West of the One Hundredth Meridian ... Geographical Surveys West of the 100th Meridian (U.S.),1878 West of the Divide

Paula Overton,2021-02-03 West of the Divide By Paula Overton Paula Overton was born and raised in the South She and her husband have traveled extensively all over the world and the United States She loved the Northwest United States including the area West of the Divide The ruggedness of the area remains the same through the years When she first saw the area around the Salmon River even now with the modern highways and cities it remains a wonderful rugged land She thought back about the pioneers who came West to tame this wild land This impeccable spot of the country inspired Overton to write about the settlers experiences And to try and bring to life what it must have been like to settle this terrain Anyone with an interest in the history of the United States and its development especially the area West of the Divide will thoroughly enjoy Paula Overton s work *Hypsometry* William Bowie,U.S. Coast and Geodetic Survey,Henry Godfrey Avers,1914 *Report of the Superintendent of the U.S. Coast and Geodetic Survey Showing the Progress of the Work During the Fiscal Year*

Giza Plateau Mapping Project Mohsen Kamel, Mark Lehner, Ana Tavares, 2009-12-31 Preliminary report on the Ancient Egypt Research Associates 2004 field season The volume covers the 2004 season of clearing and mapping on the 4th Dynasty settlement at the Lost City of the Pyramids Heit el Ghurob HeG site on the Giza Plateau The work at the HeG site encompasses excavations north of the Wall of the Crow in the area East of the Galleries within the Royal Administration Building and in the Eastern Town the Western Dump and areas around the Abu Hol Soccer Field The Archaeology of the Lower City and Adjacent Suburbs

Jenny Mann, Alan Vince, Jane Young, 2016-04-30 This volume contains reports on excavations undertaken in the lower walled city at Lincoln which lies on sloping ground on the northern scarp of the Witham gap and its adjacent suburbs between 1972 and 1987 and forms a companion volume to LAS volumes 2 and 3 which cover other parts of the historic city The earliest features encountered were discovered both near to the line of Ermine Street and towards Broadgate Remains of timber storage buildings were found probably associated with the Roman legionary occupation in the later 1st century AD The earliest occupation of the hillside after the foundation of the colonia towards the end of the century consisted mainly of commercial premises modest residences and storage buildings It seems likely that the boundary of the lower enclosure was designated before it was fortified in the later 2nd century with the street pattern belonging to the earlier part of the century Larger aristocratic residences came to dominate the hillside with public facilities fronting on to the line of the zigzagging main route In the 4th century the fortifications were enlarged and two new gates inserted Examples of so called Dark Earth deposits were here dated to the very latest phases of Roman occupation Elements of some Roman structures survived to be reused in subsequent centuries There are hints of one focus in the Middle Saxon period in the area of St Peter's church but occupation of an urban nature did not recommence until the late 9th century with the first phases of Anglo Scandinavian occupation recorded here Sequences of increasingly intensive occupation from the 10th century were identified with plentiful evidence for industrial activity including pottery metalworking and other crafts as well as parish churches Markets were established in the 11th century and stone began to replace timber for residential structures from the mid 12th century with clear evidence of the quality of some of the houses With the decline in the city's fortunes from the late 13th century the fringe sites became depopulated and there was much rebuilding elsewhere including some fine new houses There was a further revival in the later post medieval period but much of the earlier fabric and surviving stretches of Roman city wall were swept away in the 19th century
