When Tigers Ruled the Sky Bill Yenne, 2016-07-05 From the acclaimed author of Hit the Target and Big Week an in depth account of the legendary World War II combat group the Flying Tigers In 1940 Pearl Harbor had not yet happened and America was not yet at war with Japan But China had been trying to stave off Japanese aggression for three years and was desperate for aircraft and trained combat pilots General Chiang Kai shek sent military aviation advisor Claire Chennault to Washington where President Roosevelt was sympathetic but knew he could not intervene overtly Instead he quietly helped Chennault put together a group of American volunteer pilots This was how the 1st American Volunteer Group more commonly known as the Flying Tigers was born With the trademark smiling shark jaws on their P 40 fighters these Army Navy and Marine pilots became a sensation as they fought for the Chinese Those who initially doubted them were eventually in awe as they persevered over Rangoon despite being outnumbered 14 1 by Japanese aircraft as they were described by Madame Chiang Kai shek as her little angels and by a Chinese foreign minister as the soundest investment China ever made and as they ultimately destroyed hundreds of Japanese planes while losing only a dozen of their own in combat Two of their veterans would later earn the Medal of Honor and as a group the Flying Tigers managed to rack up a better record than any other air wing in the Pacific theater When Tigers Ruled the Sky is a thrilling and triumphant account of their courage and their legacy

Warlords Stuart Laycock, 2011-11-08 The centuries after the end of Roman control of Britain in AD 410 are some of the most vital in Britain's history yet some of the least understood Warlords brings to life a world of ambition brutality and violence in a politically fragmented land and provides a compelling new history of an age that would transform Britain By comparing the archaeology against the available historical sources for the period Warlords presents a coherent picture of the political and military machinations of the fifth and sixth centuries that laid the foundations of English and Welsh history Included are the warring personalities of the local leaders and a look at the enigma of King Arthur Some warlords sought power within the old Roman framework some used an alternative British approach and others exploited the emerging Anglo Saxon system but for all warlords the struggle was for power

The Rise and Fall of an Officer Corps Eric

Setzekorn,2018-08-30 The People s Republic of China is the only large country in the world that does not have a national military its military answers only to a political party the Chinese Communist Party For a brief period in the mid twentieth century China had the makings of a professional apolitical military force The Rise and Fall of an Officer Corps tells the story of that moment in the military history of modern China how it came to be why it ultimately failed and what it meant for China at home and abroad Between 1942 and 1955 a cadre of highly trained nationalistic and cosmopolitan Chinese officers created a professional depoliticized military a force that could effectively represent the aspirations of China as a world power Drawing on multiple archival sources and Chinese military journals author Eric Setzekorn charts the development of this new army as a critical cultural and political force with extensive connections to foreign powers During this period military officers were the primary actors in an intergovernmental partnership between the United States and the Republic of China The partnership gave officers access to educational opportunities and technological transfers that were central to their professional ideals Setzekorn s account of the career of General Sun Li jen an American educated Chinese army officer illustrates the rise of this new sense of professionalism as well as its decline after 1953 Setzekorn then traces the failure of the army building project to a renewed politicization of military forces marked by a purge of key military leaders in 1955 by Chiang Kai shek and his Koumintang KMT party By focusing on this important chapter in Chinese military history Setzekorn s work also highlights broader patterns of military transformation during the pivotal period from World War II through the early Cold War His work is critical to understanding the rise of China as a military and world power **Seek and Destroy**

Repurposed Rebels Mariam Bjarnesen, 2020-09-15 Despite peace agreements demobilization and reintegration processes the end of war does not automatically or necessarily make combatants abandon their wartime rebel networks In Liberia such structures have lingered long after the civil war came to an end in 2003 Weak formal security institutions with a history of predatory behavior have contributed to the creation of an environment where informal initiatives for security and protection are called upon In fragile postwar settings former soldiers can be used as intimidators but have paradoxically reemerged as security providers challenging our understanding of both the setting and the actors beyond the sphere of war Based on original interview material and findings from fieldwork Repurposed Rebels follows former rebel soldiers from the time of civil war to 2013 These actors have reemerged as recycled warriors in times of regional wars and crisis and as vigilantes and informal security providers for economic and political purposes Through these actors Mariam Bjarnesen examines the relevance of postwar rebel networks and ex combatant identity in contemporary Liberia with an eye to understanding the underlying aims of demobilization when reintegration is challenged Bjarnesen argues that these ex combatants have succeeded in reintegrating themselves due to not despite the fact that they have not been truly demobilized
