The Thyroid Debacle Dr. Eric Balcavage, Dr. Kelly Halderman, 2022-06-07 NO YOU'RE NOT CRAZY Despite seeing dozens of doctors and thyroid specialists being treated with thyroid medication and having normal thyroid labs you still don't feel well Maybe you're still exhausted gaining weight losing hair and feeling depressed foggy or anxious You're not crazy You're not alone And it is not your fault You're simply stuck in the middle of a Thyroid Debacle For decades modern medicine has misunderstood key points about thyroid physiology that has led to the prolonged suffering of millions of Americans most importantly that thyroid disorders are primarily caused by a dysfunctional thyroid gland As a result doctors are taught to rely on an outdated model of testing TSH and T4 and simply replacing thyroid hormone with medication never once asking the question of what's causing the dysfunction in the first place In The Thyroid Debacle Dr Eric Balcavage and Dr Kelly Halderman explore thyroid disorders from a new perspective looking to create a paradigm shift in how doctors and patients understand and approach thyroid physiology They argue that hypothyroidism is more commonly an issue with the functioning of cells not a problem with the thyroid gland itself and that the key is to look at root causes rather than attempt
