The Catholic and the War Hilaire Belloc, 1940      *The Origins of War* Matthew A. Shadle, 2011-03-10 Debate rages within the Catholic Church about the ethics of war and peace but the simple question of why wars begin is too often neglected Catholics assumptions about the causes of conflict are almost always drawn uncritically from international relations theory a field dominated by liberalism realism and Marxism which is not always consistent with Catholic theology In *The Origins of War* Matthew A Shadle examines several sources to better understand why war happens His retrieval of biblical literature and the teachings of figures from church tradition sets the course for the book Shadle then explores the growing awareness of historical consciousness within the Catholic tradition the way beliefs and actions are shaped by time place and culture He examines the work of contemporary Catholic thinkers like Pope John Paul II Jacques Maritain John Courtney Murray Dorothy Day Brian Hehir and George Weigel In the constructive part of the book Shadle analyzes the movement within international relations theory known as constructivism which proposes that war is largely governed by a set of socially constructed and cultural influences Constructivism Shadle claims presents a way of interpreting international politics that is highly amenable to a Catholic worldview and can provide a new direction for the Christian vocation of peacemaking      American Catholics in the War Michael Williams, 1921      **American Catholics in the War** Michael Williams, 1921      *Handbook of the National Catholic War Council* National Catholic War Council (U S ), 2025-05-22 This handbook provides a comprehensive overview of the activities and organization of the National Catholic War Council during World War I Established to coordinate Catholic efforts in support of the war the council played a crucial role in providing welfare services to soldiers and their families promoting patriotic sentiment and addressing social issues arising from the conflict The book details the council's structure its various committees and the scope of its work including chapters on education community organization girls welfare recreation and after war activities It serves as a valuable primary source for understanding the Catholic Church's engagement with American society during a time of national crisis as well as a snapshot of the wide range of social concerns addressed by religious organizations in the early 20th century Handbook of the National Catholic War Council offers insights into the intersection of faith patriotism and social service during a pivotal moment in American history This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved

**Confronting the Nazi War on Christianity** Richard Bonney, 2009 Contemporaries and historians have found it difficult to interpret the ambiguous relationship between National Socialism and Christianity Both the Catholic and Protestant Churches tended to agree with National Socialists in their authoritarianism their attacks on socialism and communism and their campaign against the Versailles Treaty but the doctrinal position of the Churches could not be reconciled with the principle of racism a foreign policy of unlimited aggressive warfare or a domestic agenda involving the complete subservience of Church to State Important sections of the Nazi Party sought the complete extirpation of Christianity and its substitution by a purely racial religion but considerations of expediency made it impossible for the National Socialist leadership to adopt this radical anti Christian stance as official policy The Kulturkampf Newsletters which have not appeared in English since the 1930s were produced by German Catholic exiles in France They scrupulously document the tensions between various strands of Nazi policy and the nature of the policy eventually adopted this was to reduce the Churches influence in all areas of public life through the use of every available means yet without provoking the difficulties diplomatic as well as domestic which an openly declared war of extermination might have caused **German Catholicism at War, 1939-1945** Thomas Brodie, 2018 German Catholicism at War explores the role Roman Catholicism played in shaping the moral economy of German society during the Second World War Drawing on previously unused source materials German Catholicism at War examines the complex relationship between Catholics and Nazi authorities and religious responses to the war *The Church and War* Franziskus Maria Stratmann, 1971
