Fungal Cell Factories for Sustainable Nanomaterials Productions and Agricultural Applications Kamel A Abd-Elsalam, 2022-10-26 Fungal Cell Factories for Sustainable Nanomaterials Productions and Agricultural Applications explores the mycogenic synthesis of many metal nanoparticles including processing processes environmental protection and future perspectives Nanomaterials including silver gold palladium copper zinc selenium titanium dioxide metal sulphide cellulose have been formed by major fungal genes such as mushrooms Fusarium Trichoderma endophytic fungi and yeast in addition to lichens Understanding the exact process involved in the synthesis of nanoparticles and the effects of various factors on the reduction of metal ions can help to improve low cost strategies for the synthesis and extraction of nanoparticles Other sections focus on a new framework for the production of nano antimicrobial the use of myconanoparticles against plant diseases post harvest antibiotics mycotoxin control and plant pests in addition to certain animal pathogens Myconanomaterials are well developed with great potential and promise for advanced diagnostics biosensors precision farming and targeted smart delivery systems Assesses the impact of a variety of copper based nanostructures on agri food sectors addressing the most relevant knowledge gaps Explores the opportunities that myconanotechnology can provide for industrial applications Explains the major challenges of applying myconanotechnology at an industrial scale

Silver Nanomaterials for Agri-Food Applications Kamel A. Abd-Elsalam, 2021-08-14 Silver Nanomaterials for Agri Food Applications explores how silver based nanomaterials are being used to create more efficient systems and products across the agri food sector In particular the book covers silver nanomaterials as antimicrobial agents in food science for plant protection and for water purification Sections highlight the effect of silver nanoantimicrobials and drug synergism on drug resistant pathogens offer an overview of silver nanomaterials based nanosensors in agri food applications explore the use of silver nanostructures in plant science applications cover plant protection applications describe silver nanomaterial applications in the removal of dyes and pesticides from wastewater and more Explores the applications of silver based nanomaterials for plant protection water treatments and in food science Outlines why silver based nanomaterials have properties that make them beneficial for protection against infectious diseases Assesses the challenge of integrating silver based nanomaterials into agricultural systems

Socially Just Pedagogies Rosi Braidotti, Vivienne Bozalek, Tamara Shefer, Michalinos Zembylas, 2018-06-14 This book addresses contemporary philosophical issues in higher education and how we can create socially just pedagogies and a socially just university Providing a forum for thinking through how critical posthumanism affect theory and feminist new materialisms provide a useful lens for higher education and shows how these standpoints can benefit methods and practices of learning and teaching Gross inequalities in higher education continue to affect pedagogical practices across geopolitical contexts and there is a need to consider new theories which call into question the commonplace humanist assumptions currently dominating the discourse around social justice in this context However

scholarship on the affective turn critical posthumanism and new material feminisms opens both new possibilities and responsibilities for higher education pedagogies The approaches of this book also provide imaginative ways of engaging with current dissatisfactions with higher education from the marketization of education to issues of racism discrimination and lack of diversity Of international relevance this collection particularly foreground southern contexts and case studies such as the student activism in South African universities that has sparked a global project of decolonization and social justice in educational institutions This book is an urgent call to reconceptualize rethink and reconfigure pedagogies in higher education and the implications for future citizenship and social participation
