les Fatimides et la mer (909-1171) David Bramoullé, 2019-11-04 The Fatimids 10th 12th centuries C E are known to have been the first Shiite caliphal dynasty and to have founded Cairo the city that became their capital in 973 when they left Tunisia for Egypt During their reign the Fatimids built an effective war fleet that inflicted several defeats on Christian navies This is the first study on the Fatimid naval force and more generally on the role of the sea for the Fatimids whose territories touched both the Mediterranean and the Red Sea The documentation presented in this study demonstrates how in the course of two centuries this Ismaeli dynasty set up a maritime policy and developed a communication strategy in which their control of the sea helped legitimize their universalist

aesthetic forms such as house decoration embroidery and tattooing which lay exclusively within the domains of women onto the body of a conquered city Gallois argues that these works were created by women as a form of emergency art intended to offer amuletic protection for the community and demonstrates how they differ markedly from classical Islamic antecedents and modern modes of Arab cultural production in the Middle East and North Africa Based on extensive archival research this study is both a record of a unique moment in the history of art and a challenge to rethink the spiritual force and agency of a group of anonymous female artists whose paintings aspired to help save the world at a time of great peril It will be welcomed by scholars of art history Islamic studies Middle East studies and the history of magic **Kandinsky and Klee in Tunisia**

The Lost Libraries of Tunis Laura Hinrichsen, 2024-08-19 Only little is known about the book culture of Tunis although the city had been a centre for teaching and learning throughout af id rule in Ifr qiya c 1230 to 1574 The libraries of Tunis are considered lost since the sack of the city by the armies of the emperor Charles V in the summer of 1535 This study reconstructs for the first time the original holdings of Tunis medieval libraries and shows what can still be learned from these recovered fragments An in depth analysis of a wide range of texts and artefacts shows that the af id libraries were looted and their collections redistributed mostly among European collectors The Lost Libraries of Tunis brings Early Modern scholarship on Arabic texts and language into context by utilising the manuscripts from Ifr qiya as a source to map the interest in and scholarship on Arabic manuscripts in Early Modern Europe With an art historical and sociohistorical interpretation of the reconstructed manuscript corpus The Lost Libraries of Tunis challenges views accepted among Islamic art historians and describes a dynamic and vivid regional book culture of the Maghreb embedded in the wider Arabic manuscript tradition precisely showing strong interaction and exchange

British Museum,1891 **Women, Gender, and the Palace Households in Ottoman Tunisia** Amy Aisen Kallander,2013-09-01 In this first in depth study of the ruling family of Tunisia in the eighteenth and nineteenth centuries Kallander investigates the palace as a site of familial and political significance Through extensive archival research she elucidates the domestic economy of the palace as well as the changing relationship between the ruling family of Tunis and the government thus revealing how the private space of the palace mirrored the public political space Instead of viewing the period as merely a

precursor to colonial occupation and the nation state as emphasized in precolonial or nationalist histories this narrative moves away from images of stagnation and dependency to insist upon dynamism Kallander explains She delves deep into palace dynamics comparing them to those of monarchies outside of the Ottoman Empire to find persuasive evidence of a global modernity She demonstrates how upper class Muslim women were active political players exerting their power through displays of wealth such as consumerism and philanthropy Ultimately she creates a rich view of the Husaynid dynastic culture that will surprise many and stimulate debate and further research among scholars of Ottoman Tunisia
