

GROUP CHALLENGE

Articulations: "Simon Says"

Working in groups of three or four, play a game of "Simon Says" using the movements defined in the exercise (see pages 173–175). One student will play the role of "Simon" while the others perform the movement. For example, when "Simon" says, "Simon says, perform flexion at the elbow," the remaining students would flex their arm. Take turns

playing the role of Simon. As you perform the movements, consider and discuss whether the joint allows for other movements and whether the joint is uniaxial, biaxial, or multiaxial. (Use Table 11.1 as a guide.) After playing for 15–20 minutes, complete the following tables.

	Name of joint	Movements allowed
1. List two uniaxial joints and describe the movements at each.		
2. List two biaxial joints and describe the movements at each.		
3. List two multiaxial joints and describe the movements at each.

Sister Secrets Susan Sheppard,2023-06-05 Until Jewel Westin met Rett Bardo she would have considered herself a girl who walked the straight and narrow Without question the small town preacher s daughter adopted the beliefs and morals of her Christian upbringing But when Jewel violated her conscience and agreed to sing backup for Rett s band at a bar it changed the trajectory of her future With honeyed words Rett lured her further from her family and godly values into a world of stardom shrouded in lies deceit and ultimate betrayal As she rose to fame the one who had vowed to love honor and cherish her became her greatest enemy Under dire circumstances Jewel summoned the courage to go home only to find she did not run far enough Disappointed and heartbroken she ran further becoming estranged from her family When tragedy struck the Westin household Jewel had to risk unveiling the biggest secret of her life to be there for her family Would this be enough to reset the course of her life

Readiness and recuperation of the Armed Forces Great Britain: Parliament: House of Commons: Defence Committee,2010-02-10 The Defence Committee states that the forthcoming Strategic Defence Review should take account of the current low readiness levels of the Armed Forces and the need for their effective recuperation The Armed Forces have been involved in operations in Iraq and Afghanistan for many years while maintaining key standing tasks such as the strategic nuclear deterrent and UK air defence They have been deployed above the Defence Planning Assumptions the level at which they are structured and funded for seven years Nevertheless the Committee considers it unsatisfactory that readiness levels have been allowed to fall to the extent that they have and recommends that the Strategic Defence Review reviews the utility and content of the Defence Planning Assumptions and readiness targets Recuperation is the process by which force elements are returned to target levels of readiness It involves all the underlying components manpower equipment training and logistics support The drawdown of troops from Iraq should provide the MoD with an opportunity to recuperate the Armed Forces and to reverse the fall in readiness But there have also been pressures on personnel with significant numbers of the Army and the Marines and those in key pinch point trades such as medical personnel being deployed more frequently than the MoD would wish breaking harmony guidelines If readiness is to be improved then the Army must return to being deployed within harmony guidelines as soon as practicable **The International**
