Report to Congress on Programs in Forestry and the Conservation of Biodiversity During Fiscal Year 2023: Results and Funding

1) Introduction

This report is submitted pursuant to sections 118(f) and 119(h) of the Foreign Assistance Act, as amended (P.L. 87-195):

SEC. 118. [22 U.S.C. 2151p–1] TROPICAL FORESTS. (f) ANNUAL REPORT.—Each annual report required by section 634(a) of this Act shall include a report on the implementation of this section.

SEC. 119. [22 U.S.C. 2151q] ENDANGERED SPECIES. (h) ANNUAL REPORTS.—Each annual report required by section 634(a) of this Act shall include, in a separate volume, a report on the implementation of this section.

This report covers programming to conserve biodiversity and manage forests during Fiscal Year (FY) 2023. Biodiversity provides food, water, clean air, and livelihoods, supporting more than half of the global gross domestic product. But nature is in crisis, with threats like overexploitation and land and sea use change pushing species and ecosystems to the brink. USAID plays a critical role in addressing this global crisis, as do its local community, government, civil society, and private sector partners around the world.

In FY 2023, USAID invested in conserving biodiversity and forests, fighting nature crimes, and supporting sustainable fisheries in approximately 60 countries. The Agency also began updating its Biodiversity Policy of 2014 to reflect the current global context for biodiversity conservation and calls for transformative change. The revised Policy, which is expected to be released in November 2024, will describe how USAID can support this change through its work to achieve nature-positive, equitable development across societal systems over the next decade.

2) Funding Overview

Table 1 presents a summary of USAID’s FY 2023 funding for biodiversity, combating wildlife trafficking, and forestry activities by USAID Operating Unit.

USAID helps conserve biodiversity in more than 60 countries, including 13 priority countries and regions designated “Tier One” in the 2014 USAID Biodiversity Policy. With FY 2023 funds, the

Brown, 2014-03-31 A passionate detailed quantified argument for state level tax reform An Inquiry into the Nature and Causes of the Wealth of States explains why eliminating or lowering tax burdens at the state level leads to economic growth and wealth creation A passionate argument for tax reform the book shows that even states with small populations can benefit enormously with the right policies The authors detailed exposition evaluates the impact state and local government policies have on a state s relative performance and economic growth overall backed up with economic data and analysis Facts don t lie But they do point clearly to the failure of so called progressive tax schemes designed more to curry favor with selected constituencies than to create an economic system that leads to individual wealth as the reward for hard work and entrepreneurial risk taking An Inquiry into the Nature and Causes of the Wealth of States is a detailed and critical look at income taxation across the nation and drills down into an analysis of the economic growth or malaise that results from tax policy Arguing eloquently that a state cannot tax itself into prosperity just as the impoverished cannot spend themselves into wealth the authors point out what many inherently know but often fear to say out loud The book provides detailed quantitative analysis and discusses the policy variables that can have enormous effects on the financial well being of states and individual residents such as Personal and corporate income tax rates Total tax burden as a percentage of personal income Estate and inheritance taxes Right to work laws An Inquiry into the Nature and Causes of the Wealth of States shows everyone how to evaluate state level fiscal and economic policies to become more competitive **Annual Report of the Superintendent of Documents** United States.
