Back to the Basics of Teaching and Learning David W. Jardine, 2017-07-05 This book is about an ecological interpretive image of the basics Essays detailing everyday lived events in classroom life are presented to help readers see beneath the surface ordinariness of these events to uncover and examine the underlying complex and contested meanings they contain Readers are invited to imagine what would happen to our understanding of teaching and learning if we stepped away from the image of basics as breakdown under which education labors today an image of fragmentation isolation and the consequent dispensing manipulation and control of the smallest simplest most meaningless bits and pieces of the living inheritances that are entrusted to teachers and learners in schools By involving readers in re thinking the idea of the basics in educational theory and practice this book offers a more generous rigorous difficult and pleasurable image of what this term might mean in the living work of teachers and learners This is a valuable text for practicing teachers and student teachers interested in re imagining what is basic to their work and the work of their students It also provides examples of interpretive inquiry that will be helpful for graduate students and scholars in the areas of curriculum teaching and learning who are interested in pursuing this form of research and writing The Second Edition is guided by the view that thinking the world together is a form of ecological thinking adds chapters that take up the ecological aspects of this vision the hermeneutic aspects and curricular aspects in the areas of mathematics reading and writing and social studies included also are chapters on child development information and communications technologies and more proposes a version of the basics that asks teachers to be public intellectuals who think about the world who think about the knowledge we have inherited and to which we are offering our students living breathing access

Finding God at Harvard Kelly K. Monroe, 1997-09-18 Kelly Monroe presents forty two compelling testimonies from faculty members former students and orators at Harvard University whose reflections explode the myth that Christian faith cannot survive a rigorous intellectual environment

The Journey of One Buddhist Nun Sid Brown, 2001-09-27 Recounts the struggles of a young Thai woman to become a Buddhist nun and the challenges and rewards of that life

The Swing of the Pendulum Diane Caracciolo, Courtney Lee Weida, 2017-11-13 Current educational policies particularly in the United States have swung so far in the direction of overtly politicized and decontextualized testing that we are losing opportunities to support the imaginative

and expressive capacities of a generation of children and adolescents with implications for our individual and collective health Enter arts education and the healing arts as urgently needed remedies for this imbalance to swing the pendulum of educational practices back to a place of balance and wholeness Informed by an arts based sensibility this book explores how imaginative creative and artistic experiences can heal and why we urgently need them at the heart of our educational discourses and practices These chapters invite teachers teacher educators and therapeutic professionals to reclaim imaginative arts based experiences as central to the human conditions that they serve The narratives and case studies included here are of interest for any arts based qualitative research course as an example of narrative inquiry and in arts and general education programs for their pedagogical implications As Blake invited us to find the world in a grain of sand and showed us how poetry could materialize this so too these storytellers discover and shape their personal meanings in ceramic pots paintings poems drama and poetry While the stories told here are deeply ingrained interior journeys all reflect ways of observing and embracing the world of others of becoming wise becoming self and becoming skilled practitioners of meaning making By naming and framing they suggest that clarity becomes possible and personal freedom achieved Judith M Burton Teachers College Columbia from the Foreword This anthology offers a substantial number of narratives that represent seeking wholeness sustenance and renewal In many cases the authors provide a tribute to those who have impacted their lives in profound ways This is an important contribution to both art education and literary education in the world of scholarly research Laurel H Campbell Purdue University
