## **The Bogota Conspiracy:**

Conspiracy Theories and Latin American History Luis Roniger, Leonardo Senkman, 2021-09-09 This book is a systematic inquiry of conspiracy theories across Latin America Conspiracy theories project not only an interpretive logic of reality that leads people to believe in sinister machinations but also imply a theory of power that requires mobilizing and taking action Through history many have fallen for the allure of conspiratorial narratives even the most unsubstantiated and bizarre This book traces the main conspiracy theories developing in Latin America since late colonial times and into the present and identifies the geopolitical socioeconomic and cultural scenarios of their diffusion and mobilization Students and scholars of Latin American history and politics as well as comparatists will find in this book penetrating analyses of major conspiratorial designs in this multi state region of the Americas

**Conspiracy Theories in American History** Peter Knight, 2003-12-11 The first comprehensive history of conspiracies and conspiracy theories in the United States Conspiracy Theories in American History An Encyclopedia is the first comprehensive research based scholarly study of the pervasiveness of our deeply ingrained culture of conspiracy From the Puritan witch trials to the Masons from the Red Scare to Watergate Whitewater and the War on Terror this encyclopedia covers conspiracy theories across the breadth of U S history examining the individuals organizations and ideas behind them Its over 300 alphabetical entries cover both the documented records of actual conspiracies and the cultural and political significance of specific conspiracy speculations Neither promoting nor dismissing any theory the entries move beyond the usual biased rhetoric to provide a clear sighted dispassionate look at each conspiracy real or imagined Readers will come to understand the political and social contexts in which these theories arose the mindsets and motivations of the people promoting them the real impact of society s reactions to conspiracy fears warranted or not and the verdict when verifiable that history has passed on each case

**The Encyclopedia of Moon Mysteries** Constance Victoria Briggs, 2019-03-19 Our moon is an enigma The ancients viewed it as a light to guide them in the darkness and a god to be worshipped In modern times it has been taught that the Moon is simply a dead rock that is caught in Earth s gravity with no activity As a researcher of metaphysical paranormal and cosmic subjects I have come across stories and information about the Moon that tell us that indeed there is activity there and there has been for generations Just who or what is causing the commotion is a mystery There are stories that suggest that the Moon is home to extraterrestrials theories that it is not a natural satellite tales of anomalous lights and tales that NASA astronauts saw extraterrestrial ships and ruins of an ancient civilization there There is a rumor that Apollo13 was saved by extraterrestrials Another story states that there are extraterrestrial bases on the Moon There is even a tale that states that a part of the kingdom of Atlantis was once located

there Some even believe that there are cities beneath the surface of the Moon There is an interesting account of a government employee using remote viewing as a means of seeing what is on the Moon His experience is eye opening This is just a sample of the information that will be in *The Encyclopedia of Moon Mysteries Secrets Conspiracy Theories Anomalies Extraterrestrials and More* For example did you know that Aristotle and Plato wrote about a time when there was no Moon They even gave a name of an ancient tribe of people that lived during that moonless period several of the NASA astronauts reported seeing UFOs while traveling to the Moon the Moon might be hollow Apollo 10 astronauts heard strange space music when traveling on the far side of the Moon strange and unexplained lights have been seen on the Moon for centuries there are said to be ruins of structures on the Moon there is an ancient tale that suggests that the first human was created on the Moon that radio signals have been detected coming from the Moon that famed astronomer Sir John Herschel saw unidentified lights above the Moon during an eclipse that ancient Bolivian symbols tell us that the Moon came into Earth's orbit around 12 000 years ago a psychic was used by the government to relay information about the Moon The book is separated into A to Z sections for easy reference and reading *American Annual Register* Joseph Blunt, 1828 **Myths of Harmony** Marixa Lasso, 2007-08-12 This book centers on a foundational moment for Latin American racial constructs While most contemporary scholarship has focused the explanation for racial tolerance or its lack in the colonial period Marixa Lasso argues that the key to understanding the origins of modern race relations are to be found later in the Age of Revolution Lasso rejects the common assumption that subalterns were passive and alienated from Creole led patriot movements and instead demonstrates that during Colombia's revolution free blacks and mulattos pardos actively joined and occasionally even led the cause to overthrow the Spanish colonial government As part of their platform patriots declared legal racial equality for all citizens and promulgated an ideology of harmony and fraternity for Colombians of all colors The fact that blacks were mentioned as equals in the discourse of the revolution and later served in republican government posts was a radical political departure These factors were instrumental in constructing a powerful myth of racial equality a myth that would fuel revolutionary activity throughout Latin America Thus emerged a historical paradox central to Latin American nation building the coexistence of the principle of racial equality with actual racism at the very inception of the republic Ironically the discourse of equality meant that grievances of racial discrimination were construed as unpatriotic and divisive acts in its most extreme form blacks were accused of preparing a race war Lasso's work brings much needed attention to the important role of the anticolonial struggles in shaping the nature of contemporary race relations and racial identities in Latin America
