Let's Talk About Varsity, 2009 **South Africa Can Work** Frans Rautenbach, 2017-08-18 What will it take to turn South Africa around In this insightful and provocative book Frans Rautenbach proposes a complete overhaul of policy thinking and provides fresh arguments that effectively address South Africa s unemployment race problems and lack of education Rautenbach examines the fundamental problem of rent seeking to which he proposes two antidotes the free market and decentralisation of government Along the way he tackles holy cows such as affirmative action trade unions labour law and welfare payments He also addresses contentious topics such as racism white privilege political correctness state funding of higher education and mounting evidence that trade unions substantially suppress employment growth Written by a labour lawyer with a proven track record in a range of policy issues South Africa Can Work speaks effectively to a cross section of readers of all disciplines and brings sorely needed good news From School to Higher Education? Michael Cosser, Jacques Du Toit, 2002 This substantive report is essential reading for those involved in higher education planning and policy making ETDP SETA Scarce & Critical Skills Guide 2010/11 , Discrimination in an Unequal World Miguel Angel Centeno, Katherine S. Newman, 2010-09 Is globalization making our world more equal or less Proponents of globalization argue that it is helping and that in a competitive world no one can afford to discriminate except on the basis of skills Opponents counter that globalization does nothing but provide a meritocratic patina on a consistently unequal distribution of

opportunity Yet despite the often deafening volume of the debate there is surprisingly little empirical work available on the extent to which the process of globalization over the past quarter century has had any effect on discrimination Tackling this challenge Discrimination in an Unequal World explores the relationship between discrimination and unequal outcomes in the appropriate geographical and historical context Noting how each society tends to see its particular version of discrimination as universal and obvious the editors expand their set of cases to include a broad variety of social relations and practices However since methods differ and are often designed for particular national circumstances they set the much more ambitious and practical goal of establishing a base with which different forms of discrimination across the world can be compared Derived from a broad array of methods the book draws many important lessons on the new means by which the world creates social hierarchies the democratization of inequality and the disappearance of traditional categories

Youth and Higher Education in Africa. The Cases of Cameroon, South Africa, Eritrea and Zimbabwe Donald P. Federal Student Loans Tatiana Shohov, 2004 Title IV of the Higher Education Act HEA authorises the major federal student aid programs including the student loan programs which are the largest source of aid for students In FY2000 the

Federal Family Education Loan FFEL programs and the Federal Direct Student Loan DL program supported an estimated 33.1 billion in new loan volume. Several types of loans are available: Federal need-based subsidized Stafford loans under which the government pays the interest while the borrower is in school; a grace period of deferment; unsubsidized Stafford loans; Federal PLUS loans for parents of undergraduate students; and Federal Consolidation loans. Overall student loan volume has been increased in recent years from 24 billion in FY1994 to 33 billion in FY2000. The number of loans being made has increased over the same period going from 6,483,000 to 8,618,000. The average amount that individual students are borrowing in any given year has not increased as dramatically. This new book examines important issues related to this cornerstone of American higher education.

Indentured Students Elizabeth Tandy Shermer, 2021-08-03. It is widely understood that student loan assistance has inflated college tuition, student debt, and lender profits. Less often recognized is that these outcomes were intended. Elizabeth Tandy Shermer uncovers the history of federal student loans showing that they were designed to appease constituencies opposed to affordable higher education.

Popping the Higher Education Bubble: How to Navigate the Impending Student Loan Crisis Mike Fishbein, 2014-04-17. Cheap credit on student loans coupled with widespread beliefs of ever-increasing returns on investment has caused college tuition to vastly outpace inflation and family incomes. From 1976 to 2010, commodities prices rose 280% and home prices rose 400% while private education rose an incredible 1000%. While the price of education has skyrocketed, the value of a degree has not kept pace. The increase in supply of degree holders has created an imbalance in the labor market. In 1940, only one in 20 Americans held a college degree. By 1977, that number had soared to one in four. Over the past 30 years, higher education has gone from facilitating upward mobility to exacerbating inequality. For the first time in history, the majority of unemployed Americans attended college, and it's no more expensive than ever to go to college. Student debt is now greater than 1 trillion, and many graduates are unable to secure employment sufficient to pay off these loans. As a result, students are increasingly beginning to default on these loans. *Popping the Higher Education Bubble* discusses the causes of the economic bubble, the harmful effects it has had, potential solutions to the problems, an analysis of whether college is still a wise purchase, and more. The higher education bubble has many similarities to the housing bubble. By comparing the student loan bubble to the mortgage bubble, this book also identifies potential outcomes and investment opportunities were the student debt bubble to pop.
