Banking Law Andreas Kokkinis, Andrea Miglionico, 2021-03-16 Banking regulation and the private law governing the bank customer relationship came under the spotlight as a result of the global financial crisis of 2007 2009 More than a decade later UK EU and international regulatory initiatives have transformed the structure business practices financing models and

governance of the banking sector This authoritative text offers an in depth analysis of modern banking law and regulation while providing an assessment of its effectiveness and normative underpinnings Its main focus is on UK law and practice but where necessary it delves into EU law and institutions such as the European Banking Union and supervisory role of the European Central Bank The book also covers the regulation of bank corporate governance and executive remuneration the promises and perils of FinTech and RegTech and the impact of Brexit on UK financial services Although detailed the text remains easy to read and reasonably short pedagogic features such as a glossary of terms and practice questions for each chapter are intended to facilitate learning It is a useful resource for students and scholars of banking law and regulation as well as for regulators and other professionals who are interested in reading a precise and evaluative account of this evolving area of law

Contract Law and the Legislature TT Arvind, Jenny Steele, 2020-08-06 This volume revisits some of the key debates about the nature and shape of contract law in light of the impact that statutes have had on its development With contributions from leading contract law scholars it fills a significant gap in existing theoretical and doctrinal analyses of contract law which rely primarily on cases to put forward accounts of the general principles and structure of contract law Statutory rules are typically seen as being specific instances of legal regulation that carve out exceptions to these general principles for specific reasons of policy This treatment of these rules has resulted in an incomplete understanding of the nature of contract law and the principles that underpin it By drawing specifically on contract statutes the volume produces a more complete picture of modern contract law A companion to the ground breaking Tort Law and the Legislature Common Law Statute and the Dynamics of Legal Change Hart Publishing 2012 this collection will have a significant impact on the study of contract law

Law and Economics of Regulation Klaus Mathis, Avishalom Tor, 2021-04-24 This book explores current issues regarding the regulation of various economic sectors theoretically and empirically discussing both neoclassical and behavioural economics approaches to regulation Regulation has become one of the main determinants of modern economies and virtually every sector is subject to general laws and regulations as well as specific rules and standards A traditional argument to justify regulatory interventions is the promotion of public interests Fixing markets that lack competition balancing information asymmetries internalising externalities mitigating systemic risks and protecting consumers from irrational behaviour are frequently invoked to complement the invisible hand of the market with the visible hand of the state However regulations can lead to unintended consequences and serve the interests of powerful private interest groups rather than the public interest and social welfare In addition new insights from behavioural economics question the traditional regulatory approaches most prominently in attitudes towards consumers Furthermore digitalisation and technological innovation in general present new challenges in terms of both the type of regulation and the regulatory process Part I of this book discusses various theoretical approaches to the economic analysis of regulations while Part II looks at specific applications of the law and economics of regulation

Control of Price Related Terms in Standard Form

Contracts Yeşim M. Atamer, Pascal Pichonnaz, 2019-11-19 This book explores various approaches around the world regarding price term control and particularly discusses the effectiveness of two major paths ex ante regulatory and ex post judicial intervention Price control and its limits are issues that affect all liberal market economies as well as more regulated markets For the past several years courts in many different countries have been confronted with the issue of whether and to what extent they should intervene regarding price related terms in standard form contracts especially in the area of consumer contracts Open price clauses flat remunerations price adjustment clauses clauses giving the seller supplier the right to ask for additional payments bundling or partitioning practices etc a variety of price related terms are used to manipulate customers choices often also by exploiting their behavioral biases The result is an unfavorable contract that is later challenged in court However invalidating a given price term in standard forms e g of a banking or utilities contract only has an inter partes effect which means that in thousands if not millions of similar contracts the same clauses continue to be used Effective procedural rules are often lacking Therefore pricing patterns that serve to hide rather than to reveal the real cost of goods and services require special attention on the part of regulators The aim of this book is to determine the various approaches in the world regarding price term control and particularly to discuss the efficiency of both paths ex ante regulatory and ex post judicial intervention Thanks to its broad comparative analysis this book offers a thorough overview of the methods employed in several countries It gathers twenty eight contributions from national rapporteurs and one supra national rapporteur EU to the 2018 IACL Congress held in Fukuoka These are supplemented by a general report presented at the same IACL Congress which includes a comparative analysis of the national and supranational reports The national contributors hail from around the globe including Africa 1 Asia 5 Europe 17 the European Union 1 and the Americas 5
