Proceedings of the International Conference on Business and Management Dynamics

2016: Sustainable economies in the information economy Joy E. Akahome, Michael Twum-Darko, Cyril Ogbokor, Nyaniso Mfusi Zonke, T. Sethibe, R. Steyn, Esme Mohammed, Renier Steyn, L.B. Nguenang, Mamorena Lucia Matsoso, Henry N. Ozuru, Julius Akaba, Patient Rambe, Edem Korku Agbobli, Henri-Vincent Ndjave-Ndjoy, Regis Muchemwa, Andre de la Harpe, Konosoang Mpiti, Ayodeji Afolayan, 2016-12-31 Cape Town South Africa 7 Sept 2016 8 Sept 2016 Theme Sustainable economies in the information economy Purpose To share the quality academic papers presented at the International Conference on Business and Management Dynamics ICBMD held from 7 to 8 September 2016 at African Pride Crystal Hotel and Spa in Cape Town As grey literature the proceedings are the contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates Methodology The methodology used varies from researcher to researcher but are suitable for the studies conducted Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data On the other hand studies that were objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data However there were some academic papers which used mixed methodology because of the nature of the study Whatever methodology used adhered to the ethos of the philosophies underpinning the methodology Contribution made to scholarship The articles come from individual researchers and each article in the proceedings is unique

Mostly there is no general argument leading from one contribution to the next. However, it is interesting to note that in the area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more towards innovations in economic growth. With regard to human capital development, papers presented evidence that there exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done within the field of personal branding or on elements of the topic. Thus, the outcome argues that personal branding has an influence on leadership style which in turn impacts on organisational performance and related hygiene factors. Furthermore, it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an organisation have not been successful and as such new strategies are needed to reinforce efforts to nurture and invigorate the institutionalisation of knowledge sharing within an organisation. With regard to technology and big data impact on organisational performance, it was evident that system performance, memory consumption and CPU utilisation can be used as criteria to compare and evaluate big data technologies to improve organisational performance. Most of the articles contributed reemphasised technology education and training as a means of digitising business and improving effectiveness. Target audience: The target readership is academic researchers and business leaders who require access to the latest developments in the fields of economics, information management, business education, development studies, social sciences and technology. It is also for policymakers and other stakeholders who need a better understanding of the impact of new developments on existing policies and regulations for their review or amendment.

Student-Teacher Interaction in Online Learning Environments Wright, Robert D., 2014-09-30. As face-to-face interaction between student and instructor is not present in online learning environments, it is increasingly important to understand how to establish and maintain social presence in online learning. *Student-Teacher Interaction in Online Learning Environments* provides successful strategies and procedures for developing policies to bring about an awareness of the practices that enhance online learning. This reference book provides building blocks to help improve the outcome of online coursework and discusses social presence to help improve performance, interaction and a sense of community for all participants in an online arena. This book is of essential use to online educators, administrators, researchers and students.

Peer review in an Era of Evaluation Eva Forsberg, Lars Geschwind, Sara Levander, Wieland Wermke, 2022-01-03. This open access volume explores peer review in the scientific community and academia. While peer review is as old as modern science itself, recent changes in the evaluation culture of higher education systems have increased the use of peer review and its purposes, forms and functions have become more diversified. This book put together a comprehensive set of conceptual and empirical contributions on various peer review practices with relevance for the scientific community and higher education institutions worldwide. Consisting of three parts, the editors and contributors

examine the history problems and developments of peer review as well as the specificities of various peer review practices In doing so this book gives an overview on and examine peer review and asks how it can move forward This is an open access book **Forging Solidarity** Astrid von Kotze, Shirley Walters, 2017-04-13 Animating this book is a twofold question In what

ways are adult and popular educators responding to various harsh economic political cultural and environmental conditions In doing so are they planting seeds of hope for and imaginings of alternative futures which can connect individuals and communities locally and globally to achieve economic ecological and social justice The book illustrates how transformative politics of solidarity often involve actors across vastly different backgrounds Solidarity is therefore a political relationship that is forged through particular struggles situated in place and time across power differentials The authors put popular education to work by describing and analysing their strategies and approaches They do so using accessible language and engaging styles Popular education is a medium for dreaming for imagining other futures It is also essential for countering the wilful spreading of fake news and propagation of ignorance Pedagogies of solidarity are necessary to building connections amongst people at a time when competitive individualism and alienation are rampant Forging solidarity with and amongst communities is a means towards that end and indeed an end in itself Corporate mines and agribusiness poison the water we drink the air we breathe and the food we eat Together with their political proxies they destroy the earth and her peoples too many are killed because of their military economic religious and information wars How do we stand up for ourselves and the earth that nourishes us against this global system Forging Solidarity shares inspiring stories that feed our deep connection and power Pregs Govender Author of Love and Courage A Story of Insubordination Forging Solidarity is a critical and timely collective intervention that ponders prods pokes and plays in the most generative ways In so doing it invites us to continue deepening our engagements with questions of responsibility and justice in relation to education everywhere Richa Nagar author of Muddying the Waters Co authoring Feminisms across Scholarship and Activism This book inspires people to realize that not fighting against socio economic injustices is to side with oppressors Ntombi Nyathi Programme Director of Training for Transformation **Exploring Informal Learning Space in the University** Graham Walton, Graham

Matthews, 2017-09-01 Growing student numbers increased student expectations new approaches to learning and fast paced technological advances all contribute to the need for universities to take a more strategic approach to their buildings including formal and informal learning spaces Exploring Informal Learning Space in the University addresses the issue of informal learning space from the perspectives of a comprehensive range of stakeholders including students academics facilities managers university managers IT managers architects interior designers and librarians With contributions from a range of experts practitioners and academics around the world this book uses a combination of case studies and theoretical discussion to explore the rationale and theory of informal learning space alongside the practicalities of its planning development and utilization The volume is at once ambitious and pragmatic combining innovative thinking with a firm

awareness of practicalities including the varied constraints faced by universities and the need to work in tandem with broader strategies. Advocating broad collaboration at both planning and delivery stage the result is essential reading for anyone involved in the delivery of learning space provision from architects and designers to university managers and strategists. It will also be of particular interest to academics, researchers and postgraduate students engaged in the study of library information science or higher education policy and strategy.

Cascade Biocatalysis Sergio Riva, Wolf-Dieter Fessner, 2014-06-23. This ready reference presents environmentally friendly and stereoselective methods of modern biocatalysis. The experienced and renowned team of editors have gathered top international authors for this book. They cover such emerging topics as chemoenzymatic methods and multistep enzymatic reactions while showing how these novel methods and concepts can be used for practical applications. Multidisciplinary topics including directed evolution, dynamic kinetic resolution and continuous flow methodology are also discussed. From the contents: Directed Evolution of Ligninolytic Oxidoreductases from Functional Expression to Stabilization and Beyond; New Trends in the In Situ Enzymatic Recycling of NAD(P)H Cofactors; Monooxygenase Catalyzed Redox Cascade Biotransformations; Biocatalytic Redox Cascades Involving Transaminases; Multi-Enzyme Systems and Cascade Reactions Involving Cytochrome P450 Monooxygenases; Chemo-Enzymatic Cascade Reactions for the Synthesis of Glycoconjugates; Synergies of Chemistry and Biochemistry for the Production of Beta Amino Acids; Racemizable Acyl Donors for Enzymatic Dynamic Kinetic Resolution; Stereoselective Hydrolase Catalyzed Processes in Continuous Flow Mode; Perspectives on Multienzyme Process Technology; Nitrile Converting Enzymes Involved in Natural and Synthetic Cascade Reactions; Mining Genomes for Nitrilases; Key Study on the Kinetic Aspects of the In Situ NHase/AMase Cascade System of *M. imperiale* Resting Cells for Nitrile Bioconversion; Enzymatic Stereoselective Synthesis of Beta Amino Acids; New Applications of Transketolase; Cascade Reactions for Assay Development; Aldolases as Catalyst for the Synthesis of Carbohydrates and Analogs; Enzymatic Generation of Sialoconjugate Diversity; Methyltransferases in Biocatalysis; Chemoenzymatic Multistep One Pot Processes.

Postharvest Physiology and Biochemistry of Fruits and Vegetables Elhadi M. Yahia, Armando Carrillo-Lopez, 2018-10-31. Postharvest Physiology and Biochemistry of Fruits and Vegetables presents an updated, interrelated and sequenced view of the contribution of fruits and vegetables on human health, their aspects of plant metabolism, physical and chemical compositional changes during the entire fruit development lifecycle, the physiological disorders and biochemical effects of modified controlled atmospheres and the biotechnology of horticultural crops. The book is written specifically for those interested in preharvest and postharvest crop science and the impact of physiological and biochemical changes on their roles as functional foods. Deals with the developmental aspects of the lifecycle in whole fruits. Describes issues such as the morphology and anatomy of fruits beginning with the structural organization of the whole plant and explaining the fruit structure and its botanical classification. Addresses biotechnological concepts that control firmness, quality and the nutritional value of fruits.
