Public Value Management, Governance and Reform in Britain

John Connolly, Arno van der Zwet, 2020-11-23 This book examines developments in governance reform in Britain with a particular focus on the period since 2010 We argue that the experiences of the past decade mean that public value based ideas are required to inform governance reform for the coming years This needs to be prioritised due to the twin challenges of managing the aftermath of Brexit and navigating through the recovery phase of the COVID 19 pandemic The volume outlines key themes issues and debates relevant to contemporary public sector reform including modes of state governance evidence based policy making debates the challenges and possibilities of public sector innovation accountability issues and the implications of Brexit The overall conclusion of the book is that the coming decade presents an opportunity for more paradigmatic changes to UK governance but for this to happen political leaders need to prioritise a reinventing government agenda underpinned by public value based thinking and approaches This book will be of particular interest to students of politics and public administration and relevant for those with general research interests in British governance and public policy

The Oxford Handbook of International Tax Law Florian Haase, Georg Kofler, 2023-10-13 International Tax Law is at a turning point Increased tax transparency the tackling of Base Erosion and Profit Shifting BEPS the reconstruction of the network of bilateral tax treaties the renewed discussion about a fair and efficient allocation of taxing rights between States in a global digitalized economy and the bold push for minimum corporate taxation are some expressions of this shift This new era also demonstrates the increased influence of international standard setters such as the OECD the UN and the EU Each of these developments alone has the potential of being disruptive to the traditional world of international tax law but together they have the potential to reshape the international tax system The Oxford Handbook of International Tax Law provides a comprehensive exploration of these key issues which will shape the future of tax law Divided into eight parts this handbook traces the history of international tax law from its earliest days until the present including reflections on the developments that have characterized the last one hundred years The second section places tax law within the broader international context considering how it relates to public and private international law as well as corporate trade and criminal law Sections three and four consider key legal principles and issues such as regional tax treaty models OECD dispute resolution and transfer pricing versus formulary apportionment Subsequent analysis places these issues within their European and cross border contexts providing an assessment of the role of the ECJ state aid and cross border VAT Section seven broadens the scope of this analysis asking how trends in recent major economies and regions have helped shape the current outlook The

final section considers emerging issues and the future of international tax law With over sixty authors from 28 different countries the Oxford Handbook of International Tax Law is an invaluable resource for scholars academics and practitioners alike
