Air Power in the Indian Ocean and the Western Pacific Howard M. Hensel, 2020-06-04 This book examines the security dynamics of the Indian Ocean and the Western Pacific concentrating upon an analysis and evaluation of the air power capabilities of the various powers active in the two regions The volume is designed to help improve understanding of the heritage and contemporary challenges confronting the global community in the Indian Ocean and the Western Pacific as well as to illuminate the policies of the various powers involved in the affairs of these regions and the military capabilities that are available in support of those policies The 16 individual chapters examine both the traditional and the non traditional threats that confront the various Indian Ocean and Western Pacific powers and assess the roles played by land based and naval fixed wing and rotary wing manned and unmanned aircraft as well as by offensively and defensively capable ballistic and cruise missiles in addressing these challenges In doing so the various chapters analyze and evaluate the air power doctrine capabilities deployment patterns and missions of the respective states In addition they assess the future issues challenges and responses involving air power as it acting in concert with other military instruments seeks to contribute to securing and promoting the interests of the state This book will be of much interest to students of air power strategic studies Asian and Middle Eastern politics and International Relations

20 Battles Evert Kleynhans, David Brock Katz, 2023-07-28 Favouring manoeuvre over attrition and often punching above their weight South African soldiers have become known for their tenacity dash and ability to defy the odds Their unique directive command style has also helped them to excel in defining battles and operations from the campaign in German South West Africa in 1915 to the cross border operations in Angola during the Border War In 20 Battles military historians Evert Kleynhans and David Brock Katz investigate the evolution of South Africa's armed forces over a century from 1913 to 2013 They track the evolution of the doctrine and structure of the defence force uncovering historical continuity and the lessons learned from past battles and operations What is clear is that when South African soldiers have the freedom to operate according to their manoeuvre doctrine as they had in East Africa in 1916 and southern Ethiopia in 1941 they can achieve stunning results But when hemmed in by rigid doctrine and a top down command style as at Delville Wood in 1916 and Tobruk in 1942 the results can be tragic 20 Battles combines both battlefield drama and crisp analysis and in the process provides a much needed perspective on the South African way of war

Political Corruption in Africa Inge Amundsen, 2019 Analysing political corruption as a distinct but separate entity from bureaucratic corruption this timely book separates these two very different social phenomena in a way that is often overlooked in contemporary studies Chapters argue that political corruption includes two basic critical and related processes extractive and power preserving corruption

Defence Diplomacy and National Security Strategy Ian Liebenberg, Dirk Kruijt, Shrikant Paranjpe, 2020-04-20 The post cold war era presented security challenges that at one level are a continuation of the cold war era at another level these phenomena manifested in new forms Whether the issues of economics and trade transfer of technologies challenges of intervention or humanitarian crisis the countries of the South previously pejoratively labelled Third World or developing countries have continued to address these challenges within the framework of their capabilities and concerns The volume explores defence diplomacies national security challenges and strategies dynamics of diplomatic manoeuvres and strategic resource management of Latin American southern African and Asian countries

Frontiers of Contemporary Management Don Colonne Ph.D., 2020-06-03 This reader friendly book attempts to comprehend all the scattered and diverse understandings of Contemporary Management Thought in a systematic and structured manner into a nutshell It will enable the reader to take a leap jump to the current frontiers of the turbulent and dynamic business world today The first chapter comprises an in depth analysis of the four parameters that govern modern business Uncertainty Ambiguity Paradox and Chaos Despite the fact that business executives fear and resent to deal with such realities exponential financial gains can be made within very short periods by exploring the enormous business potential and emerging opportunities associated with them The second chapter deals with the significance of knowledge in modern management with numerous value additions supplemented by examples The third chapter on Paradigms a buzzword in modern management encapsulates all the existing concepts with a new philosophical interpretation Also it highlights the missed opportunities owing to paradigm shifts and paradigm blindness and the need to redefine the corporate mission from an end use perspective rather than from the conventional end user perspective The fourth chapter identifies a global process error and summarizes the entire industrial revolution from a strategy evolution and transformation perspective

Unconventional Water Resources Manzoor Qadir, Vladimir Smakhtin, Sasha Koo-Oshima, Edeltraud Guenther, 2022-05-26 The world is faced with a growing number of complex and interconnected challenges Water is among the top 5 global risks in terms of impacts which would be far reaching beyond socio economic challenges impacting livelihoods and wellbeing of the people As freshwater resources and

population densities are unevenly distributed across the world some regions and countries are already water scarce Water scarcity is expected to intensify in regions like the Middle East and North Africa MENA which has 6% of the global population but only 1% of the world's freshwater resources Climate change adds to this complexity as it is leading to rainfall uncertainty and extended droughts periods mostly in arid areas Increasing water scarcity is now recognized as a major cause of conflict social unrest and migration and at the same time water is increasingly considered as an instrument for international cooperation to achieve sustainable development Tapping and assessing sustainably every available option in water scarce areas is needed as pressure continues to build on limited water resources The stark fact is that conventional water provisioning approaches relying on snowfall rainfall and river runoff are not enough to meet growing freshwater demand in water scarce areas Water scarce countries need a radical re think of water resource planning and management that includes the creative exploitation of a growing set of viable but unconventional water resources for food production livelihoods ecosystems climate change adaption and sustainable development Unconventional water resources are generated as a by product of specialized processes need suitable pre use treatment require pertinent on farm management when used for irrigation or result from a special technology to collect access water

Military Assistance on Request and the Use of Force Erika De Wet,2020-03-26 In countries such as Syria Iraq South Sudan and Yemen internationally recognized governments embroiled in protracted armed conflicts and with very little control over their territory have requested direct military assistance from other states These requests are often accepted by the other states despite the circumvention of the United Nations Security Council and extensive violation of international humanitarian law and human rights In this book Erika De Wet examines the authority entitled to extend a request for or consent to direct military assistance as well as the type of situations during which such assistance may be requested notably whether it may be requested during a civil war Ultimately De Wet addresses the question of if and to what extent the proliferation of military assistance on the request of a recognized government is changing the rules in international law applying to the use of force

The Economics of Defense Industry Thomas-Durell Young,2023-10-17 This book on the economics of defence industry assesses a series of historical and contemporary case studies that consistently demonstrate the need for governments to recognise and thereafter factor the financial needs of a narrow industrial sector that is capital intensive technologically advanced and that requires a highly skilled labour force Since the end of the cold war Western governments have systematically reduced financial support to their domestic defence industry and have seemingly ignored planning and funding industrial mobilisation In all cases government policy has been to encourage industries to consolidate capacity to

become financially viable in a sector that has seen diminished demand The 2022 Russian invasion of Ukraine has caused Western governments to reassess their previous assumptions Efforts to increase industrial capacity have been met with the iron laws of economics whereby businesses need to show return on investments The chapters in this volume posit that efforts to rationalise industrial capacity and innovation to meet short term financial efficiencies inevitably results in limited expensive and long delays in increased production in times of international crisis This book serves as an essential guide for academics researchers and students interested in defence economics industrial economics international relations and industrial policy The chapters in this book were originally published in various issues of Defense Security Analysis Guns & Roses: Comparative Civil-Military Relations in the Changing Security Environment Steven Ratuva, Radomir Compel, Sergio Aguilar, 2019-01-04 This edited volume provides a critical and comparative discussion of the changing synergy between the military and society in the dramatically transforming global security climate drawing on examples from the Asian Pacific African Middle Eastern European and South American regions The book is interdisciplinary and covers wide ranging issues relating to civil military relations democratization regional security ethnicity peace building and peace keeping civilian oversight internal repression gender regime change and civil society CDS & CDS OTA 16 Years General Knowledge Topic wise Solved Papers (2007 - 2022) 3rd Edition Disha Experts, 2022-05-10 CDS CDS OTA 16 Years General Knowledge Topic wise Solved Papers 2007 2022 3rd Edition CDS CDS OTA 16 Years General Knowledge Topic wise Solved Papers 2007 Feb 2022 April consists of last 16 years from 2007 Paper 1 2022 Paper 1 solved papers of General Knowledge distributed into 9 topics In all there are 31 Question papers from 2007 to 2022 I which have been divided into the above discussed 9 topics Practicing these questions aspirants will come to know about the pattern and toughness of the questions asked in the examination The book contains 3640 MILESTONE MCQ s from the above 31 Question papers The strength of the book lies in the originality of its question papers and Errorless Solutions The solution of each and every question is provided in detail step by step so as to provide 100% concept clarity to the students **Proliferation of Weapons- and Dual-Use**

Technologies Margaret E. Kosal, 2021-07-26 This book explores and analyzes the rapid pace of technological evolution in diplomatic information military and economic sectors which has contributed to a dynamic international policy environment Global political stability is greatly influenced by innovations originating from numerous sources including university labs the technology sector and military research Collectively these innovations guide the movement of people ideas and technology that in turn affect the international balance of power The objective of this volume is to develop new insights into how the proliferation of innovative ideas low cost weapons and dual use technologies impact the changing global security landscape Innovative and dual use technologies can be used for beneficial purposes or defensive purposes Alternatively they may be appropriated or employed for nefarious purposes by hostile military powers and non state actors alike Such actions can threaten global security and stability As the complexity of technological innovations continues to increase existing control

mechanisms such as international regulations and security arrangements may be insufficient to stem the tide of proliferation over time As such this works seeks to assess and present policy solutions to curtail the threat to global stability posed by the proliferation of weapons and dual use technology

The Horn of Africa since the 1960s Aleksi Ylönen,Jan Záhorkík,2017-02-17 The Horn of Africa has long been one of the most dynamic and politically turbulent sub regions on the African continent Host to great ancient civilizations diverse peoples and expansive states the region has experienced massive social economic and political transformations which have given rise to military coups revolutions and intractable ethnic socio economic and religious conflicts This comprehensive volume brings together a team of expert scholars who analyze international regional national and local affairs in the Horn of Africa The chapters demonstrate the intertwined nature of the actors and forces shaping political realities The case studies focusing on Ethiopia Eritrea Somalia Somaliland Sudan and South Sudan eloquently illustrate the complex dynamics connecting the spectrum of political issues in the region The Horn of Africa since the 1960s will be of interest to students and scholars of contemporary Africa and political science

[A Strange Campaign](#) Russell Phillips,2021-05-05 Madagascar provided the stunning backdrop for one of the strangest conflicts of the Second World War when Britain went head to head against one of its closest allies When British forces landed on the island in 1942 the enemy they faced wasn t German Japanese or even Italian this time the opposing forces were French Concerned that Japan might use Madagascar as a strategic base to disrupt the supply line to India Britain was keen to take control of the island However

the Vichy forces were keen to defend the French colony and prevent it becoming part of the British Empire A Strange Campaign The Battle for Madagascar gives a detailed account of this fascinating but little known period of military history Even at the time the conflict was a controversial one pitting two colonial empires against each other However it was also ground breaking as it was the first time Allied forces had staged a major amphibious invasion The lessons learned on the shores of Madagascar would prove to be invaluable two years later during the D day landings in Normandy Military historian Russell Phillips examines the tactics used in the battle for Madagascar which included secret agents dummy paratroopers and attempted bribery But just how did the British finally break down months of resistance by the French And how did a tug of war over an island in the middle of the Indian ocean influence the rest of the Second World War Russell Phillips gives us a well researched enlightening and skillfully detailed account of a little known but clearly pivotal WWII operation that s suited for both curious laypersons and serious researchers Steve Anderson author of the Kaspar Brothers series and other WWII era novels Though it was a world war it is easy to overlook some corners of the conflict Madagascar was strategically important and controlled by Vichy France Phillips has done an excellent job drawing out the story of the British led invasion of the island Angus Wallace host of the WW2 Podcast

SADC Gender Protocol 2018 Barometer Morna, Colleen Lowe, Glenwright, Danny, 2018-08-20 The SADC Protocol on Gender and Development is the only sub regional instrument in the world that brings together global and continental commitments to gender equality in one instrument used to enhance accountability The Southern African Gender Protocol Alliance is a network of country and regional NGOs that campaigned for the Protocol it s updating implementation and tracking Originally aligned to the Millennium Development Goals that expired in 2015 SADC Gender Ministers updated the Protocol and aligned it to the Sustainable development Goals SDGs Beijing Plus Twenty and the Africa Agenda 2063 in 2016 In July 2017 the Ministers adopted a Monitoring Evaluation and Results Framework MERF that is now the basis of reporting 2018 marks the tenth anniversary of the SADC Gender Protocol and the Barometer Moving with the times the Alliance has expanded the two yardsticks in the Barometer the SADC Gender and Development Index SGDI and the Citizen Score Card CSC The Barometer incorporates many MERF and SDG indicators as well as its own unique measures of voice choice and control The Barometer also introduces the Gender Responsive Assessment of Constitutions and Laws conducted by Alliance experts and networks around the region A wealth of data insights and analysis awaits all readers of the Barometer that will also be made available online and in multi media formats The SADC we want is one in which citizens engage step it up for gender equality and make sure we achieve Planet 50 50 by 2030

Law and the Arms Trade Laurence Lustgarten, 2020-09-03 This ground breaking book offers an extensive legal analysis grounded in public EU and international law of arms trade regulation integrated with insights drawn from international relations The sale of weapons and related technologies is globally one of the most politically controversial and ethically contentious forms of commerce Intimately connected with sustaining repressive governments and violations of

international human rights and humanitarian law arms exports are also a central element in the economic and strategic policies of the governments of all large industrial states They have also been the source of abundant corruption and of serious challenges to the norms and effectiveness of constitutional accountability in democratic states On paper the arms trade is heavily regulated national legislation and international treaties are in place which purport to prohibit certain transactions and limit others Yet despite its importance legal and international relations scholarship on the subject has been surprisingly limited This book fills this gap in the literature by examining and comparing the export control regimes of eight leading nations USA Russia the UK France Germany Sweden China and India with chapters contributed by leading experts in the field of law and international relations
