disappearing past H Net Book Review African government and museum officials members of international agencies academics and journalists examine why the African past is disappearing at a rate perhaps unmatched in any other part of the world Each looks at the international network of looting and trafficking from a different perspective Here for the first time is a frank indictment of African contributions to the problem voiced by the distinguished African essayists The book concludes with a discussion of specific steps that could halt the disappearance of Africa s art and antiquities Theory in Africa, Africa in Theory Stephanie Wynne-Jones, Jeffrey Fleisher, 2015-06-19 Theory in Africa Africa in Theory explores the place of Africa in archaeological theory and the place of theory in African archaeology The centrality of Africa to global archaeological thinking is highlighted with a particular focus on materiality and agency in contemporary interpretation As a means to explore the nature of theory itself the volume also addresses differences between how African models are used in western theoretical discourse and the use of that theory within Africa Providing a key contribution to theoretical discourse through a focus on the context of theory building this volume explores how African modes of thought have shaped our approaches to a meaningful past outside of Africa A timely intervention into archaeological thought Theory in Africa Africa in Theory deconstructs the conventional ways we approach the past positioning the continent within a global theoretical discourse and blending Western and African scholarship This volume will be a valuable resource for those interested in the archaeology of Africa as well as providing fresh perspectives to those interested in archaeological theory more generally **Healing Insanity** Patrick E. shapes the critical path toward understanding ways of healing insanity in a culture specific context crosscutting perspectives for a relationship between indigenous healing and the biomedical sphere Prof Ren Devisch Africa Research Centre University of Leuven This book is written with a clear purpose for everyone to read to understand and heal insanity and indeed provides a thick piece of cultural philosophy and vernacular of Igbo medicine in hopes of putting cultural wisdom in pursuit of integral health care development Prof Pantaleon Iroegbu Professor of Philosophy Major Seminary Ekpoma January 2006 To read this book as I did is to get the benefit of Dr Patrick Iroegbu s ethnographic insight for an archetypical African healing system in Igboland It offers a fascinating theory of symbolic release that speaks of African symbolic action and knowledge system Dr Paul Komba Esq University of Cambridge [African Cultural Personalities in a World of Change](#) Ikechukwu Anthony Kanu,Ejikemeuwa J. O. Ndubisi,Kanayo Nwadiolor,2018-08-16 This notwithstanding over the years the African culture in all its manifestations became the bulls eye for attack especially during the Atlantic Slave Trade Colonialism Racism During these periods Europe dealt coup de grace to the African personality to his is ness by destroying the African cultural values They disrespected African peculiarities languages enriched with traditions of centuries parables many of them the quintessence of family and national histories modes of thought influenced more or less by local circumstances local poetry which reveals the profundity of African literary wizardry A lot of these were altered against the background that the African in all his susceptibilities is an inferior race and that it is needful to give him a foreign model beacon to emulate and follow In our time of globalization bringing about a new sweep of changes on the African cultural values a more careful historically grounded interpretation of the cultural changes occurring on the continent is therefore needed and for it to be useful it should enable us to transcend the narrow and narrowing parameters that currently dominate the discourse on the processes and structures of change occurring in contemporary Africa This piece is a great accomplishment by African scholars to do a grounded hermeneutics of the structures of changes taking place in Africa The different chapters are the fruits of the 2018 International Conference of the Association for the Promotion of African Studies APAS The authors like artists combine originality with insightful imagination They have carefully treated the historical conceptual basic and substantive issues in cultural change in Africa Their coherent systematic and encyclopedic approaches have the capacity to expand the intellectual and professional horizon of its readers *The Accountant* ,1928 **International Cable Directory of the World, in Conjunction with Western Union Telegraphic Code System** International Cable Directory Company,1908
