Uber Car Service Reviews:

Law and the "Sharing Economy" Derek McKee, Finn Makela, Teresa Scassa, 2018-11-27 Controversy shrouds sharing economy platforms It stems partially from the platforms economic impact which is felt most acutely in certain sectors Uber drivers compete with taxi drivers Airbnb hosts compete with hotels Other consequences lie elsewhere Uber is associated with a trend toward low paying precarious work whereas Airbnb is accused of exacerbating real estate speculation and raising the cost of long term rental housing While governments in some jurisdictions have attempted to rein in the platforms technology has enabled such companies to bypass conventional regulatory categories generating accusations of unfair competition as well as debates about the merits of existing regulatory regimes Indeed the platforms blur a number of familiar distinctions including personal versus commercial activity infrastructure versus content contractual autonomy versus hierarchical control These ambiguities can stymie legal regimes that rely on these distinctions as organizing principles including those relating to labour competition tax insurance information the prohibition of discrimination as well as specialized sectoral regulation This book is organized around five themes technologies of regulation regulating technology the sites of regulation local to global regulating markets and regulating labour Together the chapters offer a rich variety of insights on the regulation of the sharing economy both in terms of the traditional areas of law they bring to bear and the theoretical perspectives that inform their analysis Published in English

Everyone's a Critic Bill Tancer, 2014-10-16 More than 70% of customers consult online reviews and take them very seriously A disgruntled customer on Yelp might have more clout than a guidebook magazine or newspaper This review driven marketplace terrifies many businesses But some have learnt to navigate and profit from customer reviews Bill Tancer takes readers on a fascinating journey inside that world to find out why one Los Angeles barber advertised his one star reviews and how one scrappy hotel became the highest rated in London Tancer's fascinating stories and data driven research reveal how sites like Yelp and TripAdvisor are changing the way we interact and show how business owners can leverage online reviews to find greater success

Equal Is Unfair Don Watkins, Yaron Brook, 2024-05-01 Shows that government intervention in all areas of our lives not income inequality is what's really threatening the American Dream Mallory Factor New York Times bestselling author of Shadowbosses We've all heard that the American Dream is vanishing and that the cause is rising income inequality The rich are getting richer by rigging the system in their favor leaving the rest of us to struggle just to keep our heads above water To save the American Dream we're told that we need to fight inequality through tax hikes wealth redistribution schemes and a far higher minimum wage But what if that narrative is wrong What if the real

threat to the American Dream isn't rising income inequality but an all out war on success In *Equal is Unfair* a timely and thought provoking work Don Watkins and Yaron Brook reveal that almost everything we've been taught about inequality is wrong You'll discover why successful CEOs make so much money and deserve to how the minimum wage hurts the very people it claims to help why middle class stagnation is a myth how the little known history of Sweden reveals the dangers of forced equality The critics of inequality are right about one thing the American Dream is under attack But instead of fighting to make America a place where anyone can achieve success they are fighting to tear down those who already have The real key to making America a freer fairer more prosperous nation is to protect and celebrate the pursuit of success not pull down the high fliers in the name of equality

Move Rosabeth Moss Kanter, 2015-04-27 Americans are stuck Americans are stuck We live with travel delays on congested roads shipping delays on clogged railways and delays on repairs and project approvals due to gridlocked leadership And when we can't move when goods are delayed and when information networks can't connect then economic opportunity deteriorates and social inequity grows We don't have to take it anymore In *Move* Harvard Business School professor and bestselling author Rosabeth Moss Kanter visits the business leaders mayors transportation advocates and entrepreneurs across the country tackling these challenges through underwater tunnels instant bridges road sensors parking apps bike sharing programs seamless wifi and much more It all adds up to a new vision for American mobility where local leaders and public private partnerships lead the way With unique insight and unrivaled expertise Kanter gives us a sweeping look at the innovative projects vital leaders and bold solutions that are moving our transportation infrastructure toward a cleaner faster and more prosperous future
