04 So the work focuses specifically on what African youth produce as popular culture under what conditions or contexts they produce such work how they produce those texts why they produce them the aesthetic dimensions of these texts as cultural artifacts and why these textual practices matter as social facts as interpretive acts and as cultural symbols of the general cultural activism of young people in a rapidly changing world a world where the global cultural economy is the prime terrain for the relentless struggles over the meanings that come to shape political economic and social systems *Encyclopedia of Polymer Applications, 3 Volume Set* Munmaya Mishra, 2018-12-17 Undoubtedly the applications of polymers are rapidly evolving Technology is continually changing and quickly advancing as polymers are needed to solve a variety of day to day challenges leading to improvements in quality of life The Encyclopedia of Polymer Applications presents state of the art research and development on the applications of polymers This groundbreaking work provides important overviews to help stimulate further advancements in all areas of polymers This comprehensive multi volume reference includes articles contributed from a diverse and global team of renowned researchers It offers a broad based perspective on a multitude of topics in a variety of applications as well as detailed research information figures tables illustrations and references The encyclopedia provides introductions classifications properties selection types technologies shelf life recycling testing and applications for each of the entries where applicable It features critical content for both novices and experts including engineers scientists polymer scientists materials scientists biomedical engineers macromolecular chemists researchers and students as well as interested readers in academia industry and research institutions Jay Pather, Performance, and Spatial Politics in South Africa Ketu H. Katrak, 2021-03-02 Jay Pather Performance and Spatial Politics in South Africa offers the first full length monograph on the award winning choreographer theater director curator and creative artist in contemporary global performance Working within the contexts of African studies dance theater and performance Ketu H Katrak explores the extent of Pather s productive career but also places him and his work in the South African and global arts scene where he is considered a visionary Pather a South African of Indian heritage is known as a master of space site and location Katrak examines how Pather s performance practices place him in the center of global trends that are interdisciplinary multidisciplinary collaborative and multimedia and that cross borders between dance theater visual art and technology Jay Pather Performance and Spatial Politics in South Africa offers a vision of an artist who is strategically aware of the spatiality of human life who understands the human body as the nation s collective history and who is a symbol of hope and resilience after the trauma of violent segregation *Residential Architecture as Infrastructure* Stephen H. Kendall, 2021-11-29 This edited collection provides an up to date account by a group of well informed and globally positioned authors of recently implemented projects public policies and business activities in Open Building around the world Countless residential Open Building projects have been built in a number of countries some without knowledge of the original theory and methods These projects differ in architectural style building industry methods economic system and social aims National

building standards and guidelines have been promulgated in several countries Finland China Japan Korea providing incentives and guidance to Open Building implementation Businesses in several countries have begun to deliver advanced FIT OUT systems both for new construction and for retrofitting existing buildings demonstrating the economic advantages of the responsive independent dwelling This book also argues that the open building approach is essential for the reactivation of the existing building stock for long term value because in the end it costs less The book discusses these developments in residential architecture from the perspective of an infrastructure model of built environment This model enables decision makers to manage risk and uncertainty while avoiding a number of problems often associated with large fast moving projects such as separation and distribution of design tasks and responsibility and the ensuing boundary frictions Residential Architecture as Infrastructure adds to the Routledge Open Building Series and will appeal to architects urban designers researchers and policy makers interested in this international review of current projects policies and business activities focused on Open Building implementation

Breaking a Rainbow, Building a Nation Rekgotsofetse Chikane, 2018-10-01 Breaking a Rainbow Building a Nation is a first hand account of the university protests that gripped South Africa between 2015 and 2017 widely better known as the FeesMustFall Chikane outlines the nature of student politics in the country before during and after the emergence of MustFall politics exploring the political dynamics that informed and drove the student protests and the effect that these MustFall movements have had on the nature of youth politics in the country Chikane looks at how the current nature of youth politics is different from previous youth upheavals that have defined South Africa specifically due to the fact that the protests were being led by so called coconuts who are part of the black elite Breaking a Rainbow Building a Nation poses the provocative question can coconuts be trusted with the revolution
