

National Student Financial Aid Scheme (NSFAS)

NSFAS is a **government loan scheme**, with the added incentive of a bursary conversion (maximum of 40%) depending on academic performance.

- If you do well, 40% of this can be converted to a bursary!!
 - If you fail, you will have to pay back EVERYTHING!
-
- **Academically deserving and financially needy students** have the opportunity to apply for a loan from NSFAS, part of which can be converted to a bursary, subject to academic results.
 - Loans do not always cover tuition fees and other study costs in full. The amount of the loan is determined, among other things, by the family's financial need and the student's cost of study.
 - Application forms available online: www.nsfas.org.za

Service-Learning Paradigms Kenneth Colburn, Jr., Rona Newmark, 2007-07 The papers in this volume have been selected primarily from the presentations at the International Symposium on Service Learning cosponsored by Stellenbosch University in South Africa and the University of Indianapolis in the United States It aims to explore service learning paradigms for the 21st century New Paradigms for Theory Research and Curriculum Development New Paradigms for Teaching and Learning and Paradigms for Intercommunity and Interdisciplinary Collaboration This volume provides clear evidence that the paradigm of service learning has gone global and international Service learning has become the new coin of the academic and civic realm for issues of connecting teaching scholarship and community services **Electronic**

Government and the Information Systems Perspective Andrea Kö, Enrico Francesconi, Adeleh Asemi, Gabriele Kotsis, A Min Tjoa, Ismail Khalil, 2023-07-28 This book constitutes the proceedings of the 12th International Conference on Electronic Government and the Information Systems Perspective EGOVIS 2023 which took place in Penang Malaysia during August 28 30 2023 The 8 full papers presented together with 1 short paper were carefully reviewed and selected from a total of 17 submissions They were organized in topical sections as follows e Government strategy artificial intelligence *Higher Education Financing in East and Southern Africa* Pundy Pillay, 2010 This nine country study of higher education financing in Africa includes three East African states Kenya Tanzania and Uganda five countries in southern Africa Botswana Lesotho Mozambique Namibia and South Africa and an Indian Ocean island state Mauritius Higher Education Financing in East and Southern Africa explores trends in financing policies paying particular attention to the nature and extent of public sector funding of higher education the growth of private financing including both household financing and the growth of private higher education institutions and the changing mix of financing instruments that these countries are developing in response to public sector financial constraints This unique collection of African country case studies draws attention to the remaining challenges around the financing of higher education in Africa but also identifies good practices lessons and common themes

The Next Twenty-five Years David Lee Featherman, Marvin Krislov, Martin Hall, 2009-12-18 A must read for anyone who cares about the future of higher education in diverse democracies **Fees Must Fall** Susan Booysen, 2016-10-01 This book explores the student discontent a year after the start of the 2015 South African FeesMustFall revolt FeesMustFall the student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa More broadly it radically questioned the socio political dispensation resulting from the 1994 social pact between big business the ruling elite and the liberation movement The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left Yet its objectives are more complex than those of earlier struggles The student movement has challenged the hierarchical top down leadership system of university management and it s double speak of professing to act in workers and students interests yet

entrenching a regressive system for control and governance University managements while on one level amenable to change have also co opted students into their ranks to create co responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution This book maps the contours of student discontent a year after the start of the FeesMustFall revolt Student voices dissect colonialism improper compromises by the founders of democratic South Africa feminism worker rights and meaningful education In depth assessments by prominent scholars reflect on the complexities of student activism its impact on national and university governance and offer provocative analyses of the power of the revolt

My Money Gerald Mwandambira,2024-06-07 Money is a tool that we can all master You choose to either be a Money Slave or a Money Master *My Money* written by Gerald Mwandambira is a practical easy to read personal finance book A guide that will help many ordinary people begin to create wealth and not fear the subject of personal financial planning A treasure trove of useful advice and tips this book is essential reading to gain a basic understanding of money mechanics A guide to help you find your confidence and see money as it really is a tool that anyone can use With a chapter dedicated to almost every financial situation we face in our lives *My Money* will become your go to book that will help you unlock your financial potential and gain control of your financial affairs You too have the potential to become a Money Master OECD Development Policy Tools Evidence-based Policy Making for Youth Well-being A Toolkit OECD,2017-10-17 With 1 2 billion people today s youth population aged 15 24 represents the largest cohort ever to enter the transition to adulthood Close to 90% of these young people live in developing countries and the numbers will practically double in the least developed countries **Discrimination in an Unequal World** Miguel Angel Centeno,Katherine S. Newman,2010-09 Is globalization making our world more equal or less Proponents of globalization argue that it is helping and that in a competitive world no one can afford to discriminate except on the basis of skills Opponents counter that globalization does nothing but provide a meritocratic patina on a consistently unequal distribution of opportunity Yet despite the often deafening volume of the debate there is surprisingly little empirical work available on the extent to which the process of globalization over the past quarter century has had any effect on discrimination Tackling this challenge *Discrimination in an Unequal World* explores the relationship between discrimination and unequal outcomes in the appropriate geographical and historical context Noting how each society tends to see its particular version of discrimination as universal and obvious the editors expand their set of cases to include a broad variety of social relations and practices However since methods differ and are often designed for particular national circumstances they set the much more ambitious and practical goal of establishing a base with which different forms of discrimination across the world can be compared Derived from a broad array of methods the book draws many important lessons on the new means by which the world creates social hierarchies the democratization of inequality and the disappearance of traditional categories *Widening Higher Education Participation* Mahsood Shah,Anna Bennett,Erica Southgate,2015-10-19 Governments have introduced policies to widen the participation of disadvantaged

students in higher education Widening participation policies are also introduced to ensure that higher education contributes to social and economic outcomes This book includes important insights from 23 leading scholars across 11 countries on a wide range of topics that focus on government policies institutional structures and the social and economic impacts of widening participation While widening participation policies and outcomes in developed countries are more widely documented the policies achievements and challenges in other countries such as Brazil China Indonesia South Africa and Palestine are not so widely disseminated Therefore the untold stories of policies and outcomes of widening participation are a key part of this book The chapters are organised according to three overarching themes which include national and transnational studies of the history of widening participation and current policies inclusive learning and academic outcomes and socioeconomic structures concepts and theories Engages prominent academics earlier career researchers and research students Provides a wide range of topics related to widening participation Explores social and economic impact of widening student participation Presents untold stories of widening participation in developing countries experiencing growth in youth population

Going to University Case, Jennifer, Marshall, Delia, 2018-02-09 Around the world more young people than ever before are attending university Student numbers in South Africa have doubled since democracy and for many families higher education is a route to a better future for their children But alongside the overwhelming demand for higher education questions about its purposes have intensified Deliberations about the curriculum culture and costing of public higher education abound from student activists academics parents civil society and policy makers We know from macro research that South African graduates generally have good employment prospects But little is known at a detailed level about how young people actually make use of their university experiences to craft their life courses And even less is known about what happens to those who drop out This accessible book brings together the rich life stories of 73 young people six years after they began their university studies It traces how going to university influences not only their employment options but also nurtures the agency needed to chart their own way and to engage critically with the world around them The book offers deep insights into the ways in which public higher education is both a private and public good and it provides significant conclusions pertinent to anyone who works in and cares about universities

Going to University. The Influence of Higher Education on the Lives of Young South Africans Jennifer Case, Delia Marshall, 2018-02-09 Around the world more young people than ever before are attending university Student numbers in South Africa have doubled since democracy and for many families higher education is a route to a better future for their children But alongside the overwhelming demand for higher education questions about its purposes have intensified Deliberations about the curriculum culture and costing of public higher education abound from student activists academics parents civil society and policy makers We know from macro research that South African graduates generally have good employment prospects But little is known at a detailed level about how young people actually make use of their university experiences to craft their life courses And even less is

known about what happens to those who drop out This accessible book brings together the rich life stories of 73 young people six years after they began their university studies It traces how going to university influences not only their employment options but also nurtures the agency needed to chart their own way and to engage critically with the world around them The book offers deep insights into the ways in which public higher education is both a private and public good and it provides significant conclusions pertinent to anyone who works in and cares about universities Breaking a Rainbow, Building a Nation Rekgotsofetse Chikane, 2018-10-01 Breaking a Rainbow Building a Nation is a first hand account of the university protests that gripped South Africa between 2015 and 2017 widely better known as the FeesMustFall Chikane outlines the nature of student politics in the country before during and after the emergence of MustFall politics exploring the political dynamics that informed and drove the student protests and the effect that these MustFall movements have had on the nature of youth politics in the country Chikane looks at how the current nature of youth politics is different from previous youth upheavals that have defined South Africa specifically due to the fact that the protests were being led by so called coconuts who are part of the black elite Breaking a Rainbow Building a Nation poses the provocative question can coconuts be trusted with the revolution **Financing Higher Education Worldwide** D. Bruce Johnstone, Pamela N. Marcucci, 2010-06-07 No issue in higher education is as salient or as controversial as finance As demand for higher education around the world grows so do the costs associated with it especially as governments shoulder less of the burden Tuition fees rise and student loan debt grows Who pays for these surging costs Who should pay D Bruce Johnstone and Pamela N Marcucci examine the universal phenomenon of cost sharing in higher education where financial responsibility shifts from governments and taxpayers to students and families They find that growing costs for education far outpace public revenue streams that once supported it Even with financial aid and scholarships defraying some of these costs students are responsible for a greater share of the cost of higher education Featuring comprehensive economic and policy data the authors international comparative approach shows how economically diverse countries all face similar cost sharing challenges So who should pay for higher education While cost sharing is both politically and ideologically debated Johnstone and Marcucci contend that for almost all countries it is imperative for the financial health of colleges and universities bringing better efficiency equity and responsiveness Financing Higher Education Worldwide combines sophisticated economic explanations with sensitive political and cultural analyses of the financial pressures facing higher education throughout the world *Social Justice and Education in the 21st Century* Willie Pearson Jr., Vijay Reddy, 2021-04-10 The world is not an equal place There are high and low income countries and high and low income households For each group there are differential educational opportunities leading to differential educational outcomes and differential labor market opportunities This pattern often reproduces the privileges and inequalities of groups in a society This book explores this differentiation in education from a social justice lens Comparing the United States and South Africa this book analyzes each

country's developmental thinking on education from human capital and human rights approaches in both primary and higher education. The enclosed contributions draw from different disciplines including legal studies, sociology, psychology, computer science, and public policy.

Government Managing Risk Bruce Chapman, 2006-09-27 Higher education rates are increasing throughout the Western world yet at the same time government budgets face increasing constraints. This has ensured that the importance of student support is recognized in many countries. In recent years there has been a world-wide movement towards the use of income-contingent loans (ICL) for higher education. ICLs are now used in six countries following the Australian innovation of 1989, with the governments of many more countries looking very seriously at the model. This impressive new book by Bruce Chapman analyzes ICLs particularly their use in supporting students, exploring the experiences of a number of other countries adopting them. Chapman presents analysis of a number of disparate case studies to illustrate how ICLs can aid risk management policy reforming in both progressive and administratively feasible ways. This book describes, examines, and promotes an exciting new role for the public sector as a manager of risk and argues that ICLs have enormous potential to change the extent and nature of social and economic activities. With the author's experience in the design and implementation of the Australian student financial support schemes, this is a knowledgeable, informative, and enlightening book that will be useful to researchers, students, and policy makers alike.

Rhizome Metaphor Myint Swe Khine, 2023-05-31 This comprehensive volume highlights the paradigm shift, creative approaches, and theoretical and practical aspects of rhizomatic learning. The great French theorists Deleuze and Guattari introduced the concept of the rhizome to allow educators to explore the educative process with the rhizomatic lens. The chapters cover digital pedagogies, the conceptual framework of rhizome and nomadic pedagogy in 21st-century education. It creates rhizomatic learning environments and rhizome metaphors to illuminate learning and teacher professional development. It covers an extensive range of issues and challenges related to teaching and learning in the techno-centric education systems. It presents an up-to-date and comprehensive analysis of rhizomatic learning approaches in various disciplines. It examines the following key questions: What is the conception of rhizomatic learning and nomadic pedagogy? In which ways can rhizomatic learning transform teaching methods in the digital era? How can educators implement a rhizomatic learning approach in practice? What is the connection between the rhizomatic process and divergent thinking in socially mediated and technology-driven learning environments? Combining theory and practice, this book is essential reading for educational policymakers, teacher educators, university faculty, researchers, instructional designers, learning technologists, teachers, and undergraduate and graduate students worldwide.

Transnational Education and Curriculum Studies John Chi-Kin Lee, Noel Gough, 2020-07-28 In recent years there has been increasing attention placed on international and transnational aspects of school and higher education curricula and the different research approaches and lenses through which these issues are studied. This edited volume explores diverse perspectives and discourses of curriculum studies contributed by scholars both within and outside the

majority world In addition it tackles both transnational cross border endeavours involving national governments and policy measures and the promises challenges and failings of those formal relationships The book consists of three sections The first section provides an introduction and overviews of transnational education in connection with curriculum studies schooling and higher education The second section deals with transnational and international perspectives on curriculum studies schooling and education The final third section highlights transnational and international perspectives on higher education This timely volume tackles the questions often posed by curriculum scholars and educational researchers around the possibility of a transnational approach to curriculum studies and how and if a common set of means can transcend national boundaries and sensitivities It looks at the common issues and problems across nations that international and transnational curriculum and educational research work could address This volume will appeal to researchers and policy makers interested in transnational education and curriculum studies

Higher Education ,2023-11-02 COVID wrought havoc on the world s economic systems Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems Some institutions were prepared for the required transition to online learning Most were not Whether prepared or not educators rose to the challenge The innovativeness of educators met the challenges as digital learning replaced the face to face environment In fact some of the distance models proved so engaging that many students no longer desire a return to the face to face model As with all transitions some things were lost while others were gained This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century The book is organized into four sections on Perils and Promises The State of Online Education Goals and Challenges of Online Learning and Innovations in the Age of COVID It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process These discussions shed light on the impact of the pandemic and the future of higher education post COVID Higher education has been forever changed and higher education as it once was may never return While many questions arise the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic
