Eco-Nihilism Wendy Lynne Lee, 2017-02-22 If we were to ask what is the root cause of our current and unprecedented environmental crisis climate change many particularly on the progressive Left would refer to the excesses of capitalism and they'd be right In *Eco Nihilism The Philosophical Geopolitics of the Climate Change Apocalypse* Wendy Lynne Lee demonstrates that there are no versions of conquest capital compatible with the fact of a finite planet and that a logic whose operating premise is growth is destined to not only exhaust our planetary resources but also generate profound social injustice and geopolitical violence in its pursuit Nonetheless it is clear that the violence and injustice of capital is selective some benefit greatly while others are subjugated to its pathological drive to profit Hence Lee argues that any comprehensive analysis of what Jason Moore has dubbed the Capitalocene must include an equally probing account of human chauvinism that is the axes along which capital is supplied with resources and labor Defined in terms of race sex gender and species these axes come ready made to the advantage of capitalist commodification Without an understanding of how and why humanity will remain doomed to settling for a sustainably unjust world as opposed to realizing a just and desirable one Indeed on our current trajectory we may not even achieve the sustainable The introduction of climate change into the mix of environmental deterioration the ever widening economic gap between global North and global South and the accelerating violence of terrorism civil war and human slavery make of a warming planet a combustible world The only way out requires ending the myth of endless resources a rejection of climate change denial and a radical re valuation of human centeredness not as a locus of power but as an opportunity to take moral and epistemic responsibility for a world whose biotic diversity and ecological integrity make the struggle to realize it worthwhile This solution demands not only an end to capitalism but the deliberate reclamation of value aesthetic moral and civic and a radical transformation of both personal and collective conscience Lee appeals to the experiential aesthetics of John Dewey and the feminist concept of the standpoint of the subjugated She argues for a version of the precautionary principle informed by an environmentally and socially responsible concept of the desirable future as the clearest path away from the precipice Producing Written and Oral Business Reports Dorinda Clippinger, 2017-02-21 *Producing Written and Oral Business Reports* Formatting Illustrating and Presenting emphasizes cost effective methods for producing reports that will do what you want them to do Numerous examples helpful illustrations concise writing style and convenient checklists let you acquire vital information rapidly *Producing Written and Oral Business Reports* is a how to guide for report creation throughout your career **Dwight Diller** Lewis M. The Forgotten Songs of the Newfoundland Outports Anna Kearney Guigné, 2016-12-12 In 1951 musician Kenneth Peacock 1922 2000 secured a contract from the National Museum of Canada today the Canadian Museum of History to collect folksongs in Newfoundland As the province had recently joined Confederation the project was deemed a goodwill gesture while at the same time adding to the Museum s meager Anglophone archival collections Between 1951 and 1961 over the course of six field visits Peacock collected 766 songs and melodies from 118 singers in 38 communities later publishing two thirds of this material in a three volume collection Songs of the Newfoundland Outports 1965 As the publication consists of over 1000 pages Outports is considered to be a bible for Newfoundland singers and a valuable resource for researchers However Peacock s treatment of the material by way of tune text collations use of lines and stanzas from unpublished songs has always been somewhat controversial Additionally comparison of the field collection with Outports indicates that although Peacock acquired a range of material his personal preferences requeently guided his publishing agenda To ensure that the songs closely correspond to what the singers presented to Peacock the collection has been prepared by drawing on Peacock s original music and textual notes and his original field recordings The collection is far ranging and eclectic in that it includes British and American broadsides musical hall and vaudeville material alongside country and western songs and local compositions It also highlights the influence of popular media on the Newfoundland song tradition and contextualizes a number of locally composed songs In this sense it provides a key link between what Peacock actually recorded and the material he eventually published As several of the songs have not previously appeared in the standard Newfoundland collections The Forgotten Songs sheds new light on the extent of Peacock s collecting The collection includes 125 songs arranged under 113 titles along with extensive notes on the songs and brief biographies of the 58 singers Thanks to the Research Centre for the Study of Music Media and Place a video of the launch event held in St John s Newfoundland is available at <https://www.youtube.com>
