Political Questions Larry Arnhart, 2015-08-28 In this enhanced edition Larry Arnhart continues to ask thought provoking questions that illuminate the philosophies of some of the most prominent political thinkers throughout history. This clear well written guide is an ideal supplement to the original texts he recommends at the beginning of each chapter. In addition to his analysis of Plato, Aristotle, Augustine, Aquinas, Machiavelli, Descartes, Rousseau, Hegel, Marx, Nietzsche, and Rawls, the author's well organized and insightful approach provides an even more comprehensive overview than the earlier editions. Supplementing the discussion of Leviathan, the chapter on Thomas Hobbes covers Behemoth. The chapter on John Locke includes his Letter Concerning Toleration as well as the original discussion of Second Treatise of Government. A chapter on Adam Smith has been added which discusses Theory of Moral Sentiments and Wealth of Nations. Leo Strauss is featured with an examination of Persecution and the Art of Writing and Natural Right and History. A final chapter analyzes Steven Pinker's The Better Angels of Our Nature.

Suicide of the West Jonah Goldberg, 2020-01-14 NEW YORK TIMES BESTSELLER An urgent argument that America and other democracies are in peril because they have lost the will to defend the values and institutions that sustain freedom and prosperity Now updated with a new preface Epic and debate shifting David Brooks New York Times Only once in the last 250 000 years have humans stumbled upon a way to lift ourselves out of the endless cycle of poverty hunger and war that defines most of history If democracy individualism and the free market were humankind's destiny they should have appeared and taken hold a bit earlier in the evolutionary record The emergence of freedom and prosperity was nothing short of a miracle As Americans we are doubly blessed because the radical ideas that made the miracle possible were written not just into the Constitution but in our hearts laying the groundwork for our uniquely prosperous society Those ideas are Our rights come from God not from the government The government belongs to us we do not belong to it The individual is sovereign We are all captains of our own souls not bound by the circumstances of our birth The fruits of our labors belong to us In the last few decades these political virtues have been turned into vices As we are increasingly taught to view our traditions as a system of oppression exploitation and privilege the principles of liberty and the rule of law are under attack from left and right For the West to survive we must renew our sense of gratitude for what our civilization has given us and rediscover the ideals and habits of the heart that led us out of the bloody muck of the past or back to the muck we will go

Losing the Plot Leon de Kock, 2016-09-01 In *Losing the Plot* well known scholar and writer Leon de Kock offers a lively and wide ranging analysis of postapartheid South African writing which he contends has morphed into a far more flexible and multifaceted entity than its predecessor If postapartheid literature's founding moment was the transition to democracy writing over the ensuing years has viewed the Mandelaplan project with increasing doubt Instead authors from all quarters are seen to be reporting in different ways and from divergent points of view on what is perceived to be a pathological public sphere in which the plot the mapping and making of social betterment appears to have been lost The compulsion to detect forensically the actual causes of such loss of direction has resulted in the prominence of creative nonfiction A significant adjunct in the rise of this is the new media which sets up a wounded space within which a cult of commiseration compulsively and repeatedly plays out the facts of the day on people's screens This De Kock argues is reproduced in much postapartheid writing And although fictional forms persist in genres such as crime fiction with their tendency to overplot more serious fiction underplots yielding to the imprint of real conditions to determine the narrative construction

T. McGregor,2017-10-25 Understanding and Evaluating Research A Critical Guide shows students how to be critical consumers of research and to appreciate the power of methodology as it shapes the research question the use of theory in the study the methods used and how the outcomes are reported The book starts with what it means to be a critical and uncritical reader of research followed by a detailed chapter on methodology and then proceeds to a discussion of each component of a research article as it is informed by the methodology The book encourages readers to select an article from their discipline learning along the way how to assess each component of the article and come to a judgment of its rigor or quality as a scholarly report

The Ethics of Justice Without Illusions Louis E. Wolcher,2016-06-17 The founding premise of this book is that the nimbus of prestige which once surrounded the idea of justice has now been dimmed to such a degree that it is no longer sufficient to secure the possibility of a good conscience for those who undertake in good faith to make the world a better place in the spheres of politics and law The many decent human beings who have noticed and experienced this diminishment of justice s prestige find themselves in a thoroughly disenchanted existential situation For them the attempt to do justice without the illusion of being grounded in something beyond the sheer facticity of their own performances is a distinctly ethical theme which cries out to be investigated in its own right Heeding the cry this book asks and attempts to answer the following fundamental ethical question is a life in the law even one spent in the pursuit of justice worth living and if so how can a disenchanted person come to bear the living of it without constantly having to engage in self deception If Nietzsche is right that living without illusions is impossible for human beings then the most important ethical implication of this essentially anthropological fact goes far beyond the question of what illusions we ought to choose It must also include the question of whether we should succumb to that most seductive and pernicious of all illusions namely the belief that exercising great care and responsibility in choosing our illusions which we might then call our principles of justice excuses us ethically for what we do to others in their name The culmination of a 10 year legal philosophical project this book will appeal to graduate students scholars and curious non academic intellectuals interested in continental philosophy critical legal theory postmodern theology the philosophy of human rights and the study of individual ethics in the context of law *Managing Complexity Through Social Intelligence* Jeremy Horne,2023-03-07 This book presents solutions to problems that are total and based on thinking about how and why humans have organized themselves It discusses how to avoid the now well documented Holocene Extinction propelled by climate change wars resource depletion desertification degrading knowledge quality famine and deterioration of societies overall It explains why we cannot respond effectively with hedonistic incompetent

corrupt and anarchistic liberal democracy and why neither personality cult regimes can suffice The book offers a model of an organic social structure embodying a collective consciousness of communitarianism and Platonic style ethos Putting an emphasis on the re establishment of Classical Greek virtue it offers solutions to resolve identity politics alienation and meritocracy While doing so the author opposes the everyone is equal ideology to govern the section of policymakers instead circumscribing rights in terms of responsibilities prioritizing education and training to carry forth the ethos of valuing truth above materialism and developing Durkheim s social brain via a new discipline sociointelligence The book goes on to explain how underpinning these elements is a comprehensive elucidation of often misunderstood words like liberty freedom authoritarianism and democracy All of these areas are arranged and combined in uniquely describing the organic society the author deems necessary to avoid human extinction As a result the book presents a new organicity where the emerging transhumanism seeks to transcend hydrocarbon based life with humanly constructed life This book will appeal to students researchers and scholars of political science philosophy and the social sciences interested in a better understanding of complexity democratic theory Holocene Extinction organic thinking and meritocratic societies Femininity, Self-harm and Eating Disorders in Japan Gitte Marianne Hansen, 2015-12-22 From the 1980s onwards the incidence of eating disorders and self harm has increased among Japanese women who report receiving mixed messages about how to be women Mirroring this women s self directed violence has increasingly been thematised in diverse Japanese narrative and visual culture This book examines the relationship between normative femininity and women s self directed violence in contemporary Japanese culture To theoretically define the complexities that constitute normativity the book develops the concept of contradictory femininity and shows how in Japanese culture women s paradoxical roles are thematised through three character construction techniques broadly derived from the doppelgänger motif It then demonstrates how eating disorders and self harm are included in normative femininity and suggests that such self directed violence can be interpreted as coping strategies to overcome feelings of fragmentation related to contradictory femininity Looking at novels artwork manga anime TV dramas and news stories the book analyses both globally well known Japanese culture such as Murakami Haruki s literary works and Miyazaki Hayao s animation as well as culture unavailable to non Japanese readers The aim of juxtaposing such diverse narrative and visual culture is to map common storylines and thematisation techniques about normative femininity self harm and eating disorders Furthermore it shows how women s private struggles with their own bodies have become public discourse available for consumption as entertainment and lifestyle products Highly interdisciplinary it will be of huge interest to students and scholars of Japanese studies Japanese culture and society and gender and women s studies as well as to academics and consumers of Japanese literature manga and animation The Elusive Thomas Jefferson M. Andrew Holowchak, Brian W. Dotts, 2017-11-28 Thomas Jefferson s writings on morality have largely been ignored His thoughts on the subject never developed in any formal work are said to be unsystematic a judgment reinforced by his shift from Stoicism

intentions are critical to Utilitarianism consequences are critical later in life Yet his writings and the moral works he recommended reveal much about his moral sense and views on good living Jefferson valued personal moral improvement had great respect for moral exemplars and drew inspiration from moralists sermonizers novelists poets historians and such role models as Professor William Small and his friend George Wythe

Caste, Communication and Power Biswajit

Das, Debendra Prasad Majhi, 2021-07-12 Caste Communication and Power explores communication and the constitution of caste in Indian society Intimately connected both communication and caste are determined by historical developments The book looks at communication as a lens to study caste and power relations with its immense potential to shape perception and affect ground reality It also studies the evolution of the conceptual and theoretical foundations of caste and power relations and maps their emergence from communicative resources and practices These communication practices are inevitably linked to the social structure with their reliance on symbolic forms of self expression often revealing the underlying ideological attitudes The book studies this interface of culture and media evaluating the caste question and the associated power relations in terms of modes of communication practised in the society

Consciousness and Being Robert C.

Trundle, 2019-02-14 This book is of vital interest to anyone who yearns to know how science theology ethics art and politics do really afford objective truths Not only that but how these truths in seemingly clashing areas are interrelated by common sense and rooted in our incontrovertible consciousness of Being itself Being itself as the basis for truth is defended against truth denying modern philosophers who having headed in the wrong direction with tragic costs of murderous ideologies have completely misunderstood the simple origin of truth in the realist tradition of Aristotle Aquinas Etienne Gilson and others Their profoundness is not bamboozled by the covert and corrupting sophism of today's teachings Anyone interested in surmounting these teachings that include political correctness and a false divide of fact from value which paralyze the very modern ethics that helped to create them should read this book The book reveals how ethics art and politics can be as true as the sciences that inform them

Lost Kingdoms: Hindu-Buddhist Sculpture of Early Southeast Asia Guy,

John, 2014-04-07 A fresh and exciting exploration of Southeast Asian history from the 5th to 9th century seen through the lens of the region's sculpture

The Hijaz Malik Dahlan, 2018-08-01 Dahlan offers an alternative vision of Islamic

governance through the history and promise of the Hijaz the first state of Islam The Hijaz in the west of present day Saudi Arabia was the first Islamic state in Mecca and Medina This new interpretative history offers a fresh vision of Islamic governance and law as a positive force for political reform in the Middle East and beyond Applying key Islamic principles of public good to contemporary life Malik Dahlan challenges two dominant narratives He reclaims the development of Islamic statecraft as the wellspring of collective identity and statesmanship in the Arab world simultaneously influenced and disrupted by Westphalian statehood models and Enlightenment notions of self determination He equally rejects the appropriation of Islamic governance and the Caliphate concept by both the post modern non territorial Al Qaeda and the neo

medievalist ISIS Celebrating the history and untapped potential of a region where Arab leaders built the ideological foundations of an emerging polity The Hijaz is a compelling alternative analysis of governance in the Arabian Peninsula and the global Islamic community and of its interaction with the wider world
