The British National Bibliography Arthur James Wells, 2005 *Risk and Decision Analysis in Projects* John R. Schuyler, 2001 Some of Schuyler's tried and true tips include The single point estimate is almost always wrong so that it is always better to express judgments as ranges A probability distribution completely expresses someone's judgment about the likelihood of values within the range We often need a single value cost or other assessment and the expected value mean of the distribution is the only unbiased predictor Expected value is the probability weighted average and this statistical idea is the cornerstone of decision analysis Some decisions are easy perhaps aided by quick decision tree calculations on the back of an envelope Decision dilemmas typically involve risky outcomes many factors and the best alternatives having comparable value We only need analysis sufficient to confidently identify the best alternative As soon as you know what to do stop the analysis Be alert to ways to beneficially change project risks We can often eliminate avoid transfer or mitigate threats in some way Get to know the people who make their living helping managers sidestep risk They include insurance agents partners turnkey contractors accountants trainers and safety personnel **American Book Publishing Record**, 1990

Glocalized Solutions for Sustainability in Manufacturing Jürgen Hesselbach, Christoph Herrmann, 2011-03-19 The 18th CIRP International Conference on Life Cycle Engineering LCE 2011 continues a long tradition of scientific meetings focusing on the exchange of industrial and academic knowledge and experiences in life cycle assessment product development sustainable manufacturing and end of life management The theme Glocalized Solutions for Sustainability in Manufacturing addresses the need for engineers to develop solutions which have the potential to address global challenges by providing products services and processes taking into account local capabilities and constraints to achieve an economically socially and environmentally sustainable society in a global perspective Glocalized Solutions for Sustainability in Manufacturing do not only involve products or services that are changed for a local market by simple substitution or the omitting of functions Products and services need to be addressed that ensure a high standard of living everywhere Resources required for manufacturing and use of such products are limited and not evenly distributed in the world Locally available resources local capabilities as well as local constraints have to be drivers for product and process innovations with respect to the entire life cycle The 18th CIRP International Conference on Life Cycle Engineering LCE 2011 serves as a platform for the discussion of the resulting challenges and the collaborative development of new scientific ideas *Forthcoming Books* Rose Arny, 2003-04
