

National Student Financial Aid Scheme (NSFAS)

NSFAS is a **government loan scheme**, with the added incentive of a bursary conversion (maximum of 40%) depending on academic performance.

- If you do well, 40% of this can be converted to a bursary!!
 - If you fail, you will have to pay back EVERYTHING!
-
- **Academically deserving and financially needy students** have the opportunity to apply for a loan from NSFAS, part of which can be converted to a bursary, subject to academic results.
 - Loans do not always cover tuition fees and other study costs in full. The amount of the loan is determined, among other things, by the family's financial need and the student's cost of study.
 - Application forms available online: www.nsfas.org.za

began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa. More broadly it radically questioned the socio-political dispensation resulting from the 1994 social pact between big business, the ruling elite and the liberation movement. The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left. Yet its objectives are more complex than those of earlier struggles. The student movement has challenged the hierarchical top-down leadership system of university management and its double-speak of professing to act in workers and students' interests yet entrenching a regressive system for control and governance. University managements, while on one level amenable to change, have also co-opted students into their ranks to create co-responsibility for the highly bureaucratized university financial aid that stands in the way of their social revolution. This book maps the contours of student discontent a year after the start of the FeesMustFall revolt. Student voices dissect colonialism, improper compromises by the founders of democratic South Africa, feminism, worker rights, and meaningful education. In-depth assessments by prominent scholars reflect on the complexities of student activism, its impact on national and university governance, and offer provocative analyses of the power of the revolt.

Going to University. The Influence of Higher Education on the Lives of Young South Africans Jennifer Case, Delia Marshall, 2018-02-09. Around the world more young people than ever before are attending university. Student numbers in South Africa have doubled since democracy and for many families higher education is a route to a better future for their children. But alongside the overwhelming demand for higher education, questions about its purposes have intensified. Deliberations about the curriculum, culture, and costing of public higher education abound from student activists, academics, parents, civil society, and policy makers. We know from macro-research that South African graduates generally have good employment prospects. But little is known at a detailed level about how young people actually make use of their university experiences to craft their life courses. And even less is known about what happens to those who drop out. This accessible book brings together the rich life stories of 73 young people six years after they began their university studies. It traces how going to university influences not only their employment options but also nurtures the agency needed to chart their own way and to engage critically with the world around them. The book offers deep insights into the ways in which public higher education is both a private and public good and it provides significant conclusions pertinent to anyone who works in and cares about universities.

Higher Education, 2023-11-02 COVID wrought havoc on the world's economic systems Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems Some institutions were prepared for the required transition to online learning Most were not Whether prepared or not educators rose to the challenge The innovativeness of educators met the challenges as digital learning replaced the face to face environment In fact some of the distance models proved so engaging that many students no longer desire a return to the face to face model As with all transitions some things were lost while others were gained This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century The book is organized into four sections on Perils and Promises The State of Online Education Goals and Challenges of Online Learning and Innovations in the Age of COVID It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process These discussions shed light on the impact of the pandemic and the future of higher education post COVID Higher education has been forever changed and higher education as it once was may never return While many questions arise the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic

The Rise of the Radical Right in the Global South Rosana Pinheiro-Machado, Tatiana Vargas-Maia, 2023-05-31 The Rise of the Radical Right in the Global South is the first academic study adopting an interdisciplinary and international perspective to offer a comprehensive and groundbreaking framework for understanding the emergence and consolidation of

different radical right movements in Global South countries in the twenty first century From deforestation and the anti vaccine movement in Bolsonaro s Brazil to the massacre of religious minorities in Modi s India the rise of the radical right in the Global South is in the news every day Not long ago some of these countries were globally celebrated as emerging economies that consolidated vibrant democracies Nonetheless they never overcame structural problems including economic inequality social violence cultural conservatism and political authoritarianism Featuring case studies from Brazil India the Philippines and South Africa and more generally from Africa and Latin America this book analyses future scenarios and current alternatives to this political movement to the radical right It proposes a shift of focus in examining such a trend adopting a view from the Global South conventional theoretical tools developed around the experience in Global North countries are not enough The authors show that the radical right in the Global South should be analysed through specific lenses considering national historical patterns of political and economic development and instability They also warn that researching these countries may differ from contexts where democratic institutions are more reliable This does not mean abandoning a transnational understanding of the radical right rather it calls for the opposite the chapters examine how the radical right is invented adapted modified and resisted in specific regions of the globe This volume will be of interest to all those researching the radical right and the politics of development and the Global South

Knowledge Beyond Colour Lines Monwabisi K. Ralarala,Salochana Lorraine Hassan,Rajani Naidoo,2021-05-25 Knowledge remains timely in education The need for academics to contemplate its relevance worth use and everything in between deems a continuous intellectual project rather than a conundrum to be solved This book takes the South African context by the horns as it challenges the

often dormant and traditionalist ways in which higher education spaces see knowledge Through original research and the voices of academics and students this book argues for repurposing knowledge generation knowledge sharing and critical pedagogy so that more inclusive teaching and learning environments can be both imagined and sustained The contentious tensionalities that this creates for LoLT and SoTL in particular are unlocked so as to trouble the South African higher education landscape with the intent to proffer alternative pathways for a knowledge beyond colour lines Prof Shan Simmonds PhD NWU This edited volume bristles with fresh scholarly approaches and insights of an emergent generation of engaged scholars grappling with the issues and problems of higher education in South Africa The issues dealt with here are varied and encompassing They are treated with intellectual delicacy and probing sensitivity articulacy informed data and bold conclusions They serve well Prof Kwesi Kwaa Prah Emeritus Professor of Sociology University of the Western Cape Founder of the Centre for Advanced Studies of African Society *Financing Higher Education Worldwide* D. Bruce Johnstone, Pamela N. Marcucci, 2010-06-07 No issue in higher education is as salient or as controversial as finance As demand for higher education around the world grows so do the costs associated with it especially as governments shoulder less of the burden Tuition fees rise and student loan debt grows Who pays for these surging costs Who should pay D Bruce Johnstone and Pamela N Marcucci examine the universal phenomenon of cost sharing in higher education where financial responsibility shifts from governments and taxpayers to students and families They find that growing costs for education far outpace public revenue streams that once supported it Even with financial aid and scholarships defraying some of these costs students are responsible for a greater share of the cost of higher education Featuring comprehensive economic and policy data the authors international comparative approach shows how economically diverse countries all face similar cost sharing challenges So who should pay for higher education While cost sharing is both politically and ideologically debated Johnstone and Marcucci contend that for almost all countries it is imperative for the financial health of colleges and universities bringing better efficiency equity and responsiveness *Financing Higher Education Worldwide* combines sophisticated economic explanations with sensitive political and cultural analyses of the financial pressures facing higher education throughout the world **Routledge Handbook of African Social Work Education** Susan Levy, Uzoma Odera Okoye, Pius T.
