Sonnenfinsternis Arthur Koestler:

Arthur Koestler's Fiction and the Genre of the Novel Zénó Verenyi, 2021-09-17 Featuring a selection of brand new essays by a group of accomplished scholars Arthur Koestler's Fiction and the Genre of the Novel covers all of Koestler's novels published in his lifetime the first book to attempt this in English since Mark Levene's Arthur Koestler published thirty seven years ago The team of contributors with research backgrounds in history political science religious studies law linguistics and journalism besides literature offers a truly multidisciplinary take on how Koestler's novels utilize and at times transcend the genre of the novel and argues for their enduring relevance and appeal in the twenty first century inviting the reader to revisit and reassess them With the topics of Koestler's novels including terrorism massive migration espionage rape trauma war trauma the crisis of faith propaganda fake news and the role and responsibility of intellectuals in major international crises as the volume aims to show these texts are just as topical today as they were at the time of their publication

Darkness at Noon Arthur Koestler, 2019-09-17 The newly discovered lost text of Arthur Koestler's modern masterpiece Darkness at Noon the haunting portrait of a revolutionary imprisoned and tortured under totalitarian rule is now restored and in a completely new translation Editor Michael Scammell and translator Philip Boehm bring us a brilliant novel a remarkable discovery and a new translation of an international classic In print continually since 1940 Darkness at Noon has been translated into over 30 languages and is both a stirring novel and a classic anti fascist text What makes its popularity and tenacity even more remarkable is that all existing versions of Darkness at Noon are based on a hastily made English translation of the original German by a novice translator at the outbreak of World War II In 2015 Matthias Weel stumbled across an entry in the archives of the Zurich Central Library that is a scholar's dream Koestler Arthur Rubaschow Roman Typoskript M rz 1940 326 pages What he had found was Arthur Koestler's original complete German manuscript for what would become Darkness at Noon thought to have been irrevocably lost in the turmoil of the war With this stunning literary discovery and a new English translation direct from the primary German manuscript we can now for the first time read Darkness at Noon as Koestler wrote it Set in the 1930s at the height of the purge and show trials of a Stalinist Moscow Darkness at Noon is a haunting portrait of an aging revolutionary Nicholas Rubashov who is imprisoned tortured and forced through a series of hearings by the Party to which he has dedicated his life As the pressure to confess preposterous crimes increases he relives a career that embodies the terrible ironies and betrayals of a merciless totalitarian movement masking itself as an instrument of deliverance Koestler's portrayal of Stalin era totalitarianism and fascism is as chilling and resonant today as it was in the 1940s and during the Cold War Rubashov's plight explores the meaning and value of moral choices the attractions and dangers of idealism and the corrosiveness of political corruption Like The Trial 1984 and Animal Farm this is a book you should read as a citizen of the world wherever you are and wherever you come from

Kafka-Rezeption in der Literatur der DDR Angelika Winnen, 2006 *Darkness at Noon* Arthur Koestler, 1941 An aging revolutionary is imprisoned

and psychologically tortured by the Party to which he has dedicated his life He recalls a career that embodies the ironies and betrayals of a totalitarian government **The National Union Catalog, Pre-1956 Imprints** Library of Congress, American Library Association. Insights from Book Translations on the International Diffusion of Knowledge Isabelle Yin Fong Sin, 2011

Increases in the stock of ideas possessed by societies are central to modern economic growth The implications of idea flows are striking Klenow and Rodriguez Clare 2005 estimate world production would be just 6% of its current level if countries did not share ideas Yet although theoretical economists have studied ideas and their diffusion extensively empirical studies are scarce because ideas are inherently difficult to measure Previous empirical studies of idea flows have tended to use proxies such as trade flows foreign direct investment migration and patent citations However with the exception of the latter these measures are not pure idea flows and do not capture the key properties of ideas namely non rivalry and disembodiedness My research proposes a novel measure of idea flows namely book translations and uses it to study the factors that affect the international diffusion of ideas Book translations are an attractive way to quantify idea flows because they are both non rival and disembodied they are a pure measure of idea flows rather than a by product of a process such as trade or migration and their key purpose is to make the ideas contained in the book accessible to speakers of another language In chapter 2 I outline the economics literature on ideas and their diffusion I motivate and discuss book translations as a measure of idea flows and provide a framework for thinking about when translations are likely to occur I describe the translation data in chapter 3 The source of the data is an international bibliography of translations collected by the United Nations Educational Scientific and Cultural Organization From this bibliography I compile a data set of over 2 million translations published in 80 countries since the 1949 including detailed information on each title translated I then document the main patterns of translation flows In chapter 4 I employ a gravity framework to study how distance affects translation flows between countries This sheds light both on the barriers to international idea diffusion and on the underlying causes of the negative relationship between distance and trade Translations differ from trade in that they have zero transportation costs but they are subject to similar search and information costs and costs of forming contracts I estimate a gravity model where bilateral translation flows vary with the sizes of the countries and the distance between them and find the elasticity of translations with respect to distance to be between 0.3 and 0.5 for the 1990s these values are significantly smaller than the equivalent elasticity for trade found in the literature suggesting a significant role for transportation costs in the distance effect on trade In addition I present several pieces of evidence that suggest supply side frictions play a larger role in the distance effect on translations than do consumer preferences For instance the speed with which titles are translated which is likely to largely capture supply frictions as opposed to demand factors decreases significantly with distance Finally in joint work with Ran Abramitzky chapter 5 I study how the collapse of the Communist regime in Eastern Europe at the close of the 1980s affected the international diffusion of

ideas We show that while translations between Communist languages decreased by two thirds with the collapse Western to Communist translations increased by a factor of seven and reached Western levels Convergence was full in economically beneficial fields such as sciences and only partial in culturally beneficial fields such as history The effects were larger for more Western oriented countries These findings help us understand how institutions shape the international diffusion of knowledge and demonstrate the importance of preferences in determining the type of ideas that diffuse into a country

multidisciplinary approaches in this thoroughly original work which aids readers particularly natural history students who aspire to grasp the far reaching dimensions of the Anthropocene as it affects every facet of human experience past present and future and the rest of planetary sentience With a Preface by Dr Gerald Wayne Clough former Secretary of the Smithsonian Institution and President Emeritus of the Georgia Institute of Technology Foreword by Robert Gillespie President of the non profit Population Communication

Stalin's Ocean-going Fleet: Soviet Jurgen Rohwer, 2017-07-05 In this work two senior naval historians analyze the discussions held in leading Soviet political military and naval circles concerning naval strategy and the decisions taken for warship building programmes They describe the reconstitution of the fleet under difficult conditions from the end of the Civil War up to the mid 1920s leading to a change from classical naval strategy to a Jeune école model in the first two Five Year Plans including efforts to obtain foreign assistance in the design of warships and submarines Their aim is to explain the reasons for the sudden change in 1935 to begin building a big ocean going fleet After a period of co operation with Germany from 1939 41 the plans came to a halt when Hitler attacked the Soviet Union in 1941 Finally this work covers the reopening of the naval planning processes in 1944 and 1945 and the discussions of the naval leadership with Stalin the party and government officials about the direction of the new building programmes as the Cold War began

Differences Emily Parker, Anne M. Van Leeuwen, 2018 Simone de Beauvoir and Luce Irigaray famously insisted on their philosophical differences and this mutual insistence has largely guided the reception of their thought What does it mean to return to Simone de Beauvoir and Luce Irigaray in light of questions and problems of contemporary feminism including intersectional and queer criticisms of their projects How should we now take up amplify and surpass the horizons opened by their projects Seeking answers to these questions the essays in this volume return to Beauvoir and Irigaray to find what the two philosophers share And as the authors make clear the richness of Beauvoir and Irigaray's thought far exceeds the reductive parameters of the Eurocentric bourgeois second wave debates that have constrained interpretation of their work The first section of this volume places Beauvoir and Irigaray in critical dialogue exploring the place of the material and the corporeal in Beauvoir's thought and in doing so reading Beauvoir in a framework that goes beyond a theory of gender and the humanism of phenomenology The essays in the second section of the volume take up the challenge of articulating points of dialogue between the two focal philosophers in logic ethics and politics Combined these essays resituate Beauvoir and Irigaray's work both historically and in light of contemporary demands breaking new ground in feminist philosophy

The Correspondence of Hannah Arendt and Gershom Scholem Hannah Arendt, Gershom Scholem, 2017-11-17 Few people thought as deeply or incisively about Germany Jewish identity and the Holocaust as Hannah Arendt and Gershom Scholem And as this landmark volume reveals much of that thinking was developed in dialogue through more than two decades of correspondence Arendt and Scholem met in 1932 in Berlin and quickly bonded over their mutual admiration for and friendship with Walter Benjamin They began exchanging letters in 1939

and their lively correspondence continued until 1963 when Scholem's vehement disagreement with Arendt's Eichmann in Jerusalem led to a rupture that would last until Arendt's death a dozen years later. The years of their friendship however yielded a remarkably rich bounty of letters together they try to come to terms with being both German and Jewish the place and legacy of Germany before and after the Holocaust the question of what it means to be Jewish in a post Holocaust world and more. Walter Benjamin is a constant presence as his life and tragic death are emblematic of the very questions that preoccupied the pair. Like any collection of letters however the book also has its share of lighter moments accounts of travels gossipy dinner parties and the quotidian details that make up life even in the shadow of war and loss. In a world that continues to struggle with questions of nationalism identity and difference Arendt and Scholem remain crucial thinkers. This volume offers us a way to see them and the development of their thought anew.

Stalin's Ocean-going Fleet Mikhail Monakov, Jürgen Rohwer, 2012-11-12 A study of the development of strategic concepts in Stalin's Navy in the context of his foreign defence policy using original archival documents translated from the Russian.

The Gladiators vs. Spartacus, Volume 1 Henry MacAdam, Duncan Cooper, 2020-11-13 Using previously unpublished correspondence and personal journal entries from screenwriter Abraham Polonsky neglected notices in Variety and other Hollywood trade publications and a wide range of published sources this narrative backstory of rival movie productions of *The Gladiators* vs *Spartacus* documents that intense competition with greater precision and clarity than any other existing account. The key role that this little known chapter of Hollywood's blacklist history played in connection with Dalton Trumbo's successful effort to win screen credit for *Spartacus* is now for the first time available to film historians and lay readers. A companion study Volume 2 is devoted to Abraham Polonsky's rediscovered screenplay.

True and False Reform: What It Means to Be Catholic Gerhard Cardinal Müller, 2023-03-17 From her very beginning the Church has been entrusted with the universal commission to make disciples of all nations Matt 28:19 offering to the entire world the new life and communion with God that is made available in Christ through Baptism and the Christian confession of faith. This charge requires of the Church and her members both an orientation to God and a responsibility for the world neither can be neglected as they form an indissoluble relational unity that flows from the person of Christ the one mediator between God and men 1 Tim 2:5. Yet in the current age the Church appears forced to choose between God and the world between the identity of the faith and its relevance for modern humanity between fidelity to Revelation and innovation. In *True and False Reform* Gerhard Cardinal Müller seeks to provide an aid for navigating the tensions confusions and divisions of this modern crisis directing our attention to the Church's essence characteristics life and mission not as one religion among others but as the site of Christ's saving presence with humanity. It is Christ who is the Church's life and foundation and Christ too who is the source and end of that transformation according to his likeness to which all are called. Müller shows that this universal call to renewal in Christ in faith life and prayer is the basis of the Church's catholicity the principal of all true reform and the impetus for Catholics journeying together with Christians.
