The Goal Keeper Sartre Versus Camus:

The Boxer and The Goal Keeper Andy Martin, 2012-05-24 Jean Paul Sartre is the author of possibly the most notorious one liner of twentieth century philosophy Hell is other people Albert Camus was The Outsider The two men first came together in Occupied Paris in the middle of the Second World War and quickly became friends comrades and mutual admirers But the intellectual honeymoon was short lived In 1943 with Nazis patrolling the streets Sartre and Camus sat in a caf on the boulevard Saint Germain with Simone de Beauvoir and began a discussion about life and love and literature that would pull them all together and finally tear them apart They ended up on opposite sides in a war of words over just about everything women philosophy politics Their fraught fractured friendship culminated in a bitter and very public feud that was described as the end of a love affair but which never really finished Sartre was a boxer and a drug addict Camus was a goalkeeper who subscribed to a degree zero approach to style and ecstasy Sartre obsessed with his own ugliness took up the challenge of accumulating women Camus part Bogart part Samurai was also a self confessed Don Juan who aspired to chastity Sartre and Camus play out an epic struggle between the symbolic and the savage But what if the friction between these two unique individuals is also the source of our own inevitable conflicts The Boxer and the Goalkeeper Sartre vs Camus reconstructs the intense and antagonistic relationship that was in Sartre's terms doomed to failure Weaving together the lives and ideas and writings of Albert Camus and Jean Paul Sartre Andy Martin relives the existential drama that still binds them inseparably together and remixes a philosophical dialogue that speaks to us now Harold Rosenberg Debra Bricker Balken, 2021-10-06 The biography recounts Rosenberg's full story for the first time Art critic for The New Yorker from 1962 until 1978 Rosenberg together with Clement Greenberg radically reshaped the interpretation of art in the post World War II period by promoting and examining abstract expression But Rosenberg was also a social and literary critic writing about art was just one aspect of his work Harold Rosenberg A Critic's Life weaves together Rosenberg's life and literary production cast against the dynamic intellectual and social ferment of his time Rosenberg's mid century linking of the New York School with the art establishment together with his observations on the commodification of the artwork and the evisceration of the self in favor of celebrity especially in his often cited essay The Herd of Independent Minds make this book especially topical Rethinking Existentialism Jonathan Webber, 2018-07-18 In Rethinking Existentialism Jonathan Webber articulates an original interpretation of existentialism as the ethical theory that human freedom is the foundation of all other values Offering an original analysis of classic literary and philosophical works published by Jean Paul Sartre Simone de Beauvoir and Frantz Fanon up until 1952 Webber's conception of existentialism is developed in critical contrast with central works by Albert Camus Sigmund Freud and Maurice Merleau Ponty Presenting his arguments in an accessible and engaging style Webber contends that Beauvoir and Sartre initially disagreed over the structure of human freedom in 1943 but Sartre ultimately came to accept Beauvoir's view over the next decade He develops the viewpoint that Beauvoir provides a more

significant argument for authenticity than either Sartre or Fanon He articulates in detail the existentialist theories of individual character and the social identities of gender and race key concerns in current discourse Webber concludes by sketching out the broader implications of his interpretation of existentialism for philosophy psychology and psychotherapy

Popular Music, Critique and Manic Street Preachers Mathijs Peters, 2020-07-29 This book explores the ways in which popular music can criticise political social and economic structures through the lens of alternate rock band Manic Street Preachers Unlike most recent work on popular music Peters concentrates largely on lyrical content to defend the provocative claim that the Welsh band pushes the critical message shaped in their lyrics to the forefront Their music this suggests along with sleeve art body art video clips clothes interviews and performances serves to emphasise this critical message and the primary role played by the band s lyrics Blending the disciplines of popular music studies culture studies and philosophy Peters confronts the ideas of German philosopher and social critic Theodor W Adorno with the entire catalogue of Manic Street Preachers from their 1988 single Suicide Alley to their 2018 album Resistance is Futile Although Adorno argues that popular music is unable to resist the standardising machinery of consumption culture Peters paradoxically uses his ideas to show that Manic Street Preachers releases shape critical models with which to formulate social and political critique This notion of the critical model enables Peters to argue that the catalogue of Manic Street Preachers critically addresses a wide range of themes from totalitarianism to Holocaust representation postmodern temporality to Europeanism and from Nietzsche s ideas about self overcoming to reflections on digimodernism and post truth politics The book therefore persuasively shows that Manic Street Preacher lyrics constitute an intertextual network of links between diverse cultural and political phenomena encouraging listeners to critically reflect on the structures that shape our lives

Literature, Interpretation and Ethics Colin Davis, 2024-04-02 Literature Interpretation and Ethics argues for the centrality of hermeneutics in the context of ongoing debates about the value and values of literature and about the role and ethics of literary study Hermeneutics is the endeavor to understand the nature of interpretation as it poses vital questions about how we make sense of works of art our own lives other people and the world around us The book outlines the contribution of hermeneutics to literary study through detailed accounts of role of interpretation in the work of key thinkers such as Martin Heidegger Hans Georg Gadamer Paul Ricoeur Umberto Eco Jacques Derrida and Emmanuel Levinas It also illustrates problems of interpretation posed by specific literary texts and films emphasising how our interpretive acts also entail ethical engagements The book develops a hermeneutics of guarded trust which calls for attention to the agency of art without surrendering critical vigilance Through a series of forays into theoretical texts literary works and films the book contributes to contemporary debates about critical practice and the cultural value Interpretation it suggests is always fallible but it is also essential to our place in the world and to the importance of the humanities
