 Qureshi, 2020-05-15 The Victorians perhaps more than any Britons before them were diggers and sifters of the past Though  
 they were not the first to be fascinated by history the intensity and range of their preoccupations with the past were  
 unprecedented and of lasting importance The Victorians paved the way for our modern disciplines discovered the primeval  
 monsters we now call the dinosaurs and built many of Britain's most important national museums and galleries To a large  
 degree they created the perceptual frameworks through which we continue to understand the past Out of their discoveries  
 new histories emerged giving rise to fresh debates while seemingly well known histories were thrown into confusion by novel  
 tools and methods of scrutiny If in the eighteenth century the study of the past had been the province of a handful of elites  
 new technologies and economic development in the nineteenth century meant that the past in all its brilliant detail was for  
 the first time the property of the many not the few Time Travelers is a book about the myriad ways in which Victorians
