The Body Is The Hero:

The Body Is the Hero Ronald J. Glasser, 1979-03-01 *Recovering the Body* Carol Collier, 2013-06-08 Following the metaphysical and epistemological threads that have led to our modern conception of the body as a machine the book explores views of the body in the history of philosophy Its central thesis is that the Cartesian paradigm which has dominated the modern conception of the body including the development and practice of medicine offers an incomplete and even inaccurate picture This picture has become a reductio ad absurdum which through such current trends as the practice of extreme body modification and futuristic visions of downloading consciousness into machines could lead to the disappearance of the biological body Presenting Spinoza s philosophy of the body as the road not followed the author asks what Spinoza would think of some of our contemporary body visions It also looks to two more holistic approaches to the body that offer hope of recovering its true meaning the practice of yoga and alternative medicine The metaphysical analysis is accompanied throughout by a tripartite historical and epistemological analysis the body as an obstacle to knowledge exemplified by Plato and our modern day futurists the body as an object of knowledge exemplified by Descartes and modern scientific medicine and the body as a source of knowledge exemplified by the Stoics and the philosophy of yoga Published in English **People of the Body** Howard Eilberg-Schwartz, 2012-02-01 By shifting attention from the image of Jews as a textual community to the ways Jews understand and manage their bodies for example to their concerns with reproduction and sexuality menstruation and childbirth this volume contributes to a revisioning of what Jews and Judaism are and have been The project of remembering the Jewish body has both historical and constructive motivations As a constructive project this book describes renews and participates in the complex and ongoing modern discussion about the nature of Jewish bodies and the place of bodies in Judaism The Hero's Body William Giraldi, 2016-08-09 A memoir of motorcycles and muscles of obsession and grief and of a young man who learned how to stay alive through literature At just forty seven years old William Giraldi s father was killed in a horrific motorcycle crash while racing on a country road This tragedy which forever altered the young Giraldi and devastated his family provides the pulse for *The Hero s Body* In the tradition of Andre Dubus III s *Townie* this is a deep seeing investigation into two generations of men from the working class town of Manville New Jersey including Giraldi s own forays into obsessive bodybuilding as a teenager desperate to be worthy of his family s pitiless exacting codes of manhood Lauded by *The New Yorker* for his unrelenting perfectly paced prose Giraldi writes here with daring searing honesty about the fragility and might of the American male An unflinching memoir of luminous sorrow a son s tale of a lost father and the ancient family strictures of extreme masculinity *The Hero s Body* is a work of lasting beauty by one of our most fearless writers **The Wounded Body** Fabrizio Bondi, Massimo Stella, Andrea Torre, 2022-03-10 This edited collection explores the image of the wound as a cultural symptom and a literary visual trope at the core of representations of a new concept of selfhood in Early Modern Italian and English cultures as expressed in the two complementary poles of poetry and

theatre The semantic field of the wounded body concerns both the image of the wound as a traumatic event which leaves a mark on someone's body and soul and prompts one to investigate its causes and potential solutions and the motif of the scar which draws attention to the fact that time has passed and urges those who look at it to engage in an introspective and analytical process By studying and describing the transmission of this metaphoric paradigm through the literary tradition the contributors show how the image of the bodily wound from Petrarch's representation of the Self to the overt crisis that affects the heroes and the poetic worlds created by Ariosto and Tasso Spenser and Shakespeare could respond to the emergence of Modernity as a new cultural feature Evelyn Pickering De Morgan and the Allegorical Body Elise Lawton

Smith, Evelyn De Morgan, 2002 This study of her work confirms that the idea of progress toward the afterlife is a recurrent motif arising from a personal involvement in the movement of Spiritualism and paralleling the automatic writing passages in *The Result of an Experiment* 1909 anonymously published by Evelyn and her husband William De Morgan **The Body in Late Medieval and Early Modern Culture** Nina Taunton, 2017-03-02 Taking as its chronological starting point the female body of late medieval devotional literature the volume moves on to a consideration of the representation of gendered bodies in later literature It then proceeds to examine sixteenth century occupational orderings of the male body in education the civil service and the army and involves explorations into a variety of rituals for the purification ordering and disciplining of the flesh It includes enquiries into the miraculous royal body demon bodies the virtual body of satire and ends the late seventeenth century with dramatic representations of the diseased body and the grotesque bodies of travellers tales as signifiers of racial difference It pushes forward post modern notions of the body as a site for competing discourses It provides new dimensions to fantasies rituals and regulations in narratives fictions of the body as identifications of forms of knowledge unique to the early modern period Each of the essays sheds new light on how these late medieval and early modern narratives function to produce specialized and discrete languages of the body that cannot be understood simply in terms say of religion philosophy or physiology but produce their own discrete forms of knowledge Thus the essays materially contribute to an understanding of the relationship between the body and spatial knowledge by giving new bearings on epistemologies built upon pre modern perceptions about bodily spaces and boundaries They address these issues by analysing forms of knowledge constructed through regulations of the body fantasies about extensions to the body and creations of bodily psychic intellectual and spiritual space The essays pose important questions about how these epistemologies offer different investments of knowledge into structures of power What constitutes these knowledges What are the politics of corporeal spaces In what forms of knowledge about spatial and bodily perceptions and p Writing the Body in Motion Angie Abdou, Jamie Dopp, 2018-05-01 Sport literature is never just about sport The genre's potential to explore the human condition including aspects of violence gender and the body has sparked the interest of writers readers and scholars Over the last decade a proliferation of sport literature courses across the continent is evidence of the sophisticated and evolving body of

work developing in this area Writing the Body in Motion offers introductory essays on the most commonly taught Canadian sport literature texts The contributions sketch the state of current scholarship highlight recurring themes and patterns and offer close readings of key works Organized chronologically by source text ranging from Shoeless Joe 1982 to Indian Horse 2012 the essays offer a variety of ways to read consider teach and write about sport literature

Fashionable Masculinities Vicki Karaminas, Adam Geczy, Pamela Church Gibson, 2022-07-15 Fashionable Masculinities explores the expression of masculinities through constructions of fashion identity style and appearance as the third decade of the new millennium begins a contradictory and precarious moment when masculinities are defined by protests and pandemics whilst being problematized across class ethnicity race gender and sexuality Whilst a majority of men might still define themselves as traditional post millennials are now talking about how they envision a future without gender boundaries and borders Rather than being defined as a gender masculinity has now become a style that can be worn and performed as traditional and normative codes of masculinity are modulated and manipulated This volume includes original essays on musical pop sensation Harry Styles rapper and producer Puff Daddy Sean Combs lumbersexuals spornosexuals sexy daddies and aging cool black daddies Bringing together contributions from leading scholars this book interrogates and challenges the meaning

of masculinities and the ways that they are experienced and lived **Enter The Body** Carol Chillington Rutter, 2002-09-11 One of the most provocative writers on women's performances of Shakespeare on stage and film in Britain today Rutter speculates on how the theatre plays women's bodies and how audiences read them **The Body and Physical Difference** David T. Mitchell, Sharon L. Snyder, 1997 Groundbreaking perspectives on disability in culture and the arts that shed light on notions of identity and social marginality *Mothers, Children, and the Body Politic* Nadya Williams, 2024-10-15 Today humans are often seen as commodities rather than image bearers Classics scholar Nadya Williams brings insight from the beliefs and practices of the early church about motherhood raising children and human life suggesting there is a way to recapture a vision that affirms the imago Dei in each person above our economic production *The Body and the Senses in Greek Tragedy* Afroditi Angelopoulou, 2025-07-23 The Body and the Senses in Greek Tragedy is the first book to approach the corporeality of Greek drama in terms of its capacity to involve audiences in the construction of meaning not only on an affective but also on an intellectual level Afroditi Angelopoulou argues that the inner workings of theatre and the reasons behind its effectiveness can be located in the lived sentient body as the root of human thought experience and awareness Drawing on theories of embodiment theatre and performance studies this study shows that investigating the playwrights sustained and varied use of elements of corporeality is essential for uncovering the meaning of tragic narratives whether experienced in live performance or as a text Through close readings of select plays Angelopoulou explores the intricate connections between sensory experience language physical movement and affect focusing on the way inter corporeal processes unfold on the stage and within the theatre space She demonstrates how thinking with and through the body can ultimately encourage the spectator as well as the reader to participate in the act of sense making Each chapter traces distinct somatic themes indicating how these contribute to a play's aesthetics ethics and narrative arc By employing the human sensorium as a hermeneutic device The Body and the Senses in Greek Tragedy offers a compelling methodology for studying language subjective experience and performance reception in Greek drama *The Shape of Fantasy* Charul Palmer-Patel, 2019-10-23 The Shape of Fantasy is an in depth look at Heroic Epic Fantasy It depicts structural and narrative patterns with models stemming from science and philosophy Although Fantasy Fiction is generally defined by its impossibility Fantasy Fiction not an illogical form It is in fact governed by a sense of rules and structure one that reflects our current understanding of space time and cosmology These models are an integral part of the structure of Heroic Epic Fantasy itself Thus this book introduces new ways of perceiving current productions of the Fantasy genre In doing so it also explores how Fantasy Fiction exhibits a conscious awareness of its own form **Demons of the Body and Mind** Ruth Bienstock Anolik, 2014-01-10 The Gothic mode typically preoccupied by questions of difference and otherness consistently imagines the Other as a source of grotesque horror The sixteen critical essays in this collection examine the ways in which those suffering from mental and physical ailments are refigured as Other and how they are imagined to be monstrous Together the essays

highlight the Gothic inclination to represent all ailments as visibly monstrous even those such as mental illness which were invisible Paradoxically the Other also becomes a pitiful figure often evoking empathy This exploration of illness and disability represents a strong addition to Gothic studies

The Resurrection of the Body Armando Maggi, 2009-05-15 Italian novelist poet and filmmaker Pier Paolo Pasolini was brutally killed in Rome in 1975 a macabre end to a career that often explored humanity's capacity for violence and cruelty Along with the mystery of his murderer's identity Pasolini left behind a controversial but acclaimed oeuvre as well as a final quartet of beguiling projects that signaled a radical change in his aesthetics and view of reality The Resurrection of the Body is an original and compelling interpretation of these final works the screenplay Saint Paul the scenario for Porn Theo Colossal the immense and unfinished novel Petrolio and his notorious final film Sal or the 120 Days of Sodom a disturbing adaptation of the writings of the Marquis de Sade Together these works Armando Maggi contends reveal Pasolini's obsession with sodomy and its role within his apocalyptic view of Western society One of the first studies to explore the ramifications of Pasolini's homosexuality The Resurrection of the Body also breaks new ground by putting his work into fruitful conversation with an array of other thinkers such as Freud Strindberg Swift Henri Michaux and Norman O Brown

Strong Arms and Drinking Strength : Masculinity, Violence, and the Body in Ancient India Jarrod L. Whitaker Assistant Professor of South Asian Religions Wake Forest University, 2011-03-16 Jarrod L. Whitaker examines the ritualized poetic construction of male identity in the Rgveda India's oldest Sanskrit text arguing that an important aspect of early Vedic life was the sustained promotion and embodiment of what it means to be a true man The Rgveda contains over a thousand hymns addressed primarily to three gods the deified ritual Fire Agni the war god Indra and Soma who is none other than the personification of the sacred beverage soma The hymns were sung in day long fire rituals in which poet priests prepared the sacred drink to empower Indra The dominant image of Indra is that of a highly glamorized violent and powerful Aryan male the three gods represent the ideals of manhood Whitaker finds that the Rgvedic poet priests employed a fascinating range of poetic and performative strategies some explicit others very subtle to construct their masculine ideology while justifying it as the most valid way for men to live Poet priests naturalized this ideology by encoding it within a man's sense of his body and physical self Rgvedic ritual rhetoric and practices thus encode specific male roles especially the role of man as warrior while embedding these roles in a complex network of social economic and political relationships Strong Arms and Drinking Strength is the first book in English to examine the relationship between Rgvedic gods ritual practices and the identities and expectations placed on men in ancient India

Writing Through the Body. Iraqi Responses to the War on Terror Hanan Jasim Khammas, 2023-12-21 The 2003 Iraq invasion provoked an unprecedented phenomenon in the Iraqi literary scene fiction exceeds poetry in production critical reception and market figures New narrative genres concerned with stories of wars and trauma depict corporality and sexuality in their most material sense Writing Through the Body argues that interest in the physical indicates a new perception of corporeality and to show this it

traces a genealogy of the Iraqi body to uncover the complexity of its historical and socio political discourses Considering religious social and political factors the body is examined in three semiospheres Iraqi society and culture before 2003 the discourse of the war on terror as a semiotic interference and contemporary Iraqi fiction as the result of the encounter between the two This structure shows how corporeality was interrupted by and instrumentalised in war propaganda and how new representations in fiction respond to the two spheres in conflict
