

THE CAMBRIDGE ECONOMIC HISTORY OF AUSTRALIA

Australia's economic history is the story of the transformation of an indigenous economy and a small convict settlement into a nation of nearly 23 million people with advanced economic, social and political structures. It is a history of vast lands with rich, exploitable resources, of adversity in war and depression, and prosperity and nation building. It is also a history of human behaviour and the institutions created to harness and govern human endeavour.

The Cambridge Economic History of Australia provides a systematic and comprehensive treatment of the nation's economic foundations, growth, resilience and future prospects, in an engaging contemporary narrative. It examines key themes such as the centrality of land and its usage, the role of migrant human capital, the tension between development and the environment, and Australia's interaction with the international economy.

Written by a team of eminent economic historians, *The Cambridge Economic History of Australia* is the definitive study of Australia's economic past and present.

SIMON VILLE is Professor of Economic and Business History and Head of the School of Humanities and Social Inquiry in the Faculty of Law, Humanities and the Arts at the University of Wollongong.

GLENN WITHERS is Professor of Economics in the Arndt-Corden Economics Department, Crawford School of Public Policy, and Visiting Fellow in the Regulatory Institutions Network at the Australian National University.

The Cambridge Economic History Of Australia:

The Cambridge Economic History of Australia Simon Ville, Glenn Withers, 2014-10-08 Australia's economic history is the story of the transformation of an indigenous economy and a small convict settlement into a nation of nearly 23 million people with advanced economic social and political structures. It is a history of vast lands with rich exploitable resources of adversity in war and of prosperity and nation building. It is also a history of human behaviour and the institutions created to harness and govern human endeavour. This account provides a systematic and comprehensive treatment of the nation's economic foundations, growth, resilience, and future in an engaging contemporary narrative. It examines key themes such as the centrality of land and its usage, the role of migrant human capital, the tension between development and the environment, and Australia's interaction with the international economy. Written by a team of eminent economic historians, *The Cambridge Economic History of Australia* is the definitive study of Australia's economic past and present. *The Cambridge Economic*

History of Europe Michael Moïsey Postan, H. J. Habakkuk, 1966. For contents and other editions see Title Catalog. **The Cambridge Economic History of the Modern World: Volume 2, 1870 to the Present** Stephen Broadberry, Kyoji Fukao, 2021-06-24. The second volume of *The Cambridge Economic History of the Modern World* explores the development of modern economic growth from 1870 to the present. Leading experts in economic history offer a series of regional studies from around the world as well as thematic analyses of key factors governing the differential outcomes in different parts of the global economy. Topics covered include human capital, capital and technology, geography and institutions, living standards and inequality, trade and immigration, international finance and warfare, and empire. [The Cambridge Economic History of the Modern World: Volume 1, 1700 to 1870](#) Stephen Broadberry, Kyoji Fukao, 2021-06-24. The first volume of *The Cambridge Economic History of the Modern World* traces the emergence of modern economic growth in eighteenth-century Britain and its spread across the globe. Focusing on the period from 1700 to 1870, a team of leading experts in economic history offer a series of regional studies from around the world as well as thematic analyses of key factors governing the differential outcomes in different parts of the global economy. Topics covered include population and human development, capital and technology, geography and institutions, living standards and inequality, international flows of trade and labour, the international monetary system, and war and empire. *the cambridge economic history of europe* Edwin Ernest Rich, 1967.

Routledge Handbook of Global Economic History Francesco Boldizzoni, Pat Hudson, 2015-12-22. The *Routledge Handbook of Global Economic History* documents and interprets the development of economic history as a global discipline from the later nineteenth century to the present day. Exploring the normative and relativistic nature of different schools and traditions of thought, this handbook not only examines current paradigmatic western approaches but also those conceived in less open societies and in varied economic, political, and cultural contexts. In doing so, this book clears the way for greater critical understanding and a more genuinely global approach to economic history. This handbook brings together leading

international contributors in order to systematically address cultural and intellectual traditions around the globe. Many of these are exposed for consideration for the first time in English. The chapters explore dominant ideas and historiographical trends and open them up to critical transnational perspectives. This volume is essential reading for both academics and students in economic and social history. As this field of study is very much a bridge between the social sciences and humanities, the issues examined in the book will also have relevance for those seeking to understand the evolution of other academic disciplines under the pressures of varied economic, political and cultural circumstances on both national and global scales.

Australian Economic History Claire E. F. Wright, 2022-06-02

In a time of pandemics, war and climate change, fostering knowledge that transcends disciplinary boundaries is more important than ever. Economic history is one of the world's oldest interdisciplinary fields, with its prosperity dependent on connection and relevance to disciplinary behemoths: economics and history. *Australian Economic History* is the first history of an interdisciplinary field in Australia and the first to set the field's progress within the structures of Australian universities. It highlights the lived experience of doing interdisciplinary research and how scholars have navigated the opportunities and challenges of this form of knowledge. These lessons are vital for those seeking to develop robust interdisciplinary conversations now and in the future. This previously untold story of economic history in Australia exposes the centrality of economic thought and scholarship to Australian intellectual and political life. Deftly positioning economic history in an innovative institutional place based and person focused narrative, Claire Wright entangles economics with the history of education to produce a tale of university interdisciplinarity, influence and impact. Written with vitality and bursting with both data and anecdote, this book makes an exceptional contribution to the intersecting fields of history, economics and higher education studies.

Hannah Forsyth, author of *A History of the Modern Australian University*: Few readers would expect to find a classical tragedy in the story of an academic field. Yet that is what Claire Wright shows us in this study of Economic History as it has been practiced in Australia. She traces the field from legendary beginnings to triumphant growth to organisational collapse and renaissance on other terms. Carefully researched and vigorously written, this book raises questions about disciplines and interdisciplinary fields, universities and markets, and social bases of intellectual work that are relevant to all fields today.

Raewyn Connell, author of *The Good University Australia*: Australia proved a pioneer in the study of economic history, nurturing a discipline with innovative data and understanding of material trends. Yet by the 1990s, economic history departments closed as senior scholars retired and the field was subsumed by conventional economics. In this absorbing study, Dr Claire Wright challenges the conventional account. She is tough minded about financial and institutional pressures on the field but cautiously optimistic about the future. It is a mistake, she argues, to see institutional representation as the benchmark of influence. Instead, the interdisciplinary nature of economic history has encouraged new research and teaching across the humanities and social sciences. With close attention to individual scholars and their university departments and a deep sense of the trajectory of the field, *Australian Economic*

History Transformations of an Interdisciplinary Field is an original and important contribution to Australian intellectual history Glyn Davis Distinguished Professor of Political Science in the Crawford School of Public Policy The Australian National University

An Economist's Guide to Economic History Matthias Blum, Christopher L. Colvin, 2018-12-08 Without economic history economics runs the risk of being too abstract or parochial of failing to notice precedents trends and cycles of overlooking the long run and thus misunderstanding how we got here Recent financial and economic crises illustrate spectacularly how the economics profession has not learnt from its past This important and unique book addresses this problem by demonstrating the power of historical thinking in economic research Concise chapters guide economics lecturers and their students through the field of economic history demonstrating the use of historical thinking in economic research and advising them on how they can actively engage with economic history in their teaching and learning Blum and Colvin bring together important voices in the field to show readers how they can use their existing economics training to explore different facets of economic history Each chapter introduces a question or topic historical context or research method and explores how they can be used in economics scholarship and pedagogy In a century characterised to date by economic uncertainty bubbles and crashes An Economist's Guide to Economic History is essential reading For further information visit <http://www.blumandcolvin.org>

The Cambridge Economic History of Europe: The industrial economies: The development of economic and social policies, edited by Peter Mathias and Sidney Pollard Sir John Harold Clapham, Eileen Power, 1989

The Cambridge Economic History of Modern Britain Roderick Floud, Paul Johnson, 2003 Publisher Description

[Agricultural Development in the World Periphery](#) Vicente Pinilla, Henry Willebald, 2018-02-06 This book brings together analysis on the conditions of agricultural sectors in countries and regions of the world's peripheries from a wide variety of international contributors The contributors to this volume proffer an understanding of the processes of agricultural transformations and their interaction with the overall economies of Africa Asia and Latin America Looking at the nineteenth and twentieth centuries the onset of modern economic growth the book studies the relationship between agriculture and other economic sectors exploring the use of resources land labour capital and the influence of institutional and technological factors in the long run performance of agricultural activities Pinilla and Willebald challenge the notion that agriculture played a negligible role in promoting economic development in the nineteenth and twentieth centuries when the impulse towards industrialization in the developing world was more impactful

The Cambridge Economic History of Latin America: Volume 2, The Long Twentieth Century Victor Bulmer-Thomas, John Coatsworth, Roberto Cortés Conde, 2006-01-23 An indispensable reference work for anyone interested in Latin America's economic development

Historical Dictionary of Australia Norman Abjorensen, James C. Docherty, 2014-12-05 Australia's development from the most unpromising of beginnings as a British prison in 1788 to the prosperous liberal democracy of the present is as remarkable as is its success as a country of large scale immigration Since 1942 it has been a loyal ally of the

United States and has demonstrated this loyalty by contributing troops to the war in Vietnam and by being part of the coalition of the willing in the U S invasion of Iraq in 2003 and in operations in Afghanistan In recent years it has also been more willing to promote peace and democracy in its Pacific and Asian neighbors This fourth edition of Historical Dictionary of Australia covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Australia *The Routledge Companion to Business History* John Wilson, Steven Toms, Abe de Jong, Emily

Buchnea, 2016-12-01 The Routledge Companion to Business History is a definitive work of reference and authoritative international source on business history Compiled by leading scholars in the field it offers both researchers and students an introduction and overview of current scholarship in this expanding discipline Drawing on a wealth of international contributions this volume expands the field and explores how business history interacts theoretically and methodologically with other fields It charts the origins and development of business history and its global reach from Latin America and Africa to North America and Europe With this multi perspective approach it illustrates the unique contribution of business history and its relationship with a range of other disciplines from finance and banking to gender issues in corporations The Routledge Companion to Business History is a vital source of reference for students and researchers in the fields of business history corporate governance and business ethics This collection is an excellent starting point for understanding the field and finding areas where business history management theory and social science can intersect Canadian Business History Newsletter January 2019 **Natural Resources and Economic Growth** Marc Badia-Miró, Vicente Pinilla, Henry

Willebald, 2015-05-22 The relationship between natural capital and economic growth is an open debate in the field of economic development Is an abundance of natural resources a blessing or a curse for economic performance The field of Economic History offers an excellent vantage to explore the relevance of institutions technical progress and supply demand drivers Natural Resources and Economic Growth contains theoretical and empirical articles by leading scholars who have studied this subject in different historical periods from the 19th century to the present day and in different parts of the world Part I presents the theoretical issues and discusses the meaning of the curse and the relevance of the historical perspective Part II captures the diversity of experiences presenting thirteen independent case studies based on historical results from North and South America Africa Asia Oceania and Europe This book emphasizes that an abundance of natural resources is not a fixed situation It is a process that reacts to changes in the structure of commodity prices and factor endowments and progress requires capital labour technical change and appropriate institutional arrangements This abundance is not a given but is part of the evolution of the economic system History shows that institutional quality is the key factor to deal with abundant natural resources and especially with the rents derived from their use and exploitation This wide ranging volume

will be of great relevance to all those with an interest in economic history development economic growth natural resources world history and institutional economics **Growth and Cycles in Australia's Wine Industry** Kym Anderson, Nanda R. Aryal, 2015 A Statistical Compendium 1843 to 2013 *Made in Chinatown* Peter Charles Gibson, 2022-04-01 Made in Chinatown delves into a little known aspect of Australia's past its hundreds of Chinese furniture factories These businesses thrived in the post goldrush era becoming an important economic activity for Chinese immigrants and their descendants and a vital part of Australia's furniture industry Yet owing to an exclusionary vision for Australia as a bastion of white industry and labour these factories were targeted by anti Chinese political campaigns and legislative restrictions Guided by Chinese manufacturers and workers own reflections and records this book examines how these factories operated under the exclusionary vision of White Australia Historian Peter Gibson uses previously untapped archival sources to investigate the local and international factors that boosted the industry and the business and labour practices associated with factory operation He explores the strategies employed in efforts to resist injustice and the place of Chinese furniture factories within the contexts of Australian enterprise work and consumerism more broadly Made in Chinatown argues that Chinese Australian furniture manufacturers and their employees were far more adaptable and the White Australia vision less pervasive than most histories would suggest *The Story of Australia* Louise Johnson, Tanja Luckins, David Walker, 2021-09-02 The Story of Australia provides a fresh engaging and comprehensive introduction to Australia's history and geography An island continent with distinct physical features Australia is home to the most enduring Indigenous cultures on the planet In the late eighteenth century newcomers from distant worlds brought great change Since that time Australia has been shaped by many peoples with competing visions of what the future might hold This new history of Australia integrates a rich body of scholarship from many disciplines drawing upon maps novels poetry art music diaries and letters government and scientific reports newspapers architecture and the land itself engaging with Australia in its historical geographical national and global contexts It pays particular attention to women and Indigenous Australians as well as exploring key themes including invasion colonisation land use urbanisation war migration suburbia and social movements for change Elegantly written readers will enjoy Australia's story from its origins to the present as the nation seeks to resolve tensions between Indigenous dispossession British tradition and multicultural diversity while finding its place in an Asian region and dealing with global challenges like climate change It is an ideal text for students academics and general readers with an interest in Australian history geography politics and culture **International Business in Australia before World War One** Simon Ville, David Merrett, 2022-09-29 This book challenges conventional wisdom by revealing an extensive and heterogeneous community of foreign businesses in Australia before 1914 Multinational enterprise arrived predominantly from Britain but other sender nations included the USA France Germany New Zealand and Japan Their firms spread out across Australia from mining and pastoral communities to portside industries and CBD precincts and they operated broadly

across mining trading shipping insurance finance and manufacturing They were a remarkably diverse population of firms by size organisational form and longevity This is a rare study of the impact of multinationals on a host nation particularly before World War One and that focuses on a successful resource based economy Deploying a database of more than 600 firms supported by contemporary archives and publications the work reveals how multinational influence was contested by domestic enterprise other foreign firms and the strategic investments of governments in network industries Nonetheless foreign agency particularly investment knowledge and entrepreneurship mattered in the economic development of Australia in the nineteenth as well as the twentieth centuries This book will be of interest to students and researchers in Australian and international economic and business history the history of economic growth and scholars of international business

The Cambridge Economic History of Europe from the Decline of the Roman Empire: Volume 4, The Economy of Expanding Europe in the Sixteenth and Seventeenth Centuries E. E. Rich, C. H. Wilson, 1967-05 Examines the economic history of Europe during the sixteenth and seventeenth centuries
