Each chapter in Part IV addresses a unique aspect of developing HCT programs. Part V explores various examples of successful transition from the perspective of five key participants in the transition process: patients, caregivers, pediatric providers, adult providers, and third-party payers. Related financial matters are covered in part VI, while Part VII explores special issues such as HCT and the medical home, international perspectives, and potential legal issues. Models of HCT programs are presented in Part VIII, utilizing an example case study. The Essential School Counselor in a Changing Society Jeannine R. Studer, 2014-02-07. Jeannine R. Studer's *The Essential School Counselor in a Changing Society* offers a practical approach to helping students understand the methods and standards in contemporary school counseling. Integrating the new ASCA model as well as the CACREP Standards across all areas of school counseling practice, this core text provides a unique and relevant perspective on the 21st-century school counselor. Studer focuses on ethics and ethical decision making as well as contemporary issues faced by today's counselor, such as crisis response, career counseling, and advisement, group counseling, advocacy, and collaboration. The text begins with coverage of school counseling foundations, addresses intervention and prevention, and devotes the final section to enhancing academics through a positive school culture. Not only does this text address the CACREP standards for school counseling, but it also provides excellent examples and applications of school counseling within the ASCA National Model framework. Karen D. Rowland, Mercer University. This text is a valuable contribution to the profession, addressing the multi-dimensional and complex roles and responsibilities of the 21st-century school counselor.
