Preventing Home Accidents Dan Hannan, 2012-01-24 Contrary to the perception that the home is a safe environment a person is ten times more likely to sustain a serious injury or die at home as a result of an accident than in the course of their employment This book will help homeowners combat those odds by providing information adapted from proven techniques used by safety professionals Filled with anecdotal descriptions and examples the book offers much more than safety tips as it educates the homeowner in how to control risk through hazard identification Information is concisely organized uniformly formatted and supported by high quality images Chapter topics include fall hazards roofs ladders stairs etc electrical safety fire prevention hand and power tool safety emergency planning and others Added value can be found in the self inspection forms or cheat sheets located at the end of each chapter that the reader can copy to complete their own home safety audit A collection of simple usable safety techniques directed specifically to homeowners like this does not currently exist The target audience is the general public with sales offered through book retail stores building material suppliers i e Home Depot and

possibly homeowner insurance companies Chapter sponsorship opportunities are being pursued through featured products i
e This chapter on ladder safety brought to you by Werner Ladders This chapter on power tool safety brought to you by
DeWalt etc and supporting product imagery for these chapters would feature those manufacturers products There is a
statistical gap between what we think we know and what we actually know about home safety Home safety accidents disable
more than 12 million people in the home every year and are the fifth leading cause of death Forty five percent of all
unintentional deaths occur in and around the home environment claiming the lives of children aging parents spouses
partners and friends making the home environment one of the most hazardous environments we inhabit But how can we
expect to protect ourselves and the ones we love if we aren t even aware there is a problem Hannan says 75% of all
unintentional injuries and deaths in the home hinge on our behavior more specifically on the decisions we make And the first
and most important home safety decision we should make is to improve our hazard recognition skills and become more safety
conscious Homeowner s can t rely on product recalls or state and federal agencies to keep them and their loved ones safe in
the home Unlike other safety campaigns seen in our communities the policing and protection of our home environment
depends entirely on the homeowner This book offers simple techniques to raise home safety awareness and improve our
abilities to recognize hazards correct hazards and prevent unintentional accidents from occurring in the home Each chapter
of has high quality images to illustrate safety procedures identifies problems and hazards in the home recommends safety
practices to assist homeowners in identifying hazards gives action items for proactive prevention of accidents has a safety
inspection checklist allowing homeowners to be thorough and organized in their approach to home safety and lists a
reference section providing links and other resources for additional related safety information **Popular Science** ,1962-01
Popular Science gives our readers the information and tools to improve their technology and their world The core belief that
Popular Science and our readers share The future is going to be better and science and technology are the driving forces that
will help make it better **Multilingual Computing & Technology** ,2005 **The Quest for Fitness** Mark
Michaels,2000-12 The Quest for Fitness A rational exploration into the new science of organizations follows the tradition of
Frederick Taylor and W Edwards Deming by rationally applying scientific principles and processes to understanding the
nature of organization The book recognizes that the environment has changed drastically since Taylor applied Newtonian
principles to describe the industrial organization The synthesis forces the reader to change his her view from considering
how an organization can be created to take control of its environment to how one can be created to survive over time in a
changing environment The Quest for Fitness leaves the reader with a vision of organizations as complex adaptive organisms
striving to stay fit on an ever changing landscape There is an ongoing search to optimize one s position in an uncharted
wilderness Survival is not dependent upon the strongest but upon the ability to adapt as the landscape changes The leaders
of such organizations are no longer commanders but explorers who create network infrastructures enabling information to

be received integrated and shared throughout the organization so that individual parts can best respond to immediate conditions without the total system flying apart *Consumer Behaviour* Michael R. Solomon, Rosemary Polegato, Judith Lynne Zaichkowsky, 2001 For introductory courses in Consumer Behaviour or Consumer Psychology at colleges and universities Also used in MBA courses Using a lively writing style examples that relate directly to students as consumers and cutting edge research this critical examination of marketing practices explains why people buy things and how products services and consumption activities contribute to the broader social world that consumers experience **American city**, 1951-12 **Hardware Retailer**, 1963 Michigan's Oil & Gas News, 2004 **Predicasts F & S Index United States** Predicasts, inc, 1989 A comprehensive index to company and industry information in business journals **F & S Index of Corporations and Industries**, 1978 *American Export Register*, 1980
