When the Dead Rise Christian Livermore, 2021 A survey of the motif of the revenant showing how medieval themes and motifs persist today The proliferation of books and films about the undead those literally returning from the grave in modern popular culture has been commented on as a recent phenomenon but it is in fact a storytelling tradition going back more than a millennium It drew on and was influenced by Christian eschatology gathered momentum in medieval ecclesiastical chronicles such as those written by Caesarius of Heisterbach and then migrated into imaginative literature famously in John Lydgate's *Dance of Death* and art But why did revenant stories and imagery take such
