Clements, 2006 Designed for students and general readers this massive encyclopedia authoritatively reviews the folklore and folkways of cultures from around the world **Rethinking the Anthropology of Magic and Witchcraft** Phillips Stevens, Jr., 2023-12-12 This book introduces students to the anthropology of magic and witchcraft terms widely used but with no widely accepted definitions It takes a new approach to this area within the anthropology of religion demonstrating that the bases for these beliefs and alleged practices are inherent in human cognition and psychology even instinctual and likely rooted in our evolutionary biology It shows how magic and magical thinking are regular elements in people's daily lives and that understanding the components of the witchcraft complex offers surprisingly important insights into patterns of thinking and social behavior The book reviews the many meanings of magic and witchcraft and introduces the best anthropological meanings of the terms The components of these beliefs are timeless and universal this fact and recent advances in the brain sciences suggest that the principles of magic are derived from basic processes of human thinking and the attributes of the witch derive from neurobiologically based fears and fantasies The propensity for such beliefs probably had adaptive significance in the evolutionary development of the human species they are inherently human This book is intended to focus anew on the core concepts of magic witchcraft and the supernatural while also serving as an introduction to the anthropology of religion for undergraduate and graduate level courses Blackwood's Edinburgh magazine , 1848 The Encyclopedia of World Religions Robert S. Ellwood, 2008 Contains nearly 600 brief entries on the world's religious traditions **The Shadow of God** Michael Rosen, 2022-06-30 Michael Rosen shows how the redemptive hope of religion became the redemptive hope of historical progress This was the heart of German Idealism purpose lay not in God's judgment but in worldly projects freedom required not being subject to arbitrary authority human or divine Yet purpose and freedom never shed their theistic structure A New Planet Corey Marques, 2011-12-21 The characters and plot of this story are fictitious and although some are derived from mythical historical symbolic and religious means the story itself is fictitious As such the story is not intended to be taken seriously judgmentally nor religiously but absorbed and discarded playfully with an open mind Take in what you need take what you feel discard the rest In no way does this book claim to know the right way to grow because everyone must walk their own path everyone must find their own centerpoint of view This story comes from one perspective one eye one voice one soul expressing various elements of human emotion expression and opinion This is a story with a plot I believe to be of central proportions It is up to you to find connections to your own Archetype May you always Love your Creator and aim to shine bright like the greatest role model in the universe Within creative bright light Shines great insight Aim to be the Author and Master your own world Everyone every soul has a character a story that can and does change the World Ask yourself who is your character Mysteries and Secrets of Voodoo, Santeria, and Obeah Patricia Fanthorpe, 2008-07-28 The secrets of Santeria Voodoo and Obeah are among the oldest enigmas in the world Their roots go back to pre historic Africa perhaps even beyond that From the 16th century

onwards the slave trade brought these ancient mysteries to the West where they blended strangely with traditional Christianity the ancient African gods became identified with legendary saints This integration of the two faiths slowly evolved to form the many varieties of Santeria Obeah and Voudoun that are widely practiced throughout the world today Their characteristic dancing and drumming seem able to invoke strange states of mind in which almost anything is possible Even stories of zombies the walking dead still persist Is there a rational explanation for them Contemporary Voudoun priests priestesses magicians and enchanters use rare herbs and spices as well as charms dolls and talismans to control the natural world in ways that science cannot always explain Accounts of their inexplicable successes are examined in depth Most intriguing of all are the claims that are made for their love philtres and aphrodisiacs What powers do these old religions still possess
