- * The frequency and channel differ depending on the area.

- ** The transmission speed differs depending on the distance and number of obstructions between the transmitter products, the configuration of products, the software conditions, the file traffic, and the products that you use. The transmission may also be cut off depending on the radio wave conditions. The standard values of the transmission speed are the theoretical maximum values for the wireless standards. They are not the actual speeds of data transmission.

Design and specifications are subject to change without notice.

- Standby power consumption: 0.5 W.
- Ruggedness: These standards are referred to the entire printed wiring boards.
- Over 50% power efficiency of amplifier block is achieved with the full digital amplifier, 2-Mixer.
