Land,Alex C. Michalos,M. Joseph Sirgy,2011-11-25 The aim of the Handbook of Social Indicators and Quality of Life Research is to create an overview of the field of Quality of Life QOL studies in the early years of the 21st century that can be updated and improved upon as the field evolves and the century unfolds Social indicators are statistical time series used to monitor the social system helping to identify changes and to guide intervention to alter the course of social change Examples include unemployment rates crime rates estimates of life expectancy health status indices school enrollment rates average achievement scores election voting rates and measures of subjective well being such as satisfaction with life as a whole and with specific domains or aspects of life This book provides a review of the historical development of the field including the history of QOL in medicine and mental health as well as the research related to quality of work life QWL programs It discusses several of QOL main concepts happiness positive psychology and subjective wellbeing Relations between spirituality and religiousness and QOL are examined as are the effects of educational attainment on QOL and marketing and the associations with economic growth The book goes on to investigate methodological approaches and issues that should be considered in measuring and analysing quality of life from a quantitative perspective The final chapters are dedicated to research on elements of QOL in a broad range of countries and populations A Modern Guide to Wellbeing Research Beverley A. Searle,Jessica Pykett,Maria J. Alfaro-Simmonds,2021-06-25 This insightful Modern Guide explores heterodox approaches to modern wellbeing research with a specific focus on how wellbeing is understood and practised exploring policies and actions which are taken to shape wellbeing It evaluates contemporary trends in wellbeing research including the sometimes competing definitions methods and approaches offered by different disciplinary perspectives Economics of Social Relations Atilano Pena-López,Matías Membiela-Pollán,2024-11-22 Starting from the idea that economic relations are social relations and every economic fact is first a social fact this book explores one of the crucial problems within economic science how to embody the social dimension into the study of economic reality from a critical perspective This book opens with an examination of the concept of social capital incorporating all the approaches from the last 30 years of analysis It reviews the two main orientations of existing

research programmes in social capital the macro or culturalist perspective and the micro or individual social capital Furthermore it proposes a reconstruction of the theory from a micro perspective Finally taking this approach this book explores the link between social capital and the negative aspects of social reality such as corruption or inequality and through the study of so called relational goods the influence of social capital on subjective well being The analysis of the concept of social capital not only involves economists but also requires a necessary bridge with sociology anthropology political science and even psychology This book will therefore be crucial reading for anyone engaged in the problem of the interrelation between economy and society
