Song Of The Pearl:

The Gnostic Bible Willis Barnstone, Marvin W. Meyer, 2006 The most comprehensive collection of gnostic literature ever published this volume is the result of a unique collaboration between a renowned poet translator and a leading scholar of early Christian texts

Jung and the Lost Gospels Stephan A. Hoeller, 1989-10-01 The Lost Gospels refer to the Dead Sea Scrolls and the Nag Hammadi Library both discovered in the 1940s The Nag Hammadi Library consists of writings found by two peasants who unearthed clay jars in 1945 in upper Egypt These did not appear in English for 32 years because the right to publish was contended by scholars politicians and antique dealers The Dead Sea Scrolls discovered in clay jars in Palestine by a goatherder in 1947 weathered similar storms The first team of analysts were mostly Christian clergy who weren't anxious to share material that frightened church leaders As Dr Hoeller shows they rightly feared the documents would reveal information that might detract from unique claims of Christianity Indeed the Dead Sea Scrolls and Nag Hammadi Library both contradict and complement accepted tenets of the Old and New Testaments

Literature and the Child James Holt McGavran, James Holt McGavran, 1998-04 The Romantic myth of childhood as a transhistorical holy time of innocence and spirituality uncorrupted by the adult world has been subjected in recent years to increasingly serious interrogation Was there ever really a time when mythic ideals were simple pure and uncomplicated The contributors to this book contend although in widely differing ways and not always approvingly that our culture is indeed still pervaded in this postmodern moment of the very late twentieth century by the Romantic conception of childhood which first emerged two hundred years ago In the wake of the French Revolution and the Industrial Revolution western Europe experienced another fin de siècle characterized by overwhelming material and institutional change and instability By historicizing the specific political social and economic conflicts at work within the notion of Romantic childhood the essayists in *Literature and the Child* show us how little these forces have changed over time and how enriching and empowering they can still be for children and their parents In the first section *Romanticism Continued and Contested* Alan Richardson and Mitzi Myers question the origins and ends of Romantic childhood In *Romantic Ironies Postmodern Texts* Dieter Petzold Richard Flynn and James McGavran argue that postmodern texts for both children and adults perpetuate the Romantic complexities of childhood Next in *The Commerce of Children's Books* Anne Lundin and Paula Connolly study the production and marketing of children's classics Finally in *Romantic Ideas in Cultural Confrontations* William Scheick and Teya Rosenberg investigate interactions of Romantic myths with those of other cultural systems

Essential Gnostic Scriptures Willis Barnstone, Marvin Meyer, 2010-12-28 The people we've come to call gnostics were passionate advocates of the view that salvation comes through knowledge and personal experience and their passion shines through in the remarkable body of writings they produced over a period of more than a millennium and a half Willis Barnstone and Marvin Meyer have created a translation that brings the gnostic voices to us from across the centuries with remarkable power and beauty beginning with texts from the earliest years of Christianity including material from the

Nag Hammadi library and continuing all the way up to expressions of gnostic wisdom found within Islam and in the Cathar movement of the Middle Ages The twenty one texts included here serve as a compact introduction to Gnosticism and its principal ideas and they also provide an entrance to the pleasures of gnostic literature in general representing as they do the greatest masterpieces of that tradition *Studies in Manichaean Literature and Art* Manfred Heuser, H. J.

Klimkeit, 1997-12-31 This volume consists of two sections The first is a general analysis by Manfred Heuser of The Manichaean Myth According to Coptic Sources The second is a collection of essays by Hans Joachim Klimkeit on various aspects of Manichaeism including Manichaean symbolism and art **The Song Of The Pearl** Wesley Stillwagon

Sr, 2019-06-10 John Steinbeck's *The Pearl* includes many references to songs that accompany the perceptions of a central character named Kino It is important to note that the writer used the term song and as such implied something greater than a single musical note chord or phrase He was referring to a streaming complex of feeling tones a melody or song Such streaming influences from the unconscious may impact an individual's perception judgment decisions and conclusions often before they are able to explain their reaction While many can relate to such experiences understanding the source and purpose could enrich the experience How the unconsciously inspired influences impact us depends upon our individual adult maturity functional style and attitude An example of such influences are regularly employed in film and stage plays To unify an influence among individual audience members a well developed film or stage play's musical score serves to bring together audience feeling tones to support a scene It may dramatically increase the viewing experience across a wide range of individual styles This essay introduces the conceptual tools to build an understanding and appreciation for such influences The essay could be used as supporting evidence for greater funding for the arts in education *Song Index* Minnie Earl

Sears, Phyllis Crawford, 1926 *Emperor and Ancestor* David Faure, 2007-03-01 This book summarizes twenty years of the author's work in historical anthropology and documents his argument that in China ritual provided the social glue that law provided in the West The book offers a readable history of the special lineage institutions for which south China has been noted and argues that these institutions fostered the mechanisms that enabled south China to be absorbed into the imperial Chinese state first by introducing rituals that were acceptable to the state and second by providing mechanisms that made group ownership of property feasible and hence made it possible to pool capital for land reclamation projects important to the state Just as taxation defense and recognition came together with the emergence of powerful lineages in the sixteenth century their disintegration in the late nineteenth century signaled the beginnings of a new Chinese state **Little Lorrie**
