The Development of Transnational Policing John McDaniel, Karlie Stonard, David Cox, 2019-10-10 This book draws together the insights of eminent academics and specialists to present an overview of past and present approaches to transnational policing throughout the Anglophone world It aims to revitalize the study of transnational policing by showing that past and present developments in this field remain poorly understood while also suggesting future avenues of research Containing chapters on police history police accountability gendered hate crime in an increasingly online world counter radicalisation strategies being pursued around the world internet facilitated sex trafficking and changes in organised crime amongst others the authors adopt revisionist orthodox and progressive views in order to challenge our understanding and appreciation of developments in transnational policing All of the chapters in the book use policing models employed within the UK as either their focal point or as a point of comparison so that direct comparisons and contrasts can be examined The Development of Transnational Policing illustrates distinctive and separate aspects of what remains an

Twilight Policing Dr. Tessa G. Diphoorn, 2015-10-20 South Africa boasts the largest private security sector in the entire world reflecting deep anxieties about violence security and governance Twilight Policing is an ethnographic study of the daily policing practices of armed response officers a specific type of private security officer and their interactions with citizens and the state police in Durban South Africa This book shows how their policing practices simultaneously undermine and support the state resulting in actions that are neither public nor private but something in between something twilight Their performances of security are also punitive disciplinary and exclusionary and they work to reinforce post apartheid racial and economic inequalities Ultimately Twilight Policing helps to illuminate how citizens survive volatile conditions and to whom they assign the authority to guide them in the process

Parliaments' Contributions to Security Sector Governance/Reform and the Sustainable Development Goals Wilhelm Janse van Rensburg, Nicolette van Zyl-Gous, Lindy Heinecken, 2022-02-24 The United Nations Sustainable Development Goal SDG 16 calls for the establishment of peaceful just and inclusive societies The security sector has the potential to contribute to SDG16 through the fulfilment of its traditional and non traditional security tasks However the security sector can also detract from SDG16 when it acts outside the confines of the law Good governance of the sector is therefore a prerequisite to achieving SDG16 and parliaments can make an important contribution to accountability and good governance Parliaments contribute to both transparency and accountability of the sector through their various functions and act as a counterweight to executive dominance including in the executive's use of security forces Yet in times of crisis states run a risk of executive dominance and executives are often quick to resort to the use of the security sector to address an array of challenges This risk also emerged during the global Covid 19 pandemic where states used the security sector notably the military and police in various ways to respond to the pandemic This study reviewed the utilisation of the security sector in South Africa the Philippines and the UK during the first year of the Covid 19 outbreak resulting in varied outcomes ranging from positive humanitarian contributions to misconduct and brutality that led to the death of citizens The initial lockdowns in these countries constrained parliamentary activity resulting in a lack of adequate parliamentary oversight of security sector utilisation when it was most needed Parliaments did recover oversight of the sector to varied degrees but often with limited depth of inquiry into the Covid 19 deployments To prevent the security sector from detracting from SDG16 the study identified a need for a rapid parliamentary reaction capability to security sector utilisation especially in cases of extraordinary deployments coupled with an elevated risk of executive dominance

Years of Conflict Jason Hart, 2008-09-01 Recent years have witnessed a significant growth of interest in the consequences of political violence and displacement for the young However when speaking of children commentators have often taken the situation of those in early and middle childhood as representative of all young people under eighteen years of age As a consequence the specific situation of

adolescents negotiating the processes of transition towards social adulthood amidst conditions of violence and displacement is commonly overlooked Years of Conflict provides a much needed corrective Drawing upon perspectives from anthropology psychology and media studies as well as the insights of those involved in programmatic interventions it describes and analyses the experiences of older children facing the challenges of daily life in settings of conflict post conflict and refuge Several authors also reflect upon methodological issues in pursuing research with young people in such settings The accounts span the globe taking in Liberia Afghanistan South Africa Peru Jordan UK Western Europe Eastern Africa Iran USA and Colombia This book will be invaluable to those seeking a fuller understanding of conflict and displacement and its effects upon adolescents It will also be welcomed by practitioners concerned to develop more effective ways of providing support to this group

Military Operations in Response to Domestic Emergencies and Global Pandemics Lindy Heineken, Christian Leuprecht, 2025-07-24 This open access book provides a comparative analysis of the deployment of the military in domestic operations the use of the armed forces during the COVID 19 pandemic and the impact of that deployment on civil military relations in 26 countries worldwide The book examines the legal and constitutional regulations under which the military can serve in domestic roles and the extent of domestic deployment before the COVID 19 pandemic It focuses on the roles in which the military served during the pandemic the resources available and the readiness and effectiveness of the military response The volume addresses whether or not the pandemic response was securitized the extent of civilian oversight and control the accountability measures in place and the impact of the COVID 19 deployment on the military s image The volume captures the lessons learnt from the COVID 19 deployment and the implications for future force design structure and organizational transformation Since almost all countries used their military in some capacity to respond to the COVID 19 pandemic this volume offers an opportunity to compare use of the armed forces to provide domestic humanitarian assistance and disaster response
