Brunei and the Future Transformation of Southeast Asia Gabriel Yit Vui Yong, A.K.M. Ahsan Ullah, 2025-08-13 This book adopts an interdisciplinary approach drawing on contributions from experts in various fields such as geography environmental and developmental studies to provide a comprehensive analysis of Brunei's role within Southeast Asia's future trajectory Brunei has often been overlooked or given only cursory coverage in regional analyses and so this book affords significant attention to the Bruneian perspective on regional development By integrating Brunei's unique historical geographical and socio economic context into the broader discussion the book offers insights into how Brunei's aspirations and challenges contribute to shaping the region's future By emphasizing local regional transformation and resilience the book provides practical insights into how Brunei and other Southeast Asian nations can navigate uncertainties adapting to global challenges such as climate change economic shifts and geopolitical dynamics and seize opportunities in the coming decades It is relevant to social scientists across disciplines focused on Southeast Asia and in the Muslim world's role in development

to regime collapse in Nigeria because they neither passed the test of citizens acceptability nor electoral neutrality They

always pushed the country to a dangerous brink which she has often survived after serious constitutional and political

bruises The general election of 1964 rocked the delicate balance of the country resulting in the military coup of January 15

1966 and a thirty month civil war The subsequent effort of the military at restructuring the country did not go far enough to

win the civic confidence of the people The military availed itself of another opportunity of tinkering with the system in 1993

However it demonstrated that it was not immune to civic dishonesty when it annulled the widely acclaimed free and fair

presidential election in June 12 1993 By fits and starts Nigeria held another election in 1999 which was tolerated only

because of citizens fatigue of military rule The elections of 2003 and 2007 were classic examples of make belief democracy

The feeding of inequity and if you will domination persisted A combination of fortune trickery and arm twisting produced a
