House of Commons - Home Affairs Committee: Asylum - HC 71 Great Britain: Parliament: House of Commons: Home Affairs Committee, 2013-10-11 The asylum system is overburdened and under severe pressure The backlog of asylum cases that should have been cleared by 2011 has reached 32 600 with some people waiting up to 16 years for a decision Thousands appear to be living in a sub standard level of housing as part of the COMPASS contract supplied by the private contractors G4S Serco and Clearel These companies must be held accountable The quality of decision making is also of great concern as 30% of appeals against initial decisions were allowed in 2012 The impact of decisions are grave if asylum is not granted when it should be then the UK is failing to protect a vulnerable person If asylum is granted when it is not deserved then the UK may well end up harbouring war criminals and terrorists Those who apply for asylum should be checked against national and international law enforcement agency and security databases to ensure that we are not harbouring those who intend us harm The Home Secretary has to give assurance that any anomalies in the process which have allowed decisions such as this to take place are addressed immediately There are also concerns about the level of support available to those who seek asylum in the UK The Immigration and Asylum Act 1999 section 4 which provides a reduced support system for asylum seekers who had had their claim refused but were unable to return to their country of origin through reasons that were no fault of theirs is not a solution

Statelessness and Citizenship Brad K. Blitz, Maureen Lynch, 2011-01-01 In our supposedly borderless world having a nationality and thus access to documents which permit travel and proof of identity has become increasingly important In many parts of the world including the cases in Europe Africa and Asia covered in this collection large groups of people struggle with forms of de facto or de jure statelessness In addition to providing a conceptual framework derived from international human rights norms for understanding better the phenomenon of statelessness this collection presents important empirical research material helping

us to understand from the ground up how statelessness is experienced Jo Shaw University of Edinburgh UK What difference does citizenship make The vulnerability of stateless persons clearly demonstrates the benefits of having a nationality But so far nobody has examined how much the situation of stateless persons improves when they finally get documents and citizenship status This exploratory study analyses practical difficulties and real progress in overcoming statelessness It gives voice to the victims and sets a political agenda Academic researchers non governmental organizations and policy makers should read this book Rainer Baub ck European University Institute Florence Italy Embracing a subject that is generally treated abstractly as a matter of human rights law the authors of this pathbreaking book root statelessness deep into historical context and lived experience They emerge with conclusions that are both dismaying the expansive scope of the problem and hopeful the measurable progress some states have made in expanding the boundaries of citizenship Alas this eloquent book could hardly be more timely Linda K Kerber University of Iowa US The United Nations High Commissioner for Refugees estimates that there are more than 12 million stateless people in the world The existence of stateless populations challenges some central tenets of international law and contemporary human rights discourses yet only a very small number of states have made measurable progress in helping individuals acquire or regain citizenship This fascinating study examines positive developments in eight countries and pinpoints the benefits of citizenship now enjoyed by formerly stateless persons The expert contributors present an original comparative study that draws upon legal and political analysis as well as empirical research incorporating over 120 interviews conducted in eight countries and features the documentary photography of Greg Constantine The benefits of citizenship over statelessness are identified at both community and individual level and include the fundamental right to enjoy a nationality to obtain identification documents to be represented politically to access the formal labor market and to move about freely Gaining or reacquiring citizenship helps eliminate isolation and solicits the empowerment of individuals collectively and personally Such changes are of considerable importance to the advancement of a human rights regime based on dignity and respect This highly original and thought provoking book will strongly appeal to a wide ranging audience including academics researchers students human rights activists and government officials with an interest in a diverse range of fields encompassing law international studies public policy human rights and citizenship

Administrative Justice and Asylum Appeals Robert Thomas, 2011-01-18 FIRST PRIZE WINNER OF THE SLS BIRKS PRIZE FOR OUTSTANDING LEGAL SCHOLARSHIP 2011 How are we to assess and evaluate the quality of the tribunal systems that do the day to day work of adjudicating upon the disputes individuals have with government This book examines how the idea of adjudicative quality works in practice by presenting a detailed case study of the tribunal system responsible

for determining appeals lodged by foreign nationals who claim that they will be at risk of persecution or ill treatment on return to their country of origin Over recent years the asylum appeal process has become a major area of judicial decision making and the most frequently restructured tribunal system Asylum adjudication is also one of the most difficult areas of decision making in the modern legal system Integrating empirical research with legal analysis this book provides an in depth study of the development and operation of this tribunal system and of asylum decision making The book examines how this particular appeal process seeks to mediate the tension between the competing values under which it operates There are chapters examining the organisation of the tribunal system its procedures the nature of fact finding in asylum cases and the operation of onward rights of challenge An examination as to how the tensions inherent in the idea of administrative justice are manifested in the context of a tribunal system responsible for making potentially life or death decisions this book fills a gap in the literature and will be of value to those interested in administrative law and asylum adjudication **From**
