The Avant-garde and American Postmodernism, An evaluation that tracks American culture's shift from modernism into postmodernism I Can Read It All by Myself Paul V. Allen, 2021-05-28 In the late 1950s Ted Geisel took on the challenge of creating a book using only 250 unique first grade words something that aspiring readers would have both the ability and the desire to read The result was an unlikely children's classic The Cat in the Hat But Geisel didn't stop there Using The Cat in the Hat as a template he teamed with Helen Geisel and Phyllis Cerf to create Beginner Books a whole new category of readers that combined research based literacy practices with the logical insanity of Dr Seuss The books were an enormous success giving the world such authors and illustrators as P D Eastman Roy McKie and Stan and Jan Berenstain and beloved bestsellers such as Are You My Mother Go Dog Go Put Me in the Zoo and Green Eggs and Ham The story of Beginner Books and Ted Geisel's role as president policymaker and editor of the line for thirty years has been told briefly in various biographies of Dr Seuss but I Can Read It All by Myself The Beginner Books Story presents it in full detail for the first time Drawn from archival research and dozens of brand new interviews I Can Read It All by Myself explores the origins philosophies and operations of Beginner Books from The Cat in the Hat in 1957 to 2019's A Skunk in My Bunk and reveals the often fascinating lives of the writers and illustrators who created them **Dr. Seuss** Philip Nel, 2005-01-01 Philip Nel takes a fascinating look into the key aspects of Seuss's career his poetry politics art marketing and place in the popular imagination Nel argues convincingly that Dr Seuss is one of the most influential poets in America His nonsense verse like that of Lewis Carroll and Edward Lear has changed language itself giving us new words like nerd And Seuss's famously loopy artistic style what Nel terms an energetic cartoon surrealism has been equally important inspiring artists like filmmaker Tim Burton and illustrator Lane Smith from back cover **Systems Thinking in Museums** Yuha Jung, Ann Rowson Love, 2017-10-06 Systems Thinking in Museums explores systems thinking and the practical implication of it using real life

museum examples to illuminate various entry points and stages of implementation and their challenges and opportunities Its premise is that museums can be better off when they operate as open dynamic and learning systems as a whole as opposed to closed stagnant and status quo systems that are compartmentalized and hierarchical This book also suggests ways to incorporate systems thinking based on reflective questions and steps with hopes to encourage museum professionals to employ systems thinking in their own museum Few books explore theory in practice in meaningful and applicable ways this book offers to unravel complex theories as applied in everyday practice through examples from national and international museums
