Colangelo, 2021-11-09 *Diaphanous Bodies* Ability Disability and Modernist Irish Literature examines ability as a category of embodiment and embodied experience and in the process opens up a new area of inquiry in the growing field of literary disability studies It argues that the construction of ability arises through a process of exclusion and forgetting in which the depiction of sensory information and epistemological judgment subtly or sometimes un subtly elide the fact of embodied subjectivity The result is what Colangelo calls the myth of the diaphanous abled body a fiction that holds that an abled body is one which does not participate in or situate experience The diaphanous abled body underwrites the myth that abled and disabled constitute two distinct categories of being rather than points on a constantly shifting continuum In any system of marginalization the dominant identity always sets itself up as epistemologically and experientially superior to whichever group it separates itself from Indeed the norm is always most powerful when it is understood as an empty category or a view from nowhere *Diaphanous Bodies* explores the phantom body that underwrites the artificial dichotomy between abled and disabled upon which the representation of embodied experience depends      **The Big Game of Africa** Richard Tjader, 1910

Williams, 2022-02-08 This book provides readers with a unique in depth understanding of the background to the Irish Famine and a detailed account of the crisis as well as the immediate and long term results of the catastrophe In addition to exploring the ecological and agriculture factors this work shows how cultural economic and political influences shaped British attitudes and policies When the entire potato crop failed in the fall of 1846 what began as an ecological disaster quickly became a political one Hampered by long standing prejudice and Anglo Irish tensions the British government's various attempts to deal with the humanitarian crisis were muddled by competing economic and social goals Among these was the idea that the Famine represented an opportunity to purge Ireland of fragmented land holding and potato dependency by encouraging an English type market driven agriculture Changes did occur but the government's imperial dreams eventually ran up against Irish realities
