Hypocrisy and Human Rights Kate Cronin-Furman, 2022-11-15 Hypocrisy and Human Rights examines what human rights pressure does when it does not work Repressive states with absolutely no intention of complying with their human rights obligations often change course dramatically in response to international pressure They create toothless commissions permit but then obstruct international observers visits and pass showpiece legislation while simultaneously bolstering their repressive capacity Covering debates over transitional justice in Sri Lanka Myanmar Cambodia Democratic Republic of the Congo and other countries Kate Cronin Furman investigates the diverse ways in which repressive states respond to calls for justice from human rights advocates UN officials and Western governments who add their voices to the victims of mass atrocities to demand accountability She argues that although international pressure cannot elicit compliance in the absence of domestic motivations to comply the complexity of the international system means that there are multiple audiences for both human rights behavior and advocacy and that pressure can produce valuable results through indirect paths

The Politics and Law of Democratic Transition Sonia Zaman Khan, 2017-10-25 Peaceful legal and political changing of the guards is taken for granted in developed democracies but is not evident everywhere As a

relatively new democracy marred by long periods of military rule Bangladesh has been encountering serious problems because of a prevailing culture of mistrust weak governance institutions constant election manipulation and a peculiar socio political history which between 1990 and 2011 led to a unique form of transitional remedy in the form of an unelected neutral caretaker government CTG during electoral transitions This book provides a contextual analysis of the CTG mechanism including its inception operation manipulation by the government of the day and abrupt demise It queries whether this constitutional provision even if presently abolished after overseeing four acceptable general elections actually remains a crucial tool to safeguard free and fair elections in Bangladesh Given the backdrop of the culture of mistrust the author examines whether holding national elections without a CTG or an umpire of some kind can settle the issue of credibility of a given government The book portrays that even the management of elections is a matter of applying pluralist approaches Considering the historical legacy and contemporary political trajectory of Bangladesh the cause of deep rooted mistrust is examined to better understand the rationale for the requirement emergence and workings of the CTG structure The book unveils that it is not only the lack of nation building measures and governments wish to remain in power at any cost which lay behind the problems that Bangladesh faces today Part of the problem is also the flawed logic of nation building on the foundation of Western democratic norms which may be unsuitable in a South Asian cultural environment Although democratic transitions on the crutch of the CTG have been useful in moments of crisis its abolition creates the need for a new or revised transitional modality perhaps akin to the CTG ethos to oversee electoral governance which will have to be renegotiated by the polity based on the people s will The book provides a valuable resource for researchers and academics working in the area of constitutional law democratic transition legal pluralism and election law

Forcible Displacement Throughout the Ages Grant Dawson, Sonia Farber, 2012-07-19 This book analyses the anthropological historical and legal contours of the crime of forcible displacement and proposes specific measures that the international community can adopt in order to prevent and or punish the perpetration of the crime in the future
