Going to Hell in a Hen Basket

Robert Alden Rubin, 2015-08-04 A pain staking but hilarious journey amidst the strings and arrows of language misfortune The result is the perfect gift book for word nerds Brevity Malapropism A word or phrase that has been mistaken for another usually because of its sound rather than its meaning Everyone has made the mistake of using a word or phrase that they think sounds correct but in fact is not Malapropisms make some sense They have a semantic logic to them even if that logic makes perfect nonsense In *Going to Hell in a Hen Basket* author Robert Alden Rubin delights in the creative misuse of words and celebrates the verbal and textual flubs that ignore the conventions of proper English Culled from blogs the deepest corners of the internet as well as some of the most esteemed publications here is a collection of classic malapropisms paired with hilarious illustrations Examples include adieu without further Conflation of bidding adieu saying goodbye with ad complicated doings ceremony to mean without saying anything more feeble position An unborn child in a fetal position seems weak and helpless which explains the confusion here The two words also share some sexist cultural and literary associations Feeble weak originates from a Latin word for something to be wept over fetal relating to a fetus originates from the same preliterate Indo European word that gives us female Perfect for bookworms and wordsmiths the point here isn't to shame the malapropagandists but to delight in the twists and turns writers put our language through and to amuse and inform those of us who care about words

African Svelte Daniel Menaker, 2016-10-18 For language lovers this book with all its verbal tangles and wit is sure to in its own words pass mustard Poets Writers Inspired by Daniel Menaker's tenure at the New Yorker this collection of comical revelatory errors foraged from the wilds of everyday English comes with commentary by the author illustrations by Roz Chast and a foreword from Billy Collins During his time at the renowned magazine Menaker happened across a superb spelling mistake The zebras were grazing on the African svelte Fascinated by the idea of unintentionally meaningful spelling errors he began to see that these gaffes neither typos nor auto corrects are sometimes more interesting than their straight laced

counterparts Through examples he has collected over the course of his decades long career as an editor and writer he brings us to a new understanding of language how it s used what it means and what fun it can be Illustrated by the inimitable Roz Chast with a foreword by former poet laureate Billy Collins The African Svelte offers thoughtful and intelligent exit Jesus With both uniquely happy accidents and familiar fumbles like for all intensive purposes and doggy dog world readers delighted by language will find themselves turning the pages with baited breath to discover fresh howlers that have them laughing off their dairy airs

Discovering Artificial Economics David F. Batten, 2019-03-01 I Ve live in an astornshingly complex world Yet what we do in our everyday lives seems simple enough Most of us conform to society s rules pursue familiar strategies and achieve reasonably predictable outcomes In our role as economic agents we simply peddle our wares and earn our daily bread as best we can So where on earth does this astonishing complexity come from Much of it is ubiquitous in nature to be sure but part of it lies within and between us Part of it comes from those games of interaction that humans play games against nature games against each other games of competition games of cooperation In bygone eras people simply hunted and gathered to come up with dinner Today you can find theoretical economists scratching mysterious equations on whiteboards not even blackboards and getting paid to do this In the modern economy most of us make our living in a niche created for us by what others do Because we ve become more dependent on each other our economy as a whole has become more strongly interactive
