defining and facing the limitations and opportunities of midlife An absorbing travel narrative about defining and facing the limitations and opportunities of midlife Kirkus Reviews **Architect of Death at Auschwitz** John W. Primomo,2020-07-30 Rudolf Hoss has been called the greatest mass murderer in history As the longest serving commandant of Auschwitz he supervised the killing of more than 1 1 million people Unlike many of his Nazi colleagues who denied either knowing about or participating in the Holocaust Hoss remorselessly admitted both at the Nuremberg war crimes trial and in his memoirs that he sent hundreds of thousands of Jews to their deaths in the gas chambers frankly describing the killing process His innovations included the use of hydrogen cyanide derived from the pesticide Zyklon B in the camp s gas chambers Hoss lent his name to the 1944 operation that gassed 430 000 Hungarian Jews in 56 days exceeding the capacity of the Auschwitz s crematoria This biography follows Hoss throughout his life from his childhood through his Nazi command and eventual reckoning at Nuremberg Using historical records and Hoss autobiography it explores the life and mind of one of history s most notorious and sadistic individuals Book Wars John B. Thompson,2021-03-04 This book tells the story of the turbulent decades when the book publishing industry collided with the great technological revolution of our time From the surge of ebooks to the self publishing explosion and the growing popularity of audiobooks Book Wars provides a comprehensive and fine grained account of technological disruption in one of our most important and successful creative industries Like other sectors publishing has been thrown into disarray by the digital revolution The foundation on which this industry had been based for 500 years the packaging and sale of words and images in the form of printed books was called into question by a technological revolution that enabled symbolic content to be stored manipulated and transmitted quickly and cheaply Publishers and retailers found themselves facing a proliferation of new players who were offering new products and services and challenging some of their most deeply held principles and beliefs The old industry was suddenly thrust into the limelight as bitter conflicts erupted between publishers and new entrants including powerful new tech giants who saw the world in very different ways The book wars had begun While ebooks were at the heart of many of these conflicts Thompson argues that the most fundamental consequences lie elsewhere The print on paper book has proven to be a remarkably resilient cultural form but the digital revolution has transformed the industry in other ways spawning new players which now wield unprecedented power and giving rise to an array of new publishing forms Most important of all it has transformed the broader information and communication environment creating new challenges and new opportunities for publishers as they seek to redefine their role in the digital age This unrivalled account of the book publishing industry as it faces its greatest challenge since Gutenberg will be essential reading for anyone interested in books and their future Children, Religion and the Ethics of Influence John Tillson,2019-06-13 In Children Religion and the Ethics of Influence John Tillson develops a theory concerning which kinds of formative influence are morally permissible impermissible or obligatory Applying this theory to the case of religion he argues that religious initiation in childhood is morally impermissible whether conducted by
