The Dangers of Interpretation Ilona Treitel,2019-08-22 First published in 1996 This comparative study investigates thematic and technical similarities in the works of the two authors who shared a cultural heritage and achieved comparable status in their separate literary traditions Drawing upon theories by Bloom Bakhtin and Lacan the book examines ways in which Henry James and Thomas Mann treat the creative artist and analyze the creative and interpretive processes in their fiction The texts covered range from early works to their great modern novels *The GoldenBowland Doctor Faustus* To a great extent the similarities between the works stem from the authors preoccupation with artistic responsibility Adopting Bloom s claim that the creative activity is an interpretive one and that the reader as well as the writer interprets a text into being the book also investigates the reader s responsibility in confronting the dilemmas challenging James and Mann s artist figures Such challenges are the dangers of interpretation discussed in this book

Obsessive Images Joseph Warren Beach,1960 *Obsessive Images* was first published in 1960 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions As Mark Schorer comments this is the last unfinished work of a distinguished well loved critic poet and professor After the death of Joseph Warren Beach his colleague and friend William Van O Connor professor of English at the University of Minnesota prepared the unfinished manuscript of this work for publication and wrote the foreword The work is primarily a study of certain words phrases and images that turn up with unusual frequency in modern American poetry especially that of the decades of the 1930 s and 1940 s and which are used in unusual senses to carry special symbolisms or to imply peculiar philosophical attitudes Since the study is concerned with such recurring images and themes many poets of distinction in whose work they are not to be found are left out but Professor Beach also discusses the significance of the absence of these poets Students and critics will gain insight through this work into the characteristic attitudes of a generation of poets The

book is moreover a delight to read reflecting as it does Mr Beach's own love for the study of poetry As Professor O'Connor points out the tone is much more personal than that of Mr Beach's other books **The Beast in Jungle** Henry

James, 2016-05-05 Henry James the master of psychological literature is at it again disturbing readers with the story of a man who feels he might be missing something important in life a man who also has a secret the unstated in his life now which will affect the future The woman who loves him says it's the sense of being kept for something rare and strange A complex and meaningful novella **Novel Practices** Eugene Goodheart, It is inspiring to have a new collection of Eugene Goodheart's

critical essays He is one of our best our most useful critics W B Yeats spoke of the need to hold reality and justice in a single thought Goodheart knows the need and works hard to fulfill it He never struts in the presence of the book he is reading but is always as if by nature and on principle attentive acute alive to the issues No writer could ask for a better reader or a more conscientious intelligence Denis Donoghue New York University An important debate in modern literary criticism concerns the exact relationship between the ancient epic and the novel Both the epic and the most ambitious modern novels are large scale attempts to present a comprehensive view of the world through the experience of a representative hero However in the older tradition the hero stood for the aspirations and highest ideals of his society The protagonist of the modern novel is usually at odds with that society whether as exile active rebel or antagonistic critic In *Novel Practices* the distinguished literary scholar Eugene Goodheart surveys a representative selection of modern novelists tracing how the epic impulse has been reshaped under the conditions of modernity Goodheart describes how George Eliot and James Joyce's comprehensive artistic creation enabled them to demonstrate a mastery of the world unattainable to their thwarted flawed or feckless heroes and heroines Works such as *Middlemarch* and *Ulysses* encyclopedic in their inclusiveness share an ambitious scope that is virtually synonymous with epic Goodheart shows that even in shorter works such as James's *The Beast in the Jungle* and Ford Maddox Ford's *The Good Soldier* the standard of the epic hero acts as an ironic subtext A chapter on Thomas Mann provides a European perspective enacting conflict between self and society through a dramatized contest of ideas Goodheart explores ambiguities of point of view as characteristic of modern uncertainty how much authority or reliability should the reader concede to the narrator What is the relationship between the narrator and the author These and related questions are addressed in chapters on Lawrence James Bellow Woolf and Roth which also deal with the place of literary biography in understanding fiction Goodheart's approach centers on fiction and although he takes cognizance of the critical theory of the past several decades he nevertheless emphasizes the centrality of the author and authorial intention *Novel Practices* will be essential reading for students of literature culture and intellectual history Eugene Goodheart is Edytha Macy Gross Professor of Humanities Emeritus at Brandeis University His books include *Modernism and the Critical Spirit* and *Culture and the Radical Conscience* both available from Transaction *Critical Companion to Henry James* Eric L.
