Swallow Angela Turner, 2015-11-15 Known as heralds of spring and beautiful elegant flyers swallows are among the most beloved of familiar birds Because they return with the spring swallows as Angela Turner explains have long been associated with the renewal of life love fidelity and fertility while their ability to travel incredible distances has given them associations with freedom and speed That freedom however hasn't kept them from becoming familiar figures in towns and cities They often seem to even seek out human company for example barn swallows are known for nesting in our buildings and purple martins in our back yards Destruction of their natural habitat however has proved dangerous to some species of swallow and recent years have seen some populations dwindling to the point of near extinction Turner outlines the reasons for these declines as part of her engaging account of the natural and cultural history of this beloved bird

A Handbook to the Swallows and Martins of the World Angela Turner, Chris Rose, 2010-06-30 This reference guide gives general details about the swallows and martins of the world These include appearance the basic coloration and differences

between the sexes and immatures and the function of other areas of colouring Several species within the same geographical area are often segregated by feeding in different habitats or at different heights or by eating different size classes of insects The two sub families one being the two river martins the other containing about 72 species mainly in the genus *hirundo* are dealt with including their distribution and migration patterns Feeding courtship and breeding habits are considered together with details of nesting sites clutch size incubation and life span Finally the population sizes of the various species are examined noting that whilst many have expanded their range by using man made structures forest species probably remain small and one species the Red Sea swallow is known from only one specimen The book follows the same approach style and presentation as *The Herons Handbook* published in 1985 It is illustrated by the winner of the prestigious British Birds Illustrator of the Year Award and the author has contributed to many scientific papers and journals including BBC's *Wildlife Magazine*

Barn Swallow Angela Turner, 2002-09-01 [RSPB Spotlight Swifts and Swallows](#) Mike Unwin, 2018-06-28

RSPB Spotlight Swifts and Swallows is packed with eye catching informative colour photos and features succinct detailed text written by a knowledgeable naturalist People all over Britain and Europe have long welcomed the arrival of swifts and swallows as a promise of summer being just around the corner And with their similar long wings and dashing flight it is perhaps understandable that we often confuse the two birds After all they have much in common both feed on flying insects both breed around buildings and both are long distance migrants that spend winter in Africa But appearances can be deceptive Swifts and swallows are completely unrelated birds that have adapted through evolution to survive in similar ways In *Spotlight Swifts and Swallows* Mike Unwin reveals their fascinating lifestyles explains how and why they have acquired their similarities and ways in which we can help protect them The *Spotlight* series introduces readers to the lives and behaviour of our favourite animals with eye catching colour photography and informative expert text

Palgrave Advances in John Clare Studies Simon Kövesi, Erin Lafford, 2020-10-22 This collection gathers together an exciting new series of critical essays on the Romantic and Victorian period poet John Clare which each take a rigorous approach to both persistent and emergent themes in his life and work Designed to mark the 200th anniversary of the publication of Clare's first volume of poetry *Poems Descriptive of Rural Life and Scenery* the scholarship collected here both affirms Clare's importance as a major nineteenth century poet and reveals how his verse continually provokes fresh areas of enquiry Offering new archival theoretical and sometimes corrective insights into Clare's world and work the essays in this volume cover a multitude of topics including Clare's immersion in song and print culture his formal ingenuity his environmental and ecological imagination his mental and physical health and his experience of asylums This book gives students a range of imaginative avenues into Clare's work and offers both new readers and experienced Clare scholars a vital set of contributions to ongoing critical debates

The Swallow Stephen Moss, 2020-10-29 From the bestselling author of *The Robin* *The Wren* and *The Twelve Birds of Christmas* With around 700 000 breeding pairs the swallow is one of the most familiar birds in Britain

Though we consider the swallow to be our bird we also share this beloved creature with millions of others across the globe Whilst we see it on a daily basis for half the year the swallow then flies south to Africa living on only in our memory in the long dark winter In *The Swallow* Stephen Moss documents a year of observing the swallow close to home and in the field to shed light on the secret life of this extraordinary bird We trace the swallow's life cycle and journey including the epic 12 000 mile round trip it takes every year to enable it to enjoy a life of almost eternal sunshine and the key part the swallow plays in our traditional and popular culture With beautiful illustrations throughout this captivating year in the life biography reveals the hidden secrets of this charismatic and beautiful bird PRAISE FOR STEPHEN MOSS A superb naturalist and writer Chris Packham Inspired friendly and blessed with apparently limitless knowledge Peter Marren Moss has carved out an enviable niche as a chronicler of the natural world Daily Mail

Nestwork Jennifer Clary-Lemon, 2023-08-01 As more and more species fall under the threat of extinction humans are not only taking action to protect critical habitats but are also engaging more directly with species to help mitigate their decline Through innovative infrastructure design and by changing how we live humans are becoming more attuned to nonhuman animals and are making efforts to live alongside them Examining sites of loss temporal orientations and infrastructural mitigations Nestwork blends rhetorical and posthuman sensibilities in service of the ecological care In this innovative ethnographic study rhetorician Jennifer Clary Lemon examines human nonhuman animal interactions identifying forms of communication between species and within their material world Looking in particular at nonhuman species that depend on human development for their habitat Clary Lemon examines the cases of the barn swallow chimney swift and bobolink She studies their habitats along with the unique mitigation efforts taken by humans to maintain those habitats including building barn swallow gazebos and artificial chimneys and altering farming practices to allow for nesting and breeding What she reveals are fascinating forms of rhetoric not expressed through language but circulating between species and materials objects Nestwork explores what are in essence nonlinguistic and decidedly nonhuman arguments within these local environments Drawing on new materialist and Indigenous ontologies the book helps attune our senses to the tragedy of species decline and to a new understanding of home and homemaking

03-11-2022, **The Most Perfect Thing** Tim Birkhead, 2016-04-12 A bird s egg is a nearly perfect survival capsule an external womb and one of natural selection s most wonderful creations Shortlisted for the Royal Society Insight Investment Science Book Prize 2016 One of Forbes Best Books About Birds and Birding in 2016 Renowned ornithologist Tim Birkhead opens this gripping story as a female guillemot chick hatches already carrying her full quota of tiny eggs within her undeveloped ovary As she grows into adulthood only a few of her eggs mature are released into the oviduct and are fertilized by sperm stored from copulation that took place days or weeks earlier Within a matter of hours the fragile yolk is surrounded by albumen and the whole is gradually encased within a turquoise jewel of a shell Soon the fully formed egg is expelled onto

a rocky ledge where it will be incubated for four weeks before a chick emerges and the life cycle begins again THE MOST PERFECT THING is about how eggs in general are made fertilized developed and hatched Birkhead uses birds eggs as wondrous portals into natural history enlivened by the stories of naturalists and scientists including Birkhead and his students whose discoveries have advanced current scientific knowledge of reproduction **Low-Carbon Birding** Javier Caletrío,2022-09-06 Birdwatching in Britain has grown increasingly dependent on burning fossil fuels Regularly driving long distances to birding hotspots and frequent flying to see exotic species are seen as perfectly normal In the face of the climate crisis however a growing number of birders are reassessing the way they enjoy and study birds In this timely book 30 contributors from young birdwatchers to professional ornithologists explain why and how they are shifting to climate friendlier approaches Low carbon birding they argue is a legitimate and valuable way of enjoying birds Furthermore in itself this can bring many joys some of them unexpected From first encounters with hawfinches to focusing in on birdsong from the Kalahari to the Hebrides the stories told here are not about heroic efforts to save the planet They are simply accounts of everyday humanity in unprecedented times ordinary people with doubts and concerns about how to live a decent life and act responsibly in a rapidly warming world The authenticity of their voices is a testament to the moment of awakening to the climate crisis in British ornithology Above all Low Carbon Birding is an urgent call for birders to leave a better legacy in the skies and across the living world Birdscapes Jeremy Mynott,2021-10-12 What draws us to the beauty of a peacock the flight of an eagle or the song of a nightingale Why are birds so significant in our lives and our sense of the world And what do our ways of thinking about and experiencing birds tell us about ourselves Birdscapes is a unique meditation on the variety of human responses to birds from antiquity to today and from casual observers to the globe trotting twitchers who sometimes risk life limb and marriages simply to add new species to their life lists Drawing extensively on literature history philosophy and science Jeremy Mynott puts his own experiences as a birdwatcher in a rich cultural context His sources range from the familiar Thoreau Keats Darwin and Audubon to the unexpected Benjamin Franklin Giacomo Puccini Oscar Wilde and Monty Python Just as unusual are the extensive illustrations which explore our perceptions and representations of birds through images such as national emblems women s hats professional sports logos and a Christmas biscuit tin as well as classics of bird art Each chapter takes up a new theme from rarity beauty and sound to conservation naming and symbolism and is set in a new place as Mynott travels from his home patch in Suffolk England to his away patch in New York City s Central Park as well as to Russia Australia and Greece Conversational playful and witty Birdscapes gently leads us to reflect on large questions about our relation to birds and the natural world It encourages birders to see their pursuits in a broader human context and it shows nonbirders what they may be missing British Wildlife ,2006 **Naming Thy Name** Elaine Scarry,2016-11-29 A fascinating case for the identity of Shakespeare s beautiful young man SHAKESPEARE S SONNETS ARE indisputably the most enigmatic and enduring love poems written in English They also may be the most often argued

over sequence of love poems in any language But what is it that continues to elude us While it is in part the spellbinding incantations the hide and seek of sound and meaning it is also the mystery of the noble youth to whom Shakespeare makes a promise the promise that the youth will survive in the breath and speech and minds of all those who read these sonnets How can such promises be fulfilled if no name is actually given Elaine Scarry asks This book is the answer Naming Thy Name lays bare William Shakespeare s devotion to a beloved whom he not only names but names repeatedly in the microtexture of the sonnets in their architecture and in their deep fabric immortalizing a love affair By naming his name Scarry enables us to hear clearly for the very first time a lover s call and the beloved s response Here over the course of many poems are two poets in conversation in love speaking and listening writing and writing back In a true work of alchemy Scarry one of America s most innovative and passionate thinkers brilliantly synthesizes textual analysis literary criticism and historiography in pursuit of the haunting call and recall of Shakespeare s verse and that of his now at last named beloved friend **BBC Wildlife** ,2006 **Scottish Bird News** ,1986 The Book Review Digest ,2007
