Reference Catalogue of Current Literature, 1920 The Mapmakers John Noble Wilford, 2001-12-04 In his classic text two time Pulitzer Prize winner John Noble Wilford recounts the history of cartography from antiquity to the space age They are among the world's great pioneers and adventurers the mapmakers who for centuries have been expanding our knowledge of who and where we are and where we want to go From the surprisingly accurate silk maps prepared by Chinese cartographers in the second century B C to medieval mapmakers who believed they had fixed the location of paradise through to the expeditions of Columbus and Magellan John Noble Wilford chronicles the exploits of the great pioneers of mapmaking Wilford brings the story up to the present day as he shows the impact of new technologies that make it possible for cartographers to go where no one has been before from the deepest reaches of the universe where astronomers are mapping time as well as space to the inside of the human brain These modern day mapmakers join the many earlier adventurers including ancient Greek stargazers Renaissance seafarers and the explorers who mapped the American West whose achievements shape this dramatic story of human inventiveness and limitless curiosity *THE LONG SHADOW OF THE 19TH CENTURY* Farish A. Noor, Stamford Raffles James Brooke John Crawford and Anna Leonowens were some of those who came from Europe or the United States to Southeast Asia in the nineteenth century and then wrote about what they saw Their writings deserve to be read now for what they truly were Not objective accounts of a Southeast Asia frozen in imperial time but rather as culturally myopic and perspectivist works that betray the subject positions of the authors themselves Reading them would allow us to write the history of the East West encounter through critical lenses that demonstrate the workings of power knowledge in the elaborate war economy of racialised colonial capitalism Many of the tropes used by these colonial era scholars and travellers such as the indolence or savagery of the native population are still very much in use today which means we still live in the long shadow of the 19th century Matahari Books **A Workbook and Study Guide for Regional Geography of the World, Wheeler, Kostbade, Thoman** Jesse H. Wheeler, 1957

Course of Study for the Public Schools of Kalamazoo, Michigan, 1921 **61 Cooperative Learning Activities for Global History Classes** Kate O'Halloran, 1998 This popular volume is an excellent adjunct to world history classes with 61 different activities that spark cooperative learning among diverse student populations
