Movement – (in Art) visual movement is used by artists to direct viewers through their work, often to a focal area or a focal point. Such movements can be directed along lines, edges, shapes, and colors with the work. It can also mean when an artist uses design to produce the look of action in an artwork.

movement is created by all the curved lines that draw the viewer into following the arc of the big wave and onto the boats below

Balance – (in Art) is arranging elements so that no one part of a work overpowers or seems heavier than any other part. There are two major types of balance: symmetrical and asymmetrical. Humans often find symmetrical balance to be the most pleasing and calming.
