Love and the Working Class Karen Lystra, 2024 *Love and the Working Class* is a unique look at the emotions of hard living racially diverse nineteenth century Americans who were often on the cusp of literacy. Subtitling Jorge Díaz Cintas, Aline Remael, 2020-12-29 *Subtitling: Concepts and Practices* provides students, researchers, and practitioners with a research-based introduction to the theory and practice of subtitling. The book, inspired by the highly successful *Audiovisual Translation: Subtitling* by the same authors, is a new publication reflecting the developments in practice and research that mark subtitling today while considering the way ahead. It supplies the core concepts that will allow its users to acquaint themselves with the technical, linguistic, and cultural features of this specific yet extremely diverse form of audiovisual translation and the many contexts in which it is deployed today. The book offers concrete subtitling strategies and contains a wealth of examples in numerous languages for dealing with specific translation problems. State-of-the-art translation technologies and their impact on the profession are explored along with a discussion of the ways in which they cater for the socio-political, multicultural, and multilingual challenges that audiovisual productions and their translations must meet today. A truly multimedia package, *Subtitling: Concepts and Practices* comes with a companion website which includes a wide range of exercises with answer keys, video clips, dialogue lists, a glossary of concepts and terminology used in the industry, and much more. It also provides access to a professional desktop subtitle editor, Wincaps Q4, and a leading cloud-based subtitling platform, OOONA.

The Kaleidoscope of Gender Catherine G. Valentine, Mary Nell Trautner, Joan Z. Spade, 2019-03-07 *The Kaleidoscope of Gender: Prisms, Patterns, and Possibilities* provides an accessible, timely, and stimulating overview of the cutting-edge literature and theoretical frameworks in sociology and related fields in order to understand the social construction of gender. The kaleidoscope metaphor and its three themes—prisms, patterns, and possibilities—unify topic areas throughout the book. By focusing on the prisms through which gender is shaped, the patterns which gender takes, and the possibilities for social change, the reader gains a deeper understanding of ourselves and our relationships with others, both locally and globally. Editors Catherine Valentine, Mary Nell Trautner, and the work of Joan Spade focus on the paradigms and approaches to gender studies that are constantly changing and evolving. The Sixth Edition includes incorporation of increased emphasis on global perspectives, updated contemporary social movements such as BlackLivesMatter and MeToo, and an updated focus on gendered violence.
