OWNER'S MANUAL

Computerized Command Center

The Computerized Command Center is the heart of your Westec system. It accepts all signals reporting from various parts of the home, automatically interpreting these signals and simultaneously advises the homeowner and the Central Station of the nature of the problem.

Designed for reliability and accuracy, the "Continuous State Circuit Analyzer" is constantly monitoring your sensors for any malfunction in the wiring. The burglary portion of your system can be set and disarmed as required and should be set at all times your home is not occupied or during the time you are sleeping. Whether your system is "Set" or "Disarmed", it is active 24 hours per day, monitoring for Fire, Medical and Emergencies.

Although the Computerized Command Center is seldom used by the homeowner for the operation of the system, it is necessary to be aware of certain functions.

For your protection, there is a locked access door and, in addition, a hidden tamper switch is provided to prevent any unauthorized person from gaining entry into the Computerized Command Center.
