

Daily Progress Notes (The "SOAP" note)

Progress notes are to be written by the resident or intern on each covered medical patient on a daily basis. The daily progress note serves as a written medical-legal document that:

- Serves as a record of a patient's hospitalization
- Must be completed on a **Daily** basis and includes all "events" that occur during the hospitalization
- Records "events" in terms of subjective and objective findings
- Must include new and active patient health/social issues ("problems")
- Each problem is evaluated/assessed and an appropriate plan is formulated
- Must be legible and well written so to avoid any misunderstanding by the reader
- Must have a time and date and be signed on each page by the author in legible fashion.

The daily progress note is traditionally organized as a "SOAP" Note. Many, however, organize the Progress note as "HSOAP" where the H stands for history and contains one or two sentences summarizing the patient's case.

S=Subjective

- Record of subjective findings that occurred during the evening , overnight, and in the morning that patient is being examined.
- Essentially how the patient felt during the evening, night time and morning hours and what happened during those hours.

O=Objective (Includes all the following)

- Physical Exam: Vital signs, focused physical exam but almost always should include:
 - LUNG
 - CARDIAC
 - ABDOMINAL
 - EXTREMITIES
- Laboratory data
- Diagnostic Imaging
- Microbiology
- Please note that a **Medication List** which includes a listing of all scheduled and PRN (as needed) medications that are relevant to active problems is always helpful and recommended but is not required.

A/P=Assessment and Plan:

The One State Reality Michael Barnett, Nathan J. Brown, Marc Lynch, Shibley Telhami, 2023-03-15 The One State Reality argues that a one state reality already predominates in the territories controlled by the state of Israel The editors show that starting with the one state reality rather than hoping for a two state solution reshapes how we regard the conflict what we consider acceptable and unacceptable solutions and how we discuss difficult normative questions The One State Reality forces a reconsideration of foundational concepts such as state sovereignty and nation encourages different readings of history shifts conversation about solutions from two states to alternatives that borrow from other political contexts and provides context for confronting uncomfortable questions such as whether Israel Palestine is an apartheid state

Sewer of Progress Cindy McCulligh,2023-07-25 A creative and comprehensive exploration of the institutional forces undermining the management of environments critical to public health For almost two decades the citizens of Western Mexico have called for a cleanup of the Santiago River a water source so polluted it emanates an overwhelming acidic stench Toxic clouds of foam lift off the river in a strong wind In *Sewer of Progress* Cindy McCulligh examines why industrial dumping continues in the Santiago despite the corporate embrace of social responsibility and regulatory frameworks intended to mitigate environmental damage The fault she finds lies in a disingenuous discourse of progress and development that privileges capitalist growth over the health and well being of ecosystems Rooted in research on institutional behavior and corporate business practices *Sewer of Progress* exposes a type of regulatory greenwashing that allows authorities to deflect accusations of environmental dumping while regulated dumping continues in an environment of legal certainty For transnational corporations this type of simulation allows companies to take advantage of double standards in environmental regulations while presenting themselves as socially responsible and green global actors Through this inversion the Santiago and other rivers in Mexico have become sewers for urban and industrial waste Institutionalized corruption a concept McCulligh introduces in the book is the main culprit a system that permits and normalizes environmental degradation specifically in the creation and enforcement of a regulatory framework for wastewater discharge that prioritizes private interests over the common good Through a research paradigm based in institutional ethnography and political ecology *Sewer of Progress* provides a critical in depth look at the power relations subverting the role of the state in environmental regulation and the maintenance of public health *Official Records* ,1999 Tools and Algorithms for the Construction and Analysis of Systems Dana Fisman,Grigore Rosu,2022-03-29 This open access book constitutes the proceedings of the 28th International Conference on Tools and Algorithms for the Construction and Analysis of Systems TACAS 2022 which was held
